    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
32. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

33. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

34. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

35. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

36. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

37. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

38. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

39. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

40. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

41. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

42. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

43. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

44. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

45. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
46. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
47. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

48. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

49. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

50. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

51. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

52. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

53. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

54. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

55. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

56. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

57. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

58. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

59. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
60. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
61. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
62. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
63. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

64. MTG Arena - Store, Purchases, and Collection FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
65. National Archives Store - United States and Native Nations Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
66. SeeSoar Kids - Women In STEM Trading Card Deck
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

67. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

68. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

69. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

70. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

71. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

72. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

73. $GODS Frequently Asked Questions [FAQ] - Immutable

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

74. How to Play MTG Arena

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

75. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

76. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
77. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
78. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
79. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
80. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

81. PSA Backlog Tracker
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.
82. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
83. Public Library Research at TASCHA - University of Washington
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
84. Pokémon Programming at the Library - ALA GameRT Presentation, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

19. Trading Card Market, by Group

Americas-wide procurement should not be treated as one wholesale relationship. Bandai directs ONE PIECE CARD GAME retailers to distributors in their own area and separates United States, Canadian, and Latin American contacts. ■ ■■■■■■■■ ■■■■■■■■ ■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■ ■■■■■ ■■■■■■■■ ■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■

Europe, Middle East & Africa combines different commercial access arrangements rather than one transferable distributor appointment. ■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■ A consolidated intermediary may reduce coordination work, but European or Gulf coverage does not establish African distribution rights, and a product-ordering relationship does not establish organized-play approval.

■■■■■ ■■■■■■■■ ■ ■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■ ■ ■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■ ■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■ ■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■ Pokémon's 2023 English-card promotion across Singapore, Malaysia, and the Philippines demonstrates a shared publisher campaign for those participants, not an ASEAN-wide catalog or supply commitment. Regional coordination remains conditional on destination-specific channel acceptance.

GCC customs arrangements create a possible shared import platform without supplying publisher authorization. UAE customs guidance distinguishes first-entry clearance, evidence that duties were paid, and the treatment of goods leaving free zones. ■ ■■■■ ■■■■■■ ■■■■■■■■■■ ■ ■■■■ ■■■ ■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■ ■ ■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■ ■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■ ■ ■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■■

Australasia has a documented common consumer-channel initiative: Pokémon announced its Australia and New Zealand e-commerce expansion in May 2024, and its support listing identifies websites for both countries. ■■■■ ■■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■ ■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ Separate storefronts also do not establish identical

assortments or permission to fulfill every cross-Tasman order; the actual product and destination terms remain prerequisites.

Nordic coordination has a concrete distribution basis but should not be generalized beyond its documented coverage. ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ Shared buying discussions therefore do not eliminate border obligations.

The European Union offers a different inventory-location choice. ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ Consolidating stock can simplify customs handling, but partner dependence and destination-specific obligations remain; customs release alone is not complete commercial clearance.

BRICS comparisons should follow publisher and offering commitments rather than assume common localization. Pokémon Shanghai announced a Simplified Chinese program for mainland China in 2022, whereas Wizards' 2024 language policy announced withdrawal of Portuguese and Simplified Chinese tabletop products while retaining English-product and local-play support. ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪

G7 analysis is useful for comparing publisher-direct formats, not assuming a uniform retail footprint. Pokémon Center support identifies websites for the United States, Canada, the United Kingdom, and Germany, while separately describing physical Pokémon Center locations in Japan. ▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪

NATO membership likewise does not extend a platform's trading-card assurance commitment. ▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪

These geographic groups overlap and remain non-additive analytical views within the Global market.

Sources & Evidence

1. eBay Authenticity Guarantee for Trading Cards
   · eBay's documented U.S. trading-card program requires U.S. buyers and permits U.S. or Canadian sellers, rather than extending coverage according to alliance membership. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
2. General product compliance
   · EU product-compliance guidance distinguishes manufacturers, importers, distributors, fulfillment businesses, and intermediary service providers, with obligations tied to their roles and applicable product rules. ([europa.eu](https://europa.eu/youreurope/business/product-rules-compliance/general-product-compliance/index_en.htm))
3. Social Media & Meta Suite Manager
   · Solarpop describes itself as a South African distributor and identifies Pokémon, Magic: The Gathering, and Yu-Gi-Oh! among its official distribution brands. ([solarpop.co.za](https://www.solarpop.co.za/vacancy-social-media))

4. GETTING STARTED – FOR STORES | ONE PIECE CARD GAME - Official Web Site

   · Bandai separates U.S., Canadian, European, Latin American, and Middle Eastern distributor contacts, directs retailers to their own area, and requires release-date compliance. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/forstore/))

5. Circular No. 06/2020: Entry into Force of the First Protocol to Amend the ASEAN Trade in Goods Agreement and Implementation of the ASEAN-wide Self Certification Scheme

   · Singapore Customs describes ATIGA origin declarations by certified exporters under the ASEAN-wide self-certification scheme. This supports distinguishing origin eligibility from dispatch location. ([customs.gov.sg](https://www.customs.gov.sg/news-and-media/circulars/2020_09_01-Circular%xx.xx.pdf))

6. “Pikachu” Promo card distribution set for Fall 2023!

   · Pokémon's fall 2023 promotion explicitly included English-version players in Singapore, Malaysia, and the Philippines; it is a bounded campaign example rather than an ASEAN-wide supply agreement. ([asia.pokemon-card.com](https://asia.pokemon-card.com/my/archives/xx.xx/))

7. Customs Union for GCC States

   · UAE guidance describes GCC first-entry clearance, evidence of duties paid, destination restrictions, and customs treatment when goods leave free zones. No shipment-specific tariff conclusion is drawn. ([icp.gov.ae](https://icp.gov.ae/en/customs-union-for-gcc/))

8. Pokémon Center Online Store Coming Soon to Australia and New Zealand

   · The May xx.xx 2024 announcement described planned Pokémon Center consumer e-commerce expansion into Australia and New Zealand, including the Pokémon Trading Card Game. ([pokemon.gamespress.com](https://pokemon.gamespress.com/Pokemon-Center-Online-Store-Coming-Soon-to-Australia-and-New-Zealand))

9. Does Pokémon Center have a physical retail location?

   · Pokémon Center support identifies websites for the United States, Canada, United Kingdom, Germany, Australia, and New Zealand, and separately identifies physical Pokémon Center locations in Japan. ([support.pokemoncenter.com](https://support.pokemoncenter.com/hc/en-us/articles/xx.xx-Does-Pok%C3%A9mon-Center-have-a-physical-retail-location))

10. About Us

    · Asmodee Nordics identifies Sweden, Denmark, Norway, and Finland as its principal distribution countries and lists Pokémon, Magic, Adrenalyn XL, and Yu-Gi-Oh! among its collectible-card brands. ([asmodeenordics.com](https://www.asmodeenordics.com/about-us/))

11. European Economic Area (EEA) Agreement

    · European Commission guidance states that Norway and Iceland are outside the EU customs union and retain customs borders and procedures with the EU. ([trade.ec.europa.eu](https://trade.ec.europa.eu/access-to-markets/en/content/european-economic-area-eea-agreement))

12. Importation

    · The European Commission explains that customs clearance into free circulation permits goods to circulate within the EU customs territory. Shared card inventory is a conditional commercial implication. ([taxation-customs.ec.europa.eu](https://taxation-customs.ec.europa.eu/customs/customs-procedures-import-and-export/importation_en))

13. 宝可梦集换式卡牌游戏简中版 10 月 28 日正式发售！官方积分赛事预计将于年内举办！

    · Pokémon Shanghai's October xx.xx 2022 announcement specified a mainland China Simplified Chinese launch for October xx.xx 2022, providing a historical localized-program example. ([pokemon.cn](https://www.pokemon.cn/tcg/event/xx.xx.html))

14. Changes to Magic Product Languages in 2024

    · Wizards' February xx.xx 2024 policy announced withdrawal of Portuguese and Simplified Chinese tabletop products while retaining English-product and local-play support. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/changes-to-magic-product-languages-in-2024))

15. What is NATO?
    · NATO describes itself as a political and military alliance; trading-card channel eligibility is established separately through the platform-specific evidence. ([nato.int](https://www.nato.int/en/what-is-nato))
16. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025
    · Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
17. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
    · Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
18. Topps - Investor Presentation Filed as DEFA14A, June 2021
    · Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
    · Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
19. eBay Launches Authentication for Trading Cards - January 2022
    · Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.
    · Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.
20. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026
    · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.
    · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

Authentication-Only Cards	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Condition-Graded Cards	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Uncertified Cards	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Others	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 259. G7 Trading Card Market Size, by Buyer Sector, 2017-2040 (USD Million)

Buyer Sector	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Commercial Buyers	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Household Buyers	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Public and Nonprofit Buyers	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024 and FY2025 card-game/trading-card retail values are JPY xx.xx and JPY xx.xx. April-March periods and MSRP valuation require calendar, scope and realization bridges; this constrains Japanese primary spending, not resale or the final forecast.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024 and FY2025 card-game/trading-card retail values are JPY xx.xx and JPY xx.xx. April-March periods and MSRP valuation require calendar, scope and realization bridges; this constrains Japanese primary spending, not resale or the final forecast.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions totaled USD xx.xx in 2020 and again in the first half of 2021. These dated, mixed-card transactions anchor the inherited channel bridge; 2025 secondary attribution and 2032 retention are assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions totaled USD xx.xx in 2020 and again in the first half of 2021. These dated, mixed-card transactions anchor the inherited channel bridge; 2025 secondary attribution and 2032 retention are assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

RESEARCH SAMPLE REPORT

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Federal Reserve Board - Foreign Exchange Rates, G.5A Annual, January 5, 2026

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual exchange-rate table gives JPY xx.xx per USD, used to convert the Japanese primary-flow benchmark. It does not establish a geographic share or future exchange rate.

7. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of all-category live sales in 2025. The model separately assumes eligible-card content and US destination attribution; this is not reported US card GMV.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of all-category live sales in 2025. The model separately assumes eligible-card content and US destination attribution; this is not reported US card GMV.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

8. Where Culture Meets Commerce: Whatnot’s 2027 Consumer Trends Report
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))
9. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
10. Bestselling Trading Card Games, Q4 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

11. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

12. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

13. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

14. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

15. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
16. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
17. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
18. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
19. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

20. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
21. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
22. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
23. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
24. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

25. The Community Behind the Hobby's Biggest Weekend

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

26. Card Breaks Policy - Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence.
([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume.
([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume.
([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

27. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

28. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
29. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
30. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.

31. COMC Shipping Update - May 2025

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

32. PSA Vault Spotlight Auctions

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

33. PSA Vault Terms of Service

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

34. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

35. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

36. Courtyard - Terms of Service

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

37. Panini Blockchain Builds a Bridge

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

38. Panini NFT FAQs - Blockchain & Marketplace Help

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

39. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

40. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

41. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

42. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

43. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

44. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
45. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
46. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

47. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

48. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

49. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

50. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

51. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

52. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

53. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

54. Can players trade cards in Pokémon TCG Live?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
55. Pokémon TCG Pocket Trading FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
56. Code Card Redemption FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
57. The 2025 OECD definition of e-commerce and guidelines for interpretation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

58. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
59. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
60. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
61. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
62. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

63. MTG Arena - Store, Purchases, and Collection FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.

64. National Archives Store - United States and Native Nations Trading Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.

65. SeeSoar Kids - Women In STEM Trading Card Deck

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

66. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

67. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

68. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

69. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

70. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

71. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

72. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

73. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

74. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

75. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
76. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
77. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
78. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
79. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

80. PSA Backlog Tracker
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.
81. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
82. Public Library Research at TASCHA - University of Washington
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
83. Pokémon Programming at the Library - ALA GameRT Presentation, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions totaled USD xx.xx in 2020 and again in the first half of 2021. These dated, mixed-card transactions anchor the inherited channel bridge; 2025 secondary attribution and 2032 retention are assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions totaled USD xx.xx in 2020 and again in the first half of 2021. These dated, mixed-card transactions anchor the inherited channel bridge; 2025 secondary attribution and 2032 retention are assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

· Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of all-category live sales in 2025. The model separately assumes eligible-card content and US destination attribution; this is not reported US card GMV.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of all-category live sales in 2025. The model separately assumes eligible-card content and US destination attribution; this is not reported US card GMV.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

7. Yu-Gi-Oh! x eFootball Collaboration - List of Stores
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official campaign roster identifies a Tirana store. This supports a positive specialist-channel premise, not the modeled purchasing pool or national sales.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official campaign roster identifies a Tirana store. This supports a positive specialist-channel premise, not the modeled purchasing pool or national sales.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named Bulgarian stores establish a bounded commercial footprint; the list is neither a full retail census nor a revenue measure.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named Bulgarian stores establish a bounded commercial footprint; the list is neither a full retail census nor a revenue measure.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named Croatian stores support specialist-channel presence, with spending and retention remaining modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named Croatian stores support specialist-channel presence, with spending and retention remaining modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Listed Czech stores support channel presence but demonstrate the incompleteness of using a single campaign roster as a whole-market weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Listed Czech stores support channel presence but demonstrate the incompleteness of using a single campaign roster as a whole-market weight.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A Tallinn venue supports a positive Estonian specialist-channel assumption, without measuring completed buyer spending.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A Tallinn venue supports a positive Estonian specialist-channel assumption, without measuring completed buyer spending.
8. Where Culture Meets Commerce: Whatnot’s 2027 Consumer Trends Report
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

9. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
10. Bestselling Trading Card Games, Q4 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

11. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

12. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

13. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

14. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

15. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
16. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
17. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
18. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
19. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

20. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
21. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
22. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
23. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
24. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

25. The Community Behind the Hobby's Biggest Weekend
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
26. Card Breaks Policy - Whatnot
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
27. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

28. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
29. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
30. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.

31. COMC Shipping Update - May 2025

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

32. PSA Vault Spotlight Auctions

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

33. PSA Vault Terms of Service

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

34. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

35. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

36. Courtyard - Terms of Service

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

37. Panini Blockchain Builds a Bridge

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

38. Panini NFT FAQs - Blockchain & Marketplace Help

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

39. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

40. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

41. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

42. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

43. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

44. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
45. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
46. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

47. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

48. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

49. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

50. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

51. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

52. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

53. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

54. Can players trade cards in Pokémon TCG Live?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
55. Pokémon TCG Pocket Trading FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
56. Code Card Redemption FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
57. The 2025 OECD definition of e-commerce and guidelines for interpretation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

58. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
59. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
60. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
61. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
62. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

63. MTG Arena - Store, Purchases, and Collection FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.

64. National Archives Store - United States and Native Nations Trading Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.

65. SeeSoar Kids - Women In STEM Trading Card Deck

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

66. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

67. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

68. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

69. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

70. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

71. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

72. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

73. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

74. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

75. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
76. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
77. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
78. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
79. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

80. PSA Backlog Tracker
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.
81. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
82. Public Library Research at TASCHA - University of Washington
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
83. Pokémon Programming at the Library - ALA GameRT Presentation, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.
   - Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))
6. COPAG - Conheça o Jogo
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: COPAG describes its Portuguese-language Pokémon production and distribution role in Brazil. This supports a localized commercial-access premise, not the modeled buyer count or national sales.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: COPAG describes its Portuguese-language Pokémon production and distribution role in Brazil. This supports a localized commercial-access premise, not the modeled buyer count or national sales.
7. Kidsland International Holdings - Pokémon TCG Operational Service Collaboration, September 10, 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing documents the September xx.xx 2025 Beijing Pokémon TCG Official Gym opening and its product-sales role. Only this company's dated commercial event is used; unattributed market-size and growth assertions are excluded.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing documents the September xx.xx 2025 Beijing Pokémon TCG Official Gym opening and its product-sales role. Only this company's dated commercial event is used; unattributed market-size and growth assertions are excluded.

8. Where Culture Meets Commerce: Whatnot’s 2027 Consumer Trends Report
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))
9. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
10. Bestselling Trading Card Games, Q4 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

11. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

12. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

13. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

14. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

15. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
16. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
17. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
18. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
19. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

20. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
21. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
22. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
23. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
24. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

25. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

26. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

27. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

28. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

29. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

30. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
31. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
32. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

33. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

34. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

35. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

36. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

37. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

38. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

39. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

40. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

41. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

42. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

43. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

44. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

45. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
46. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
47. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

48. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

49. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

50. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

51. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

52. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

53. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

54. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

55. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

56. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

57. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

58. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

59. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
60. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
61. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
62. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
63. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

64. MTG Arena - Store, Purchases, and Collection FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
65. National Archives Store - United States and Native Nations Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
66. SeeSoar Kids - Women In STEM Trading Card Deck
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

67. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

68. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

69. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

70. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

71. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

72. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

73. $GODS Frequently Asked Questions [FAQ] - Immutable

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

74. How to Play MTG Arena

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

75. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

76. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
77. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
78. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
79. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
80. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

81. PSA Backlog Tracker

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.

82. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.

83. Public Library Research at TASCHA - University of Washington

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.

84. Pokémon Programming at the Library - ALA GameRT Presentation, 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

19.4. European Union

Table 288. European Union Trading Card Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.
   - Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))
6. Yu-Gi-Oh! x eFootball Collaboration - List of Stores
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named Bulgarian stores establish a bounded commercial footprint; the list is neither a full retail census nor a revenue measure.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named Bulgarian stores establish a bounded commercial footprint; the list is neither a full retail census nor a revenue measure.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named Croatian stores support specialist-channel presence, with spending and retention remaining modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named Croatian stores support specialist-channel presence, with spending and retention remaining modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two listed Cypriot venues support a bounded channel premise, not a national sales observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two listed Cypriot venues support a bounded channel premise, not a national sales observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Listed Czech stores support channel presence but demonstrate the incompleteness of using a single campaign roster as a whole-market weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Listed Czech stores support channel presence but demonstrate the incompleteness of using a single campaign roster as a whole-market weight.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A Tallinn venue supports a positive Estonian specialist-channel assumption, without measuring completed buyer spending.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A Tallinn venue supports a positive Estonian specialist-channel assumption, without measuring completed buyer spending.

7. Where Culture Meets Commerce: Whatnot’s 2027 Consumer Trends Report
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))
8. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
9. Bestselling Trading Card Games, Q4 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

10. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

11. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

12. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

13. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

14. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
15. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
16. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
17. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
18. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

19. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
20. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
21. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
22. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
23. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

24. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

25. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

26. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

27. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

28. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

29. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
30. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
31. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

32. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

33. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

34. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

35. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

36. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

37. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

38. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

39. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

40. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

41. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

42. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

43. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

44. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
45. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
46. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

47. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

48. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

49. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

50. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

51. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

52. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

53. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

54. Can players trade cards in Pokémon TCG Live?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
55. Pokémon TCG Pocket Trading FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
56. Code Card Redemption FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
57. The 2025 OECD definition of e-commerce and guidelines for interpretation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

58. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
59. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
60. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
61. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
62. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

63. MTG Arena - Store, Purchases, and Collection FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.

64. National Archives Store - United States and Native Nations Trading Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.

65. SeeSoar Kids - Women In STEM Trading Card Deck

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

66. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

67. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

68. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

69. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

70. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

71. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

72. $GODS Frequently Asked Questions [FAQ] - Immutable

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

73. How to Play MTG Arena

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

74. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

75. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
76. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
77. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
78. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
79. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

80. PSA Backlog Tracker
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.
81. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
82. Public Library Research at TASCHA - University of Washington
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
83. Pokémon Programming at the Library - ALA GameRT Presentation, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

19.5. ASEAN

Table 302. ASEAN Trading Card Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Brunei	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Cambodia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

7. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

8. Bestselling Trading Card Games, Q4 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

9. Steam Trading Cards - Frequently Asked Questions
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
10. MTG Standard Format
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

11. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

12. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

13. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
14. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
15. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
16. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
17. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

18. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
19. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
20. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
21. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
22. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

23. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

24. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

25. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

26. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

27. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

28. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
29. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
30. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

31. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

32. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

33. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

34. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

35. Courtyard - Terms of Service

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

36. Panini Blockchain Builds a Bridge

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

37. Panini NFT FAQs - Blockchain & Marketplace Help

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

38. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

39. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

40. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

41. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

42. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

43. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))

44. Pokémon Clubs at Your Library

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.

45. Steam Subscriber Agreement

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

46. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

47. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

48. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

49. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

50. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

51. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

52. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

53. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

54. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

55. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

56. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

57. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
58. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
59. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
60. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
61. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

62. MTG Arena - Store, Purchases, and Collection FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.

63. National Archives Store - United States and Native Nations Trading Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.

64. SeeSoar Kids - Women In STEM Trading Card Deck

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

65. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

66. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

67. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

68. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

69. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

70. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

71. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

72. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

73. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

74. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
75. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
76. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
77. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
78. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

79. PSA Backlog Tracker

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.

80. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.

81. Public Library Research at TASCHA - University of Washington

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.

82. Pokémon Programming at the Library - ALA GameRT Presentation, 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. OPOMAN - Trading Cards in Muscat

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Omani retailer advertises Pokémon and One Piece card offerings and local service. This is counterevidence to interpreting omission from a publisher notice as zero access; the base-year backcast and spending pool remain assumptions.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Omani retailer advertises Pokémon and One Piece card offerings and local service. This is counterevidence to interpreting omission from a publisher notice as zero access; the base-year backcast and spending pool remain assumptions.

7. Where Culture Meets Commerce: Whatnot’s 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

8. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
9. Bestselling Trading Card Games, Q4 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

10. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

11. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

12. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

13. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

14. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
15. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
16. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
17. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
18. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

19. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
20. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
21. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
22. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
23. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

24. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

25. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

26. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

27. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

28. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

29. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
30. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
31. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

32. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

33. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

34. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

35. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

36. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

37. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

38. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

39. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

40. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

41. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

42. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

43. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

44. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
45. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
46. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

47. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

48. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

49. Whatnot - Teens on Whatnot

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

50. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

51. Hasbro - MAGIC: THE GATHERING, Player Demographics

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

52. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

53. Collecting on Upper Deck e-Pack

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

54. Can players trade cards in Pokémon TCG Live?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
55. Pokémon TCG Pocket Trading FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
56. Code Card Redemption FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
57. The 2025 OECD definition of e-commerce and guidelines for interpretation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

58. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
59. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
60. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
61. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
62. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

63. MTG Arena - Store, Purchases, and Collection FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
64. National Archives Store - United States and Native Nations Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
65. SeeSoar Kids - Women In STEM Trading Card Deck
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

66. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

67. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

68. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

69. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

70. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

71. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

72. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

73. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

74. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

75. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
76. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
77. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
78. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
79. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

80. PSA Backlog Tracker
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.
81. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
82. Public Library Research at TASCHA - University of Washington
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
83. Pokémon Programming at the Library - ALA GameRT Presentation, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

20. Trading Card Market, by Country

The United States and Canada are not symmetrical destinations under eBay's documented U.S. trading-card authentication program. Canadian sellers can participate in eligible sales to U.S. buyers, but that commitment does not cover Canadian buyers. ■■■ ■■■■ ■■■■■■■ ■■■■ ■■■■■■ ■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■■ ■■ ■■■ ■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■ ■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■ ■■■ ■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■ ■■ ■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■

Sources & Evidence

1. eBay Authenticity Guarantee for Trading Cards

   · The same page states that internationally shipped items going to the United States are ineligible for returns. This is a program condition, not a conclusion about statutory remedies or other programs. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))

2. One Piece Card Game in Middle Eastern Region

   · Bandai's May xx.xx 2026 notice linked retailers in Bahrain, Saudi Arabia, Kuwait, Qatar, and the UAE while describing Middle Eastern TCG+ implementation as being prepared. It does not establish a planned store's completed onboarding. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/news/middle-eastern.html))

3. Social Media & Meta Suite Manager

   · The company's description supports a South African account-route example, but does not establish distribution rights for other African destinations. ([solarpop.co.za](https://www.solarpop.co.za/vacancy-social-media))

4. 宝可梦集换式卡牌游戏简中版 10 月 28 日正式发售！官方积分赛事预计将于年内举办！

   · The announcement establishes its stated local program and planned launch date, not a particular dealer's continuing commercial appointment. ([pokemon.cn](https://www.pokemon.cn/tcg/event/xx.xx.html))

5. Changes to Magic Product Languages in 2024

   · The policy separated Portuguese tabletop discontinuation after Modern Horizons xx.xx from continued Portuguese Arena support, supporting a medium-specific comparison rather than verification of every subsequent release.
   ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/changes-to-magic-product-languages-in-2024))

6. Official KDE-US Yu-Gi-Oh! TRADING CARD GAME Tournament Policy, Version 2.5 - North & Latin America Territories

   · Konami's North and Latin America policy is effective September xx.xx 2025. Its translation exceptions cover English or Spanish in Spanish-speaking Latin America and Portuguese or English in Brazil.
   ([img.yugioh-card.com](https://img.yugioh-card.com/en/downloads/penalty_guide/YGOTCG_Tournament_Policy_v_2_5.pdf))

7. Questions about registration

   · Germany's packaging register states that registration must precede the first placement of packaging filled with goods on the German market. Applicability to a dealer remains role-specific.
   ([verpackungsregister.org](https://www.verpackungsregister.org/en/faq-detail-category/questions-about-registration))

8. FAQ Regional Qualifiers

   · Konami's European Regional Qualifier guidance excludes OCG cards, including Asian-English cards, from TCG tournaments, establishing a destination-event eligibility distinction rather than a collecting prohibition.
   ([yugioh-card.com](https://www.yugioh-card.com/eu/faq-regional-qualifiers/))

9. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

   · Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.

10. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories

    · Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024 and FY2025 card-game/trading-card retail values are JPY xx.xx and JPY xx.xx. April-March periods and MSRP valuation require calendar, scope and realization bridges; this constrains Japanese primary spending, not resale or the final forecast.

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024 and FY2025 card-game/trading-card retail values are JPY xx.xx and JPY xx.xx. April-March periods and MSRP valuation require calendar, scope and realization bridges; this constrains Japanese primary spending, not resale or the final forecast.

11. Topps - Investor Presentation Filed as DEFA14A, June 2021

    · Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.

    · Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.

12. eBay Launches Authentication for Trading Cards - January 2022
    - Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.
    - Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions totaled USD xx.xx in 2020 and again in the first half of 2021. These dated, mixed-card transactions anchor the inherited channel bridge; 2025 secondary attribution and 2032 retention are assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions totaled USD xx.xx in 2020 and again in the first half of 2021. These dated, mixed-card transactions anchor the inherited channel bridge; 2025 secondary attribution and 2032 retention are assumptions.
13. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.
    - Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.
14. Federal Reserve Board - Foreign Exchange Rates, G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual exchange-rate table gives JPY xx.xx per USD, used to convert the Japanese primary-flow benchmark. It does not establish a geographic share or future exchange rate.
15. Whatnot's 2026 State of Live Selling Report: Time to Go Live
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of all-category live sales in 2025. The model separately assumes eligible-card content and US destination attribution; this is not reported US card GMV.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of all-category live sales in 2025. The model separately assumes eligible-card content and US destination attribution; this is not reported US card GMV.
16. COPAG - Conheça o Jogo
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: COPAG describes its Portuguese-language Pokémon production and distribution role in Brazil. This supports a localized commercial-access premise, not the modeled buyer count or national sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: COPAG describes its Portuguese-language Pokémon production and distribution role in Brazil. This supports a localized commercial-access premise, not the modeled buyer count or national sales.
17. ONE PIECE CARD GAME - Getting Started for Stores
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: An Oceania ordering route supports the Australian channel premise; national paid demand and forecast participation remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: An Oceania ordering route supports the Australian channel premise; national paid demand and forecast participation remain modeled.

18. Kidsland International Holdings - Pokémon TCG Operational Service Collaboration, September 10, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing documents the September xx.xx 2025 Beijing Pokémon TCG Official Gym opening and its product-sales role. Only this company's dated commercial event is used; unattributed market-size and growth assertions are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing documents the September xx.xx 2025 Beijing Pokémon TCG Official Gym opening and its product-sales role. Only this company's dated commercial event is used; unattributed market-size and growth assertions are excluded.

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions totaled USD xx.xx in 2020 and again in the first half of 2021. These dated, mixed-card transactions anchor the inherited channel bridge; 2025 secondary attribution and 2032 retention are assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions totaled USD xx.xx in 2020 and again in the first half of 2021. These dated, mixed-card transactions anchor the inherited channel bridge; 2025 secondary attribution and 2032 retention are assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

· Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of all-category live sales in 2025. The model separately assumes eligible-card content and US destination attribution; this is not reported US card GMV.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of all-category live sales in 2025. The model separately assumes eligible-card content and US destination attribution; this is not reported US card GMV.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

7. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))
8. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
9. Bestselling Trading Card Games, Q4 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

10. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

11. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

12. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

13. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

14. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
15. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
16. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
17. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
18. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

19. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
20. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
21. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
22. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
23. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

24. The Community Behind the Hobby's Biggest Weekend
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
25. Card Breaks Policy - Whatnot
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
26. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

27. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
28. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
29. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.

30. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
31. PSA Vault Spotlight Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
32. PSA Vault Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

33. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

34. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

35. Courtyard - Terms of Service

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

36. Panini Blockchain Builds a Bridge

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

37. Panini NFT FAQs - Blockchain & Marketplace Help

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

38. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

39. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

40. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

41. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

42. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

43. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
44. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
45. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

46. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

47. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

48. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

49. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

50. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

51. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

52. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

53. Can players trade cards in Pokémon TCG Live?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
54. Pokémon TCG Pocket Trading FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
55. Code Card Redemption FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
56. The 2025 OECD definition of e-commerce and guidelines for interpretation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

57. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
58. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
59. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
60. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
61. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

62. MTG Arena - Store, Purchases, and Collection FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
63. National Archives Store - United States and Native Nations Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
64. SeeSoar Kids - Women In STEM Trading Card Deck
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

65. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

66. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

67. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

68. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

69. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

70. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

71. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

72. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

73. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

74. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
75. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
76. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
77. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
78. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

79. PSA Backlog Tracker

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.

80. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.

81. Public Library Research at TASCHA - University of Washington

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.

82. Pokémon Programming at the Library - ALA GameRT Presentation, 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

20.2. Japan

Table 345. Japan Trading Card Market Size, 2017-2040 (USD Million)

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

· Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024 and FY2025 card-game/trading-card retail values are JPY xx.xx and JPY xx.xx. April-March periods and MSRP valuation require calendar, scope and realization bridges; this constrains Japanese primary spending, not resale or the final forecast.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024 and FY2025 card-game/trading-card retail values are JPY xx.xx and JPY xx.xx. April-March periods and MSRP valuation require calendar, scope and realization bridges; this constrains Japanese primary spending, not resale or the final forecast.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Federal Reserve Board - Foreign Exchange Rates, G.5A Annual, January 5, 2026

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual exchange-rate table gives JPY xx.xx per USD, used to convert the Japanese primary-flow benchmark. It does not establish a geographic share or future exchange rate.

7. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

8. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
9. Bestselling Trading Card Games, Q4 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

10. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

11. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

12. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

13. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

14. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
15. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
16. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
17. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
18. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

19. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
20. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
21. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
22. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
23. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

24. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

25. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

26. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

27. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

28. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

29. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
30. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
31. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

32. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

33. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

34. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

35. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

36. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

37. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

38. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

39. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

40. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

41. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

42. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

43. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

44. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
45. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
46. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

47. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

48. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

49. Whatnot - Teens on Whatnot

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

50. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

51. Hasbro - MAGIC: THE GATHERING, Player Demographics

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

52. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

53. Collecting on Upper Deck e-Pack

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

54. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

55. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

56. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

57. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

58. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
59. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
60. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
61. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
62. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

63. MTG Arena - Store, Purchases, and Collection FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.

64. National Archives Store - United States and Native Nations Trading Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.

65. SeeSoar Kids - Women In STEM Trading Card Deck

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

66. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

67. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

68. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

69. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

70. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

71. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

72. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

73. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

74. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

75. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
76. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
77. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
78. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
79. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

80. PSA Backlog Tracker
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.
81. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
82. Public Library Research at TASCHA - University of Washington
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
83. Pokémon Programming at the Library - ALA GameRT Presentation, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.
   - Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))
6. Kidsland International Holdings - Pokémon TCG Operational Service Collaboration, September 10, 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing documents the September xx.xx 2025 Beijing Pokémon TCG Official Gym opening and its product-sales role. Only this company's dated commercial event is used; unattributed market-size and growth assertions are excluded.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing documents the September xx.xx 2025 Beijing Pokémon TCG Official Gym opening and its product-sales role. Only this company's dated commercial event is used; unattributed market-size and growth assertions are excluded.
7. Where Culture Meets Commerce: Whatnot’s 2027 Consumer Trends Report
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

8. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
9. Bestselling Trading Card Games, Q4 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

10. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

11. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

12. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

13. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

14. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
15. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
16. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
17. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
18. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

19. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
20. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
21. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
22. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
23. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

24. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

25. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

26. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

27. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

28. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

29. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
30. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
31. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

32. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

33. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

34. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

35. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

36. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

37. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

38. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

39. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

40. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

41. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

42. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

43. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

44. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
45. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
46. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

47. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

48. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

49. Whatnot - Teens on Whatnot

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

50. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

51. Hasbro - MAGIC: THE GATHERING, Player Demographics

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

52. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

53. Collecting on Upper Deck e-Pack

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

54. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

55. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

56. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

57. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

58. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
59. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
60. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
61. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
62. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

63. MTG Arena - Store, Purchases, and Collection FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.

64. National Archives Store - United States and Native Nations Trading Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.

65. SeeSoar Kids - Women In STEM Trading Card Deck

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

66. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

67. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

68. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

69. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

70. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

71. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

72. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

73. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

74. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

75. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
76. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
77. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
78. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
79. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

80. PSA Backlog Tracker
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.
81. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
82. Public Library Research at TASCHA - University of Washington
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
83. Pokémon Programming at the Library - ALA GameRT Presentation, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

20.4. Germany

Table 371. Germany Trading Card Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

7. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

8. Bestselling Trading Card Games, Q4 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

9. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

10. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

11. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

12. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

13. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
14. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
15. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
16. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
17. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

18. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
19. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
20. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
21. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
22. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

23. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

24. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

25. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

26. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

27. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

28. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
29. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
30. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

31. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

32. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

33. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

34. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

35. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

36. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

37. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

38. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

39. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

40. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

41. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

42. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

43. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
44. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
45. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

46. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

47. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

48. Whatnot - Teens on Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

49. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

50. Hasbro - MAGIC: THE GATHERING, Player Demographics

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

51. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

52. Collecting on Upper Deck e-Pack

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

53. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

54. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

55. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

56. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

57. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
58. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
59. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
60. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
61. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

62. MTG Arena - Store, Purchases, and Collection FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
63. National Archives Store - United States and Native Nations Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
64. SeeSoar Kids - Women In STEM Trading Card Deck
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

65. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

66. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

67. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

68. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

69. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

70. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

71. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

72. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

73. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

74. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
75. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
76. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
77. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
78. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

79. PSA Backlog Tracker

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.

80. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.

81. Public Library Research at TASCHA - University of Washington

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.

82. Pokémon Programming at the Library - ALA GameRT Presentation, 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

20.5. United Kingdom

Table 384. United Kingdom Trading Card Market Size, 2017-2040 (USD Million)

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

7. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

8. Bestselling Trading Card Games, Q4 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

9. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

10. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

11. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

12. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

13. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
14. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
15. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
16. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
17. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

18. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
19. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
20. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
21. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
22. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

23. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

24. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

25. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

26. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

27. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

28. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
29. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
30. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

31. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

32. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

33. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

34. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

35. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

36. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

37. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

38. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

39. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

40. Investing in meaning: justifying card game collecting in an age of frictionless consumption

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

41. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

42. Exclusive Fandom Finds Arrive at Target This Black Friday

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

43. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
44. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
45. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

46. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

47. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

48. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

49. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

50. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

51. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

52. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

53. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

54. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

55. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

56. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

57. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
58. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
59. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
60. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
61. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

62. MTG Arena - Store, Purchases, and Collection FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
63. National Archives Store - United States and Native Nations Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
64. SeeSoar Kids - Women In STEM Trading Card Deck
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

65. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

66. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

67. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

68. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

69. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

70. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

71. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

72. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

73. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

74. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
75. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
76. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
77. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
78. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

79. PSA Backlog Tracker

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.

80. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.

81. Public Library Research at TASCHA - University of Washington

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.

82. Pokémon Programming at the Library - ALA GameRT Presentation, 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

20.6. France

Table 397. France Trading Card Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

7. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

8. Bestselling Trading Card Games, Q4 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

9. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

10. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

11. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

12. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

13. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
14. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
15. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
16. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
17. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

18. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
19. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
20. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
21. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
22. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

23. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

24. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

25. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

26. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

27. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

28. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
29. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
30. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

31. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

32. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

33. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

34. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

35. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

36. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

37. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

38. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

39. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

40. Investing in meaning: justifying card game collecting in an age of frictionless consumption

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

41. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

42. Exclusive Fandom Finds Arrive at Target This Black Friday

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

43. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
44. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
45. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

46. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

47. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

48. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

49. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

50. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

51. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

52. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

53. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

54. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

55. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

56. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

57. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
58. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
59. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
60. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
61. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

62. MTG Arena - Store, Purchases, and Collection FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
63. National Archives Store - United States and Native Nations Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
64. SeeSoar Kids - Women In STEM Trading Card Deck
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

65. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

66. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

67. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

68. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

69. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

70. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

71. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

72. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

73. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

74. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
75. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
76. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
77. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
78. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

79. PSA Backlog Tracker

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.

80. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.

81. Public Library Research at TASCHA - University of Washington

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.

82. Pokémon Programming at the Library - ALA GameRT Presentation, 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

· Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

7. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

8. Bestselling Trading Card Games, Q4 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

9. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

10. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

11. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

12. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

13. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
14. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
15. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
16. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
17. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

18. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
19. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
20. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
21. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
22. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

23. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

24. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

25. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

26. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

27. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

28. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
29. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
30. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

31. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

32. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

33. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

34. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

35. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

36. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

37. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

38. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

39. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

40. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

41. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

42. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

43. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
44. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
45. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

46. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

47. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

48. Whatnot - Teens on Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

49. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

50. Hasbro - MAGIC: THE GATHERING, Player Demographics

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

51. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

52. Collecting on Upper Deck e-Pack

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

53. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

54. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

55. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

56. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

57. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
58. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
59. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
60. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
61. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

62. MTG Arena - Store, Purchases, and Collection FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
63. National Archives Store - United States and Native Nations Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
64. SeeSoar Kids - Women In STEM Trading Card Deck
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

65. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

66. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

67. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

68. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

69. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

70. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

71. $GODS Frequently Asked Questions [FAQ] - Immutable

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

72. How to Play MTG Arena

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

73. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

74. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
75. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
76. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
77. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
78. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

79. PSA Backlog Tracker
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.
80. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
81. Public Library Research at TASCHA - University of Washington
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
82. Pokémon Programming at the Library - ALA GameRT Presentation, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

20.8. Australia

Table 423. Australia Trading Card Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.
   - Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))
6. ONE PIECE CARD GAME - Getting Started for Stores
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: An Oceania ordering route supports the Australian channel premise; national paid demand and forecast participation remain modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: An Oceania ordering route supports the Australian channel premise; national paid demand and forecast participation remain modeled.
7. Where Culture Meets Commerce: Whatnot’s 2027 Consumer Trends Report
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

8. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
9. Bestselling Trading Card Games, Q4 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

10. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

11. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

12. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

13. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

14. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
15. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
16. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
17. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
18. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

19. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
20. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
21. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
22. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
23. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

24. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

25. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

26. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

27. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

28. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

29. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
30. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
31. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

32. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

33. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

34. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

35. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

36. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

37. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

38. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

39. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

40. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

41. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

42. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

43. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

44. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
45. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
46. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

47. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

48. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

49. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

50. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

51. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

52. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

53. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

54. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

55. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

56. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

57. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

58. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
59. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
60. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
61. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
62. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

63. MTG Arena - Store, Purchases, and Collection FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.

64. National Archives Store - United States and Native Nations Trading Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.

65. SeeSoar Kids - Women In STEM Trading Card Deck

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

66. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

67. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

68. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

69. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

70. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

71. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

72. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

73. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

74. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

75. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
76. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
77. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
78. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
79. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

80. PSA Backlog Tracker
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.
81. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
82. Public Library Research at TASCHA - University of Washington
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
83. Pokémon Programming at the Library - ALA GameRT Presentation, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

20.9. Italy

Table 436. Italy Trading Card Market Size, 2017-2040 (USD Million)

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

7. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

8. Bestselling Trading Card Games, Q4 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

9. Steam Trading Cards - Frequently Asked Questions
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
10. MTG Standard Format
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

11. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

12. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

13. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
14. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
15. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
16. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
17. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

18. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
19. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
20. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
21. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
22. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

23. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

24. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

25. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

26. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

27. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

28. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
29. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
30. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

31. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

32. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

33. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

34. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

35. Courtyard - Terms of Service

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

36. Panini Blockchain Builds a Bridge

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

37. Panini NFT FAQs - Blockchain & Marketplace Help

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

38. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

39. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

40. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

41. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

42. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

43. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))

44. Pokémon Clubs at Your Library

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.

45. Steam Subscriber Agreement

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

46. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

47. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

48. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

49. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

50. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

51. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

52. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

53. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

54. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

55. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

56. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

57. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
58. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
59. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
60. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
61. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

62. MTG Arena - Store, Purchases, and Collection FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.

63. National Archives Store - United States and Native Nations Trading Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.

64. SeeSoar Kids - Women In STEM Trading Card Deck

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

65. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

66. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

67. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

68. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

69. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

70. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

71. $GODS Frequently Asked Questions [FAQ] - Immutable

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

72. How to Play MTG Arena

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

73. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

74. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
75. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
76. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
77. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
78. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

79. PSA Backlog Tracker

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.

80. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.

81. Public Library Research at TASCHA - University of Washington

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.

82. Pokémon Programming at the Library - ALA GameRT Presentation, 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

20.10. Brazil

Table 449. Brazil Trading Card Market Size, 2017-2040 (USD Million)

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. COPAG - Conheça o Jogo

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: COPAG describes its Portuguese-language Pokémon production and distribution role in Brazil. This supports a localized commercial-access premise, not the modeled buyer count or national sales.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: COPAG describes its Portuguese-language Pokémon production and distribution role in Brazil. This supports a localized commercial-access premise, not the modeled buyer count or national sales.

7. Where Culture Meets Commerce: Whatnot’s 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

8. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.
9. Bestselling Trading Card Games, Q4 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

10. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

11. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

12. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

13. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

14. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
15. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
16. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
17. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
18. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

19. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
20. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
21. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
22. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
23. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

24. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

25. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

26. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

27. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

28. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

29. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
30. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
31. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

32. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

33. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

34. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

35. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

36. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

37. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

38. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

39. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

40. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

41. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

42. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

43. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

44. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
45. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
46. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

47. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

48. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

49. Whatnot - Teens on Whatnot

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

50. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

51. Hasbro - MAGIC: THE GATHERING, Player Demographics

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

52. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

53. Collecting on Upper Deck e-Pack

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

54. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

55. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

56. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

57. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

58. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
59. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
60. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
61. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
62. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

63. MTG Arena - Store, Purchases, and Collection FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
64. National Archives Store - United States and Native Nations Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
65. SeeSoar Kids - Women In STEM Trading Card Deck
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

66. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

67. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

68. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

69. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

70. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

71. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

72. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

73. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

74. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

75. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
76. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
77. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
78. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
79. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

80. PSA Backlog Tracker

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.

81. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.

82. Public Library Research at TASCHA - University of Washington

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.

83. Pokémon Programming at the Library - ALA GameRT Presentation, 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

20.11. South Korea

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

7. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

8. Bestselling Trading Card Games, Q4 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

9. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

10. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

11. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

12. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

13. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
14. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
15. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
16. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
17. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

18. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
19. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
20. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
21. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
22. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

23. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

24. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

25. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

26. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

27. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

28. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
29. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
30. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

31. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

32. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

33. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

34. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

35. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

36. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

37. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

38. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

39. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

40. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

41. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

42. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

43. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
44. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
45. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

46. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

47. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

48. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

49. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

50. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

51. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

52. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

53. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

54. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

55. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

56. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

57. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
58. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
59. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
60. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
61. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

62. MTG Arena - Store, Purchases, and Collection FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.

63. National Archives Store - United States and Native Nations Trading Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.

64. SeeSoar Kids - Women In STEM Trading Card Deck

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

65. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

66. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

67. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

68. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

69. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

70. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

71. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

72. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

73. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

74. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
75. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
76. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
77. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
78. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

79. PSA Backlog Tracker

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.

80. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.

81. Public Library Research at TASCHA - University of Washington

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.

82. Pokémon Programming at the Library - ALA GameRT Presentation, 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

20.12. Spain

Table 475. Spain Trading Card Market Size, 2017-2040 (USD Million)

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

· Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

7. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

8. Bestselling Trading Card Games, Q4 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

9. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

10. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

11. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

12. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

13. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
14. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
15. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
16. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
17. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

18. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
19. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
20. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
21. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
22. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

23. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

24. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

25. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

26. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

27. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

28. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
29. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
30. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

31. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

32. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

33. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

34. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

35. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

36. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

37. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

38. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

39. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

40. Investing in meaning: justifying card game collecting in an age of frictionless consumption

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

41. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

42. Exclusive Fandom Finds Arrive at Target This Black Friday

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

43. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
44. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
45. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

46. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

47. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

48. Whatnot - Teens on Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

49. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

50. Hasbro - MAGIC: THE GATHERING, Player Demographics

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

51. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

52. Collecting on Upper Deck e-Pack

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

53. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

54. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

55. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

56. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

57. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
58. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
59. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
60. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
61. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

62. MTG Arena - Store, Purchases, and Collection FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.

63. National Archives Store - United States and Native Nations Trading Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.

64. SeeSoar Kids - Women In STEM Trading Card Deck

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

65. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

66. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

67. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

68. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

69. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

70. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

71. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

72. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

73. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

74. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
75. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
76. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
77. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
78. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

79. PSA Backlog Tracker

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.

80. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.

81. Public Library Research at TASCHA - University of Washington

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.

82. Pokémon Programming at the Library - ALA GameRT Presentation, 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

7. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

8. Bestselling Trading Card Games, Q4 2025
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

9. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

10. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

11. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

12. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

13. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
14. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
15. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
16. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
17. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

18. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
19. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
20. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
21. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
22. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

23. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

24. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

25. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

26. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

27. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

28. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
29. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
30. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

31. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

32. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

33. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

34. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

35. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

36. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

37. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

38. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

39. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

40. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

41. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

42. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

43. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
44. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
45. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

46. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

47. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

48. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

49. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

50. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

51. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

52. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

53. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

54. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

55. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

56. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

57. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
58. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
59. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
60. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
61. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

62. MTG Arena - Store, Purchases, and Collection FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
63. National Archives Store - United States and Native Nations Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
64. SeeSoar Kids - Women In STEM Trading Card Deck
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

65. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

66. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

67. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

68. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

69. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

70. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

71. $GODS Frequently Asked Questions [FAQ] - Immutable

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

72. How to Play MTG Arena

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

73. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

74. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
75. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
76. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
77. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
78. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

79. PSA Backlog Tracker

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.

80. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.

81. Public Library Research at TASCHA - University of Washington

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.

82. Pokémon Programming at the Library - ALA GameRT Presentation, 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

20.14. Russia

Table 501. Russia Trading Card Market Size, 2017-2040 (USD Million)

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

7. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

8. Bestselling Trading Card Games, Q4 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

9. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

10. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

11. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

12. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

13. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
14. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
15. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
16. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
17. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

18. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
19. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
20. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
21. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
22. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

23. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

24. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

25. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

26. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

27. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

28. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
29. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
30. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

31. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

32. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

33. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

34. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

35. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

36. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

37. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

38. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

39. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

40. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

41. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

42. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

43. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
44. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
45. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

46. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

47. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

48. Whatnot - Teens on Whatnot

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

49. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

50. Hasbro - MAGIC: THE GATHERING, Player Demographics

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

51. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

52. Collecting on Upper Deck e-Pack

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

53. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

54. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

55. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

56. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

57. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
58. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
59. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
60. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
61. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

62. MTG Arena - Store, Purchases, and Collection FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
63. National Archives Store - United States and Native Nations Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
64. SeeSoar Kids - Women In STEM Trading Card Deck
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

65. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

66. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

67. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

68. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

69. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

70. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

71. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

72. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

73. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

74. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
75. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
76. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
77. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
78. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

79. PSA Backlog Tracker

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.

80. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.

81. Public Library Research at TASCHA - University of Washington

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.

82. Pokémon Programming at the Library - ALA GameRT Presentation, 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

Sources & Evidence

1. Hasbro, Inc. - Form 10-K for the fiscal year ended December 28, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reported 2024 tabletop gaming revenue of USD xx.xx constrains the historical physical-card proxy; the category also includes non-card products.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx and digital/licensed revenue of USD xx.xx, including USD xx.xx from Monopoly Go, constrain inherited game-card spending bridges. Reported receipts are not retail card spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported xx.xx% decline in My Little Pony card licensing revenue challenges uniform collectible-growth assumptions; licensing receipts do not directly establish nongame retail spending.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 tabletop revenue of USD xx.xx, independently confirming the broad supplier primitive behind the inherited Magic customer-spending weight. Card-only attribution, retail realization and purchase-purpose rates remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx independently constrains the inherited Magic commercial budget. Its conversion to card-only customer spending and allocation by age remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The tabletop revenue anchor supports the common primary-spending denominator used for teenage allocation, not an observed teenage revenue share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing supports supplier scale and documented Magic sales expansion; adult participation, realization and retention adjustments are separate assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2025 tabletop revenue of USD xx.xx versus USD xx.xx in 2024 constrains the inherited physical scale and relative-growth premise; this broad financial category is not card-only customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported digital and licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx provide the USD xx.xx residual used before assumed Arena attribution, card-content adjustment and customer-spending conversion. The source does not report the final shares.

2. Japan Toy Association - FY2025 Domestic Toy Market Size, Ten Major Categories
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Japan's FY2024 card-game and trading-card category was JPY xx.xx at manufacturer suggested retail prices, providing a regional historical constraint rather than a global total.
3. Topps - Investor Presentation Filed as DEFA14A, June 2021
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Topps reported 2019 physical Sports and Entertainment revenue of USD xx.xx; its inclusion of stickers requires a scope adjustment.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Topps reported 2020 physical Sports and Entertainment revenue of USD xx.xx, providing an observed supplier-scale anchor during the collecting expansion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps reported a management-estimated xx.xx% e-commerce share of 2020 physical Sports & Entertainment supplier sales; this is a historical calibration, not seller-direct retail share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical xx.xx% hobby and xx.xx% retail supplier mix constrains the continued importance of downstream retail, with checkout-method and valuation adjustments required.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filed presentation reports USD xx.xx of 2020 physical Sports & Entertainment revenue and differentiated retail, hobby and premium products. It constrains historical supplier scale and basket diversity; it neither separates sports revenue nor directly measures 2025 customer spending. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The combined physical Sports & Entertainment business demonstrates why supplier revenue and thematic customer-spending attribution require separate scope and channel bridges. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d149280ddefa14a.htm))

4. eBay Launches Authentication for Trading Cards - January 2022

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The announcement identifies USD xx.xx of US trading-card transactions in 2020, covering more than secondary singles alone.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: US trading-card transactions reached USD xx.xx in the first half of 2021, independently supporting a pronounced historical activity shock.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US trading-card transactions reached USD xx.xx in 2020 and the same amount in the first half of 2021. These dated observations support the historical channel-scale anchor behind inherited physical resale weights, not direct 2025 or 2032 global spending.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in 2020 and the same amount in the first half of 2021; independently anchors the inherited historical marketplace bridge, not a disclosed 2025 total.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx in US trading-card transactions in 2020 and the same amount during the first half of 2021. This supports the historical transaction-scale premise behind the inherited secondary budget, not a sports-specific share.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed card transaction totals cover multiple card categories and do not supply a thematic or primary-versus-secondary split; those bridges remain modeled.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of US trading-card transactions in first-half 2021, equal to all of 2020. This is the historical platform-activity anchor inherited by the secondary-flow model, not a directly observed 2025 global secondary total or a forecast.
([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

5. Hasbro - Third Quarter 2026 Earnings Presentation, October 20, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Magic's first quarterly revenue above USD xx.xx provides a current commercial leading indicator, not an observation of the full global 2026 market.

   · Evidence informing the 2027 market-value input; displayed series and growth include calculations: The disclosed release calendar and organized-play footprint support a continuing commercial pipeline; forecast purchasing conversion and retention remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 presentation retains an approximately xx.xx-year Magic average age, providing a current constraint against treating the franchise as predominantly child-used; it does not directly measure child expenditure. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current demographic and participation disclosures constrain the forecast commercial audience but do not supply age-specific teenage conversion or growth. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported tenure above five years and more than one million organized-play participants in 2025 support audience durability; adult retention and premium-basket growth remain modeled. ([investor.hasbro.com](https://investor.hasbro.com/static-files/a7941780-84de-xx.xx-82dc-1c58d78a5d87))

6. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported 2026 Pokémon selling rates and doubled order activity constrain a backcast game-card unit proxy; relative prices and global extrapolation remain modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx sports cards sold in 2026 provides a broad comparison scale, requiring functional-scope and realization adjustments before supporting nongame value weights.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports more than xx.xx sports cards sold on its platform during 2026 to the report date, countering an assumption of automatic sports contraction. This is activity, not global value share; survey-derived findings are not used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately four Pokémon cards sold per second on its platform in 2026. This supports continuing entertainment-card activity, without determining the model's global growth or price factors. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/canada-blog/2027globalconsumertrendsreport))

7. Heritage Auctions Closes 2025 Above $2.15 Billion for Its Fifth Consecutive Annual Sales Record

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A December 2025 TCG auction realized USD xx.xx, anchoring an explicitly annualized auction-channel game-card proxy rather than a reported annual total.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual 2025 sports-category auction sales of USD xx.xx constrain the auction comparison after an assumed card-only adjustment; memorabilia revenue is not added to the market.

8. Bestselling Trading Card Games, Q4 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-marketplace October xx.xx-December xx.xx 2025 sales observations distinguish high-value collectible game cards from broadly purchased playable cards, supporting function-based classification and heterogeneous demand.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Collector demand for game-system cards does not justify moving those transactions into the nongame numerator; marketplace rankings are not global functional shares.

9. Steam Trading Cards - Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents collectible inventory cards, badge sets and exchange mechanisms, supporting the nongame digital classification and exclusion of free acquisition or unrelated software spending. It does not quantify the modeled digital allowance.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Card holdings and exchanges are described within Steam's account inventory environment. This supports classifying eligible non-token digital card consideration as centralized, not a numerical spending weight or unrestricted ownership right. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Account-based collectible cards can be bought and sold through the Community Market. This independently establishes an eligible paid nongame native-digital category and counters a universal no-trading assumption; it does not substantiate the modeled USD xx.xx allowance. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents gameplay-based card acquisition, supporting exclusion of free allocations from paid primary consideration. Does not measure initial-sale revenue or the modeled digital-stage ratio. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents user trading and Community Market purchases or sales of cards already held, establishing eligible native-digital subsequent transactions without measuring their aggregate consideration. ([steamcommunity.com](https://steamcommunity.com/tradingcards/faq/))

10. MTG Standard Format

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publisher-defined Standard eligibility and rotation support game-function classification without treating rotated cards as automatically obsolete or assigning an unsupported purchasing multiplier.

11. Latest Activities - KAYOU

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated My Little Pony game announcements establish a separate game offering within the publisher's wider card portfolio, supporting mixed functional treatment but not the assumed purchasing-cohort weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate collectible-card announcements support nongame portfolio coverage; product availability alone is not used as a revenue weight.

12. Magic Returns to Listing MSRP with Foundations

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wizards lists USD xx.xx for a Foundations Play Booster and USD xx.xx for an Aetherdrift Play Booster. These suggested prices constrain pack realizations; they are not observed global selling prices.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Suggested bundle prices include USD xx.xx for Foundations and USD xx.xx for Aetherdrift, supporting a distinct multi-item price relationship while requiring card-only attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx Beginner Box and USD xx.xx Commander Deck references constrain fixed-deck and starter-kit realization assumptions. Retailer pricing remains discretionary.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists Foundations Play Booster MSRP at USD xx.xx and Collector Booster MSRP at USD xx.xx while retaining retailer pricing discretion. Supports differentiated reference-price treatment, not actual realization, retailer margin or forecast pass-through. ([magic.wizards.com](https://magic.wizards.com/en/news/announcements/magic-returns-to-listing-msrp-with-foundations))

13. What types of Trading Card Game products are available? - Pokémon Support
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pokémon distinguishes individual randomized boosters from full displays and boxed assortments, supporting configuration-specific attribution without an assumed improved-outcome premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Boxed assortments can contain boosters, promotional cards and accessories; the model therefore separates card-only consideration from adjacent items.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fixed preconstructed decks establish a separate commercial offering from randomized boosters. The page supports classification, not a sales weight.
14. Top Selling Sealed Product Right Now - 08/13/2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TCGplayer reports its own July 2025 sealed-product transactions, including average values of USD xx.xx for a Pokémon Elite Trainer Box, USD xx.xx for a One Piece booster box and USD xx.xx for a premium Magic display. Price dispersion constrains, but does not verify, the modeled global box realization.
15. 2025 Topps Baseball Series 1 - Hobby Box - Sealed Case
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 Topps Series xx.xx sealed case contains xx.xx hobby boxes. This supports the box-to-case configuration bridge; consumer purchase incidence and realization remain modeled.
16. Shohei Ohtani - 2025 MLB Topps NOW® - Card 884 - PR: 253,309
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The archived 2025 Topps NOW Card xx.xx identifies a xx.xx print run and USD xx.xx single-quantity price, establishing material primary individual-card commerce. Their product is not asserted as realized revenue.
17. Authenticity Guarantee for Trading Cards - eBay
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current eligibility applies to specified individual cards at USD xx.xx or more and excludes sets, lots, decks, boxes and packs. This supports the format-specific assurance premise, not a causal premium or future share.

18. Seller Guide to Refunds and Returns - TCGplayer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Loose packs retain pack classification even when their quantity matches a box, supporting configuration-based rather than quantity-only attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bulk-lot descriptions must identify the delivered card count and product characteristics. The policy supports the lot boundary but supplies no global sales weight.
19. Secret Lair Summer Superdrop 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dated 2025 fixed four- and five-card offerings at USD xx.xx non-foil and USD xx.xx foil constrain comparable multi-card basket values. The source does not establish global mix or require classifying every checklist-complete drop as a lot.
20. 2025 Topps Complete Sets Baseball - Hobby Box
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Topps specifies a xx.xx-card base checklist and a separate five-card parallel pack, supporting checklist-complete classification without implying every release variant is included.
21. Crack Open Ancient Power with the Day of Rebirth Mini-Set
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2025 digital mini-set has a complete xx.xx-card purchase option at USD xx.xx normally or USD xx.xx Golden, with earned-currency alternatives. The normal cash price anchors the digital set realization; paid incidence remains assumed.
22. MTG Arena Announcements - July 28, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July 2025 Arena announcement lists a USD xx.xx bundle containing xx.xx regular packs, five Golden Packs and additional items. This supports a digital multipack price comparison with card-only attribution, not a global bundle share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Two purchasable preconstructed digital decks are listed at xx.xx and xx.xx Gems, establishing commercial applicability. Cash realization and owned-card adjustments remain model assumptions.

23. Whatnot's 2026 State of Live Selling Report: Time to Go Live

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Whatnot reports USD xx.xx of its own 2025 live sales. This constrains a separately assumed card-mix, break-mix and channel-coverage check; it is not card-break revenue or a global market-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform reports USD xx.xx in 2025 all-category live sales. This constrains the modeled live-card envelope after explicit card-mix, transaction-status and dominant-purpose adjustments; it is not card-only GMV or entertainment revenue. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The live-sales activity anchor constrains the portion of card spending potentially assigned to experience-led purchasing and therefore the remaining retention-led budget. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories; card-only and primary/secondary fractions remain explicit assumptions. External market-size and survey claims are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports USD xx.xx of Whatnot live sales in 2025 across all categories. Supports the inherited platform-scale input; card mix, secondary attribution and future conversion are modeled rather than disclosed. No market-share claim from this page is used. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

24. The Community Behind the Hobby's Biggest Weekend

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company records nearly USD xx.xx of 2025 platform sales for one sports-card seller and greater card-selling activity in 2026. These support commercial scale and continuity, without identifying all-break revenue or verifying the forecast mix.

25. Card Breaks Policy - Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current policy distinguishes multi-buyer allocations from sole-buyer openings and imposes disclosure, delivery and same-show requirements. These constrain forecast participation and prevent treating every live product opening as a break allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current policy defines breaks as purchases with card-delivery entitlements. It supports counting eligible card consideration rather than adding standalone entertainment revenue, but does not establish historical or future motive incidence. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2026 policy prohibits selling Whatnot break positions off-platform, supporting attribution to the executing marketplace rather than promotional messaging.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports excluding unsupported off-platform break-presale leakage from the assisted-order model; it does not establish a global decline rate or prohibit independent direct sales.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines breaks as allocations of cards from sealed products to buyers. Supports recognizing an eligible first customer allocation once rather than adding both the underlying inventory flow and break proceeds. The policy does not establish historical primary-sales volume. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Shows why platform or presentation labels alone cannot establish secondary status: sealed-product allocations require transaction-history attribution. Supports the qualification of the platform secondary-fraction assumption, not its numerical value. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

26. 1994 Upper Deck Pyramid The Valiant Era 2 - Commemorative Hologram Uncut Sheet - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The completed January xx.xx 2025 collectible-sheet sale records USD xx.xx establishing low-priced finished-sheet commerce and countering a uniformly high-price assumption.

27. 1977 Topps Baseball Uncut Sheet Pair (2) - Heritage Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 pair sold for USD xx.xx and the record states a xx.xx% buyer premium. On a premium-inclusive interpretation, the derived card-item price is USD xx.xx per sheet; global volume is not observed.

28. 1975 Topps Baseball Full Uncut Sheet - with George Brett and Robin Yount Rookies - Heritage Auctions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 sheet sold for USD xx.xx with a stated xx.xx% buyer premium. The derived premium-exclusive price is USD xx.xx supporting a higher-value collectible price anchor rather than a production-input valuation.
29. eBay Authenticity Guarantee for Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented authentication route physically ships the inspected card to the buyer. This supports the possession-based classification premise at both anchors, not its modeled percentage. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligible raw singles undergo authentication without a condition grade. Current published geographic, format and price conditions constrain the marketplace-authentication attribution premise, but no authentication-only GMV is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: For already graded cards, the service authenticates the holder and label without regrading, supporting classification precedence and preventing duplicate allocation to Authentication-Only Cards.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program distinguishes eligible raw singles from graded cards and excludes several sealed or multi-card formats, supporting the need to retain uncertified card spending outside authentication coverage.
30. COMC Shipping Update - May 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cards were sold across COMC and its eBay storefront in April 2025. This is the monthly activity floor for the modeled base-year value bridge and the starting pool for the forecast; annual volume and ledger attribution remain assumed. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

31. PSA Vault Spotlight Auctions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The PSA store reports more than xx.xx sales as of November xx.xx 2025. This cumulative count constrains scale but does not disclose calendar-year GMV or account-settlement mix; both are bridged assumptions in the two-anchor model. ([psacard.com](https://www.psacard.com/info/spotlight-auctions))

32. PSA Vault Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected terms distinguish withdrawal from fulfillment by ownership-record transfer, shipment or both. They support the centralized physical-card category and continuing model premise, but do not establish the 2025 contractual mix or future uptake. ([psacard.com](https://www.psacard.com/vaultterms))

33. Sports & Trading Card Consignment | Fanatics Collect

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company page reports xx.xx total cards sold and xx.xx collectors without a comparable annual reporting interval. These are used only to check the order of magnitude of the assumption-led peer pool, not as observed 2025 transactions or future sales. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents consignment in which the intermediary receives holdings, lists and sells them, and pays the seller; supports executing-marketplace attribution and exclusion of duplicate payout flows, not a numerical sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented consignment sequence receives holdings, lists and sells them, and then pays the consignor. It supports excluding agency custody and settlement from principal purchases, without measuring the assumed global principal participation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consignment intermediation does not by itself change the purchaser's sector, supporting household attribution when the actual purchaser is an individual.

34. Courtyard.io Raises $30 Million Series A to Reimagine Collecting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 announcement reports reaching USD xx.xx monthly GMV and describes instant buybacks and expansion beyond cards. These inputs constrain the annual activity, card-coverage and eligible-customer-spending bridge; forecast multipliers remain assumptions. ([courtyard.io](https://courtyard.io/blog/post/courtyard-io-raises-xx.xx-million-series-a-to-reimagine-collecting-71e8c1e9ef05))

35. Courtyard - Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The terms dated December xx.xx 2024 connect transfer of an asset to sale of its corresponding token and separately describe storage and redemption. They support including eligible physically backed card transactions in the token-ledger numerator without counting the token and card twice. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Asset-linked token terms provide for asset storage and requested delivery through redemption. This supports retaining physically backed card transactions within physical value weights rather than reclassifying them solely because a token ledger is used. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/user-agreements/terms-of-service))

36. Panini Blockchain Builds a Bridge

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Panini reported more than USD xx.xx of secondary transactions year to date on August xx.xx 2025. This is a dated input to the annual native-digital card-spending allowance, not a disclosed annual total or a forecast. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-blockchain-builds-a-bridge/))

37. Panini NFT FAQs - Blockchain & Marketplace Help

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The FAQ distinguishes Panini's blockchain from Ethereum, limits external eligibility and explains loss of specified platform utility while holdings are external. These constraints support classification and exclusion of a universal-portability uplift; they do not measure card-sales weights. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))

38. Hasbro 2022 Annual Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The issuer estimates casual players at xx.xx% of its Magic player base and competitive players as the remainder. This supplies a population-mix starting point, not a spending share; budget differences and extrapolation to other titles and 2032 are assumptions. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx% casual-player estimate supports a substantial casual purchasing pool, subject to modeled annual spending and representativeness adjustments. ([hasbro.gcs-web.com](https://hasbro.gcs-web.com/static-files/96ff1bf8-20ae-446e-xx.xx-cb2158409e56))

39. The Demographics and Motivations of Trading Card Game Players

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original study surveyed xx.xx adults through card-game Discord communities in February 2025. Its convenience-sample limitations prevent direct conversion of motivational responses into global spending weights. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinct competitive and social motivations qualify any assumption that all Gameplay purchasing is competitive. The study measures motivations, not annual card spending. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The finding that xx.xx% of respondents made friends through TCG play supports social-use relevance, without establishing a Casual Play sales percentage. ([dl.digra.org](https://dl.digra.org/index.php/dl/article/download/xx.xx/xx.xx/xx.xx))

40. Investing in meaning: justifying card game collecting in an age of frictionless consumption

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Original qualitative findings distinguish meaningful collecting practices from accompanying financial justifications. This supports separate retention-led attribution, not a measured global Collecting share. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Financial-value language can coexist with hobby meaning, so it cannot alone establish a decisive investment motive. The numerical financial-purpose rates remain assumptions. ([pure.eur.nl](https://pure.eur.nl/en/publications/investing-in-meaning-justifying-card-game-collecting-in-an-age-of/))

41. Where Culture Meets Commerce: Whatnot's 2027 Consumer Trends Report

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 publication reports more than ten million Pokémon cards sold in September and over xx.xx sports cards sold year to date on the platform. These are directional commercial-activity checks, not monetary or purpose-share observations. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued platform card activity supports retaining a substantial live-channel purchasing pool, while its allocation between collecting and experiential motives remains modeled. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2027globalconsumertrends))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Company-operating disclosures dated October xx.xx 2026 report more than xx.xx sports cards sold during 2026 to date and more than ten million Pokémon cards in September; these support current channel activity, not the assumed 2032 share. External survey claims are excluded.

42. Exclusive Fandom Finds Arrive at Target This Black Friday

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 announcement positions Topps and Pokémon offerings as gifts and lists USD xx.xx card products. The price supports a representative gift-basket equivalence check, not observed global gift conversion. ([corporate.target.com](https://corporate.target.com/news-features/article/2025/xx.xx/target-holiday-fandom-collectibles))

43. McDonald’s Launches Dragon-type Pokémon-themed Happy Meal®
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 US announcement establishes a limited-time promotional card-distribution route. It does not disclose attributable card consideration or justify adding meal revenue to the market. ([corporate.mcdonalds.com](https://corporate.mcdonalds.com/corpmcd/our-stories/article/pokemon-themed-happy-meal.html))
44. Pokémon Clubs at Your Library
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The documented library program expressly serves casual play and learning rather than competition. This supports a distinct noncompetitive use category, not a transaction-value weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The library program targets ages xx.xx-xx.xx and requires eligible library staff coordinators, supporting separation of child users from adult access authority without supplying a sales weight. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated target includes ages xx.xx-xx.xx but does not establish demand across ages xx.xx-xx.xx or a teenage spending percentage. ([ala.org](https://www.ala.org/pokemon))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: School and public library club kits are provided at no additional cost. This supports excluding donated program resources and modeling funded uptake separately from participation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Free institutional program resources do not justify shifting household purchase consideration into institutional spending; the source supplies a donation-control premise, not a sector percentage.
45. Steam Subscriber Agreement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wallet proceeds are not exchangeable for cash and marketplace continuity is not guaranteed. These conditions constrain assumptions about digital financial-purpose spending but do not establish its modeled xx.xx% attribution. ([store.steampowered.com](https://store.steampowered.com/subscriber_agreement/))

46. Hasbro - Q3 2025 Earnings Presentation, slide 20

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports an approximately xx.xx-year-old average Magic tabletop player, constraining the assumed minor/adult activity mix without identifying a child percentage. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported average age is used only as a compatibility check on the modeled teenage activity allowance, not as a demographic distribution. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The approximately xx.xx-year average age and tenure above five years support a retained adult audience, but do not measure adult spending or future retention. ([investor.hasbro.com](https://investor.hasbro.com/static-files/5836500f-a833-xx.xx-aab5-78abca721257))

47. Topps - Investor Presentation Filed as DEFA14A, 2021, slide 10

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Slide xx.xx reports management-estimated 2020 physical sales channels of retail xx.xx%, hobby xx.xx% and e-commerce xx.xx%, with distinct child-oriented and premium offerings. This constrains a historical channel/value proxy; intended-user fractions remain assumptions. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical monetary channel mix supports separately modeling teenage value exposure across retail, hobby and e-commerce rather than using product counts. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The presentation distinguishes collectors and high-end enthusiasts from child-oriented offerings, supporting a relative-spending bridge but not a directly observed adult share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/g190069g46e78.jpg))

48. Whatnot - Teens on Whatnot

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2026 policy permits supervised participation by ages xx.xx-xx.xx through adult-owned accounts. It supports a forecast attribution premise, not observed teen sales or retrospective 2025 policy verification. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Adult account ownership and financial registration do not necessarily identify the end user's age, so adult accounts are not treated as xx.xx% adult card use. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Teens-on-Whatnot))

49. Federal Trade Commission - Complying with COPPA: Frequently Asked Questions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FTC guidance supplies the under-xx.xx privacy reference used for the analytical Children cutoff. It does not establish a global card-market demographic rule, demand restriction or numerical sales share. ([ftc.gov](https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions))

50. Hasbro - MAGIC: THE GATHERING, Player Demographics

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The undated brand page reports an approximately xx.xx-year average tabletop-player age, contrasting with approximately xx.xx in dated presentations. This is retained as a calibration conflict, not interpreted as a measured demographic transition. ([corp.hasbro.com](https://corp.hasbro.com/magic-gathering))

51. Pokémon Trading Card Game Pocket - New Triumphant Light Booster Packs and Over 100 Million Downloads Worldwide, February 27, 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx cumulative Pocket downloads were announced on February xx.xx 2025. This supplies a reach constraint for the assumed six-million paying-activity-equivalent pool carried into the forecast, but does not disclose payer counts, card-attributed revenue or future growth. ([dena.com](https://dena.com/intl/news/xx.xx/))

52. Collecting on Upper Deck e-Pack

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cards with physical counterparts can be shipped or transferred to COMC. This supports assigning their consideration to physical cards despite digital purchase and account interfaces; no sales weight is disclosed. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same offering includes items existing only digitally, supporting entitlement-level separation rather than treating all e-Pack consideration as one medium. No monetary physical-digital split is reported. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

53. Can players trade cards in Pokémon TCG Live?

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Live does not permit player-to-player card trading. This supports excluding an assumed unrestricted resale opportunity, without treating restricted exchange as proof of zero native-digital purchasing. Current rules do not measure either anchor's spending. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Can-players-trade-cards-in-Pok%C3%A9mon-TCG-Live))

54. Pokémon TCG Pocket Trading FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pocket limits trading to friends, demonstrating platform-specific exchange conditions rather than unrestricted market liquidity. The FAQ does not establish cash-resale permission, realized turnover or a forecast growth rate. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))

55. Code Card Redemption FAQ

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Marked physical products can include digital entitlements. This supports avoiding duplicate transaction value merely because one purchase supplies content across two media; monetary bundle allocation is not disclosed. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Booster codes supply same-expansion digital packs with potentially different cards, whereas preconstructed-deck codes supply matching cards. These distinctions support entitlement-specific attribution, not an additional assumed digital sale or a numerical category weight. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Code-Card-Redemption-FAQ))

56. The 2025 OECD definition of e-commerce and guidelines for interpretation

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes intermediary transactions from platform fees, supporting card-consideration attribution without adding service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates manually typed messages and telephone orders from structured remote checkout.

57. GameStop Corp. - Annual Report for the fiscal year ended January 31, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 collectibles sales were USD xx.xx versus USD xx.xx, while year-end stores fell from xx.xx to xx.xx; supports rejecting store-count-only allocation and retaining substantial retail activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents retailer e-commerce and the 2025 Power Packs initiative, supporting separation of dedicated online checkout from fixed-premise sales; no card-only web-sales figure is disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 financial cost and sales figures constrain the acquisition-realization assumption; disclosed trade-ins establish principal purchasing. Collectibles growth and store closures provide opposing commercial signals, not observed global buyer shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distinction between customer trade-ins and subsequent retail sales informs the commercial allocation and therefore its household complement; corporate merchandise revenue is not used directly as a buyer-sector weight.
58. Pokémon Automated Retail Vending Machine FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Pokémon automated retail as an on-premise card-purchase route owned and operated by The Pokémon Company International; no vending share or franchise revenue is inferred.
59. Fanatics Events
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx attendees and xx.xx hobby shops at Fanatics Fest in 2026, supporting an active in-person commercial setting; attendance is not converted into card revenue.
60. Pokémon TCG Pocket Purchase and Premium Pass FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected 2026 support page identifies mobile-app-store purchasing, supporting an intermediated digital checkout route; it does not verify the modeled 2025 spending proportion.
61. Pokémon TCG Pocket Web Store FAQ
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May xx.xx 2026 support update documents dedicated Pocket web-store purchasing and regional availability limitations, providing a commercial premise for modeled web-checkout adoption.

62. MTG Arena - Store, Purchases, and Collection FAQ
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Arena PC/Mac real-money checkout support through a payment-services provider, supporting a dedicated seller-checkout route without treating payment processing alone as marketplace intermediation.
63. National Archives Store - United States and Native Nations Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected historical-document trading-card offering lists USD xx.xx and xx.xx individual cards plus an introduction card. It supplies a basic-deck price and category reference, not annual sales or institutional procurement volume. ([nationalarchivesstore.org](https://www.nationalarchivesstore.org/products/united-states-and-native-nations-trading-cards))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected educational trading-card offering is listed at USD xx.xx in 2026. This is a comparable retail price and category mapping, not a 2025 realized institutional price or an approved institutional order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational retail listing supports a modest card-budget premise without assigning its sales automatically to institutions; its numerical effect enters through the modeled institutional deduction.
64. SeeSoar Kids - Women In STEM Trading Card Deck
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists a xx.xx-card Women in STEM trading-card deck at USD xx.xx providing a factual-science category and basic-deck price reference. Purchasing frequency, 2025 realization and global buyer activity remain assumptions. ([seesoarkids.com](https://seesoarkids.com/products/stem-trading-card-deck))

65. Disney Parks Blog - Mickey and Friends Suit Up in MLB Uniforms in New Disney Topps Cards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-card Disney character base set and baseball-inspired chase cards. This supports retaining dominant-theme attribution rather than treating crossover imagery as a separate sports sale. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The character-led collection supports Entertainment & Art classification; it does not quantify incremental crossover customers or revenue. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited baseball-inspired chase proposition does not establish a no-majority cross-domain collection, constraining the qualifying mixed-collection assumption. ([disneyparksblog.com](https://disneyparksblog.com/products/new-disney-topps-cards/))

66. Cardsmiths - SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 SPACE announcement describes more than xx.xx designs spanning astronomers, celestial subjects and imaginative material. It establishes a commercial science-related proposition but not its sales-weighted factual-content share. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed subject description provides a candidate commercial boundary, not evidence that the collection satisfies the retained no-majority rule. The modeled eligibility factor remains unverified. ([cardsmiths.com](https://cardsmiths.com/blogs/news/cardsmiths-space-galactic-edition-trading-cards-now-launching-into-your-orbit))

67. Bioviva - Défis Nature Protect

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2024 announcement distinguishes the new Nature Protect collectible-card offering from more than seven million cumulative legacy game sales. It supports commercial category inclusion while preventing conversion of legacy game stock into annual trading-card revenue.
([bioviva.com](https://www.bioviva.com/fr/content/xx.xx-defis-nature-protect))

68. PSA Slabbed - 2024 in Review

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports a xx.xx% increase in its One Piece submissions in 2024. This is an independent entertainment-collecting activity countercheck, not a resale-dollar weight or direct forecast calibration.
([psacard.com](https://www.psacard.com/info/psa-slabbed-2024))

69. CollectTrumpCards - Digital Trading Cards, America First Edition

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected official digital-card page gives a USD xx.xx reference and marks the edition ended. It supports a historical/public-figure digital-card price proxy, not current availability, 2025 sales or the assumed purchasing-equivalent count. ([collecttrumpcards.com](https://www.collecttrumpcards.com/))

70. Getting Started - Complete Guide to Becoming an Official One Piece Card Game Store

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Directs retailers to regional official distributors and states an approximately six-month advance order period and release-date compliance requirement. Supports the primary-access premise, not a sales weight or measured global adoption effect.
([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/topics/getting-started/))

71. $GODS Frequently Asked Questions [FAQ] - Immutable

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies Gods Unchained primary sales and secondary trading fees, supporting distinct commercial-stage treatment. The token-payment provisions are not used as card-sales weights or added market revenue. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes secondary trading as distinct from primary sales. Supports the existence of both native-digital commercial stages, but supplies no observed stage-volume ratio and does not validate the turnover assumption. ([immutable.zendesk.com](https://immutable.zendesk.com/hc/en-us/articles/xx.xx--GODS-Frequently-Asked-Questions-FAQ))

72. How to Play MTG Arena

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents publisher-store bundles, purchasable gems, booster packs and separate cosmetic offerings. Supports the digital primary-acquisition classification and card-only attribution premise, without establishing attributed revenue or global stage shares. ([magic.wizards.com](https://magic.wizards.com/en/mtgarena/faq))

73. PSA Announces $200 Million Infrastructure Investment to Support Global Demand

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA reports more than xx.xx cards graded in 2025, providing the rounded activity anchor for the condition-graded transaction model. Its 2026 output growth and investment announcement support a conditional expansion premise, not future card sales.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The certification activity anchor constrains the modeled allocation away from uncertified physical transactions; uncertified value is calculated after the separately modeled certified categories.

74. A Letter from Steven R. Eichenbaum
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 letter projects nearly five million sports cards and TCGs graded for the year and describes international commercial expansion. The model uses five million as a rounded working activity input, not a verified final count.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CGC's own annual activity outlook supports the certified-card flow model underlying the uncertified physical remainder.
75. About PSA Card Authentication and Grading Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The page reports more than xx.xx cumulative certified items. This undated, mixed-collectible count supplies only a stock-scale plausibility constraint; it does not establish the modeled xx.xx-million unique-card opening stock for 2025.
76. PSA - Grading Standards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: PSA documents Authentic and Authentic Altered encapsulation outcomes distinct from numerical condition grades. These establish category boundaries, not their transaction-value shares.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published condition-grading scale distinguishes condition-certified cards from authentication-only outcomes and supports the mutually exclusive allocation rule.
77. Graded Trading Cards | Buy or Trade In Graded Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GameStop's current buying program specifies PSA cards graded xx.xx xx.xx or xx.xx and excludes other graders. This independently supports destination-specific acceptance, without implying that eligibility counts are sales weights.
78. GameStop Launches Power Packs for Digital Trading Cards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2026 announcement describes offerings priced USD xx.xx-xx.xx backed by real PSA-graded cards. These own-offering prices provide a contemporary commercial plausibility check, not 2025 realized-price observations or aggregator-derived card valuations.

79. PSA Backlog Tracker
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 update reports a xx.xx-million-unit active grading backlog. It supports treating certification expansion as capacity-constrained and retaining uncertainty around the forecast stock additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Persistent grading queues provide a counterforce to unrestricted migration from uncertified to condition-graded transactions; the forecast does not convert all submitted or backlogged holdings into immediate card sales.
80. Hasbro - Fourth Quarter and Full Year 2025 Financial Results Conference Call Management Remarks, February 10, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2026 remarks report more than xx.xx active Wizards Play Network stores worldwide. This constrains the scale of the assumed physical business own-use pool but does not measure own-use purchases or justify counting wholesale inventory.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The observed commercial footprint is an input to the business own-use allowance and its household complement; subsequent participation and budget growth remain explicit forecast assumptions.
81. Public Library Research at TASCHA - University of Washington
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publication describes more than xx.xx public libraries worldwide and approximately xx.xx% in the Global South. These undated structural proxies anchor the library opportunity pool and differentiated budget assumptions, not observed card purchases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The footprint-based institutional model determines a small deduction from household spending; funded uptake and future changes are modeled separately.
82. Pokémon Programming at the Library - ALA GameRT Presentation, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 library presentation identifies an approximately USD xx.xx mixed-content card-game offering, supporting the order of magnitude of small program budgets. Non-card contents are excluded from modeled spending; neither 2025 uptake nor future purchases are observed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical price relationship informs the institutional budget assumption and consequently the household complement, with separate period and paid-uptake limitations.

21. Competitive Landscape

21.1. Market Share Analysis, 2025

[illegible] A prospective licensed publisher must secure the relevant rights before launch; a reseller instead needs an accepted product-supply relationship. Changing the sport or property avoids the same license dependency only by changing the customer proposition.

Game-led account access is distinct from property licensing. Hasbro, Inc.'s WPN requires a qualifying operating store, UVS Games separates Riftbound organized-play approval from distributor stock access, and Weebs of the Shore links Grand Archive sourcing to official event support. [illegible]

Grand Archive's directory identifies meaningful regional alternatives: PHD Games and Southern Hobby Supply's distribution route in the United States; Prince Distribution and Universal Distribution in Canada; ADC Blackfire Entertainment GmbH, Bliss Distribution, Ynaris, and Cube Golem in Europe; Let's Play Games and Geek Culture in Oceania; AK Games in Malaysia, Singapore, and Brunei; Fayble Distribution in Taiwan, Hong Kong, and Japan; Heralds Peak Distribution Corp in the Philippines; and Nexus Distribution in the Middle East. The directory's separate Brazilian Geek Culture entry does not resolve common control with the Oceania contact. [illegible]

Bandai's ONE PIECE directory provides a title-specific cross-check, naming GTS Distribution, PHD Games, Southern Hobby's distribution route, Universal Distribution, Gametrade Distribuzione, TCGFACTORY OCIO S.L.[illegible] Appointment to one title does not establish another title's appointment, and the Southern Hobby operating-name and contracting-party bridge should be confirmed.

[illegible] These are potential channel relationships, not automatic appointments for a new supplier. An exporter should compare accepted local distribution and service

commitments with the responsibilities retained under direct selling, rather than infer Japan-wide access from a storefront or corporate affiliation.

[illegible] Gamesmart de México, S.A. de C.V. presents a named multi-title card catalog, while IMGRAX describes distribution and subdistribution roles. A catalog or subdistribution claim is not equivalent to Devir's account eligibility or a publisher-confirmed appointment.

[illegible] LigaMagic's current marketplace operator and transaction responsibilities likewise need confirmation before comparison with a wholesaler or a seller-managed retail channel. These distinctions affect the counterparty and assurance being purchased, not merely geographic reach.

[illegible] Chumky International advertises B2B supply, but its own authorization claim is not equivalent to publisher confirmation. Retail supply, dealer purchasing, and partner-store aggregation should therefore be evaluated separately.

TCG PARAGUAY and HSIETE require resolved operators and named qualifying card offerings before comparison with the documented catalog routes. [illegible] Until those distinctions are established, a buyer cannot assume that these alternatives perform the same commercial function.

[illegible] Their different channels should not be mistaken for interchangeable accounts or evidence of common ownership. AMIGO Spiel + Freizeit GmbH requires confirmation of the applicable continuing title-country appointment before a buyer extends a historical distribution claim to a new order.

TCGFACTORY OCIO S.L.[illegible]

▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ A retailer seeking wholesale replenishment should not treat an unresolved retail storefront as an equivalent appointed distributor.

▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ Sagen Teknoloji Ürünleri Ltd Şti requires confirmation of its current card appointment and accepted supply terms. The relevant comparison is the proposed title-country order, not a general claim to serve the entire region.

UAE retail alternatives also differ in edition and delivery scope. Holoverse Collective TCG FZC presents Pokémon and One Piece products; V2 En Global FZ LLC is identified behind TOISE's card storefront; PokéShop emphasizes Japanese and Chinese Pokémon products; and KARDX Trading presents sealed, single, and graded categories. ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪

Kanz Almuqtinat Establishment's KanzTCG storefront and West Asia Cardhouse present Saudi card-retail propositions. ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ These alternatives can address local purchasing, but none supplies a general publishing or all-country distribution entitlement.

▪▪▪▪ ▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ For KardPorium, Cardnation, Playbh, The Card House, and Multiverse, the responsible operator, current named card offer, and deliverable territory remain unresolved. Buyers should not infer independent supply diversification from similar local branding or a shared event setting.

In Southern Africa, Solarpop presents named TCG categories and a retailer-support proposition, while Two Plus Distribution distinguishes its wholesale preview from the fuller catalog available to approved retailers. ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ DE WINNAAR ENTERPRISES

PTY Ltd and Prima Toys need current operator-to-card and service records before comparison with an accepted wholesale relationship.

African retail alternatives should be compared by local use and edition. ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ Local availability does not settle competitive-event suitability or publishing permission.

South African retail choices include Aniware's sealed, single, and graded-card categories, Magic The Trading's multi-title assortment, Armchair Generals' hobby-store proposition, and Poké Cartel SA's documented online Pokémon retail relationship. Rocket Grunt TCG's continuing supply commitment should be confirmed rather than inferred from a historical sourcing relationship. ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪

CollectorShop and Pokeshop Maroc present Moroccan card assortments; GameWorld presents a Tunisian Pokémon category; and GameShop Angola advertises Pokémon-related card commerce. ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ These unresolved differences prevent treating all regional storefronts as equally stocked alternatives.

Mainstream retail and cross-border platforms require a different comparison. ▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ Ubuy, Desertcart, Microless, Jumia, and noon require transaction-specific seller, stock-location, delivery, and after-sales records before their listings can be compared with a local appointed supplier.

Asia-Pacific distribution candidates also need identity-specific treatment. Genesis Frontier Pte Ltd, Engkodok Games Sdn Bhd, Courtside Inc, Cosplay Ozanimart Pty Ltd, Saka Saka Limited, KC Distribution Sdn Bhd, Jowel Trade & Development, Hobby Co Limited, and Santo Nino Company Limited require current title-country appointments and contracting-party confirmation; possible related-company names do not establish either common control or independence. ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪

Sources & Evidence

1. How to Apply for the WPN
   - WPN application guidance requires an operating qualifying store and supporting business information, with regional differences. ([wpn.wizards.com](https://wpn.wizards.com/en/news/how-apply-wpn))
2. Panini America Unites with the NWSL and NWSLPA for Exclusive Multi-Year Trading Card Partnership
   - Panini's March xx.xx 2026 announcement establishes a separate exclusive NWSL and NWSLPA relationship and planned card, blockchain, and sticker offerings. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-america-unites-with-the-nwsl-and-nwslpa-for-exclusive-multi-year-trading-card-partnership/))
3. About Us
   - Solarpop presents Pokémon, Magic, and Yu-Gi-Oh! categories alongside its retailer-support business description. ([solarpop.co.za](https://www.solarpop.co.za/about-us))

4. GETTING STARTED – FOR STORES | ONE PIECE CARD GAME - Official Web Site

   · Bandai lists ONE PIECE distributors by region, directs merchants to their own area, and requires release-date compliance. The directory includes the named American, European, Oceania, Latin American, and Middle Eastern routes. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/forstore/))

5. Fanatics Collectibles, NFL and NFLPA announce multi-year licensing deal

   · The NFL's April xx.xx 2026 announcement identifies Topps as exclusive NFL and NFLPA trading-card licensee, specifies branding rights, and includes global distribution. ([amp.nfl.com](https://amp.nfl.com/news/fanatics-collectibles-nfl-and-nflpa-announce-multi-year-licensing-deal))

6. MINT - Company Profile and Trading-Card Business

   · MINT's company profile describes importing, wholesale, retail, online operations, and named domestic and overseas trading-card relationships. ([mint-web.jp](https://mint-web.jp/?mode=fl))

7. Nuevos Clientes - Devir México

   · Devir México distinguishes physical-store accounts with TCG access from online-only accounts restricted to other categories; physical stores may also sell online. ([devir.mx](https://devir.mx/nuevos-clientes/))

8. Jazeel Distribution - Al Tannan

   · Al Tannan identifies Jazeel Distribution as Jazeel General Trading LLC and describes its B2B distribution role. ([altannan.com](https://altannan.com/pages/jazeel-distribution))

9. Retailer Riftbound FAQ

   · UVS separates Riftbound organized-play applications, authorized-distributor stock access, and preferred-distributor fulfillment of event kits. ([uvsgames.com](https://uvsgames.com/riftbound-faq/))

10. Stocking/Products - Grand Archive TCG

    · Grand Archive names regional distributors and ties official sourcing and policy compliance to event support. Its directory covers the named North American, European, Oceania, Asian, Middle Eastern, and Brazilian routes. ([gatcg.com](https://www.gatcg.com/article/stocking-products))

11. Force of Will - Distributors

    · Force of Will names YY Card World, GTS Distribution, Southern Hobby Supply, and Universal Distribution as distribution contacts. ([fowtcg.com](https://www.fowtcg.com/distributors))

12. Business Introduction - Happinet

    · Happinet's business description includes trading-card sales within manufacturer-to-retailer intermediation. ([happinet.co.jp](https://www.happinet.co.jp/english/business/index.html))

13. About Us - Grosnor Distribution Inc.

    · Grosnor describes a Canadian-owned retailer-facing sports collectible and trading-card distribution business. Promotional leadership wording is not adopted. ([grosnor.com](https://www.grosnor.com/public/about-us))

14. Trading Card Games - Gamesmart

    · Gamesmart's official Trading Card Games catalog identifies Gamesmart de México, S.A. de C.V. and a multi-title commercial offering. ([gamesmart.mx](https://www.gamesmart.mx/collections/trading-card-games))

15. IMGRAX - Distribution and Subdistribution Business

    · IMGRAX describes My Hero Academia CCG distribution and subdistribution of named TCG brands; its statement does not specify every country appointment. ([imgrax.com](https://www.imgrax.com/))

16. Nexo Paraguay - Pokémon Product Catalog

    · The official Nexo Paraguay catalog presents Pokémon card products; an undated catalog does not establish current inventory. ([nexoparaguay.com.py](https://www.nexoparaguay.com.py/catalogos/xx.xx%20Catalogo%20Pokemon-xx.xx.pdf))

17. Dungeon TCG & Games - Card Retail in Uruguay

    · Dungeon presents a Uruguayan multi-title trading-card retail proposition. (dungeontcg.uy)

18. Sobre nosotros - TCGVaultCR
    - TCGVaultCR's business page presents its identity and singles/product-commerce navigation, without settling a complete current assortment. ([tcgvaultcr.com](https://www.tcgvaultcr.com/sobre-nosotros.php))
19. Tiendas aliadas - REGIÓN TCG
    - REGIÓN TCG maintains a partner-store directory supporting a channel relationship rather than a publishing role. ([regiontcg.com](https://regiontcg.com/tiendas/))
20. Hit Lab - We Buy and Sell Cards in the Dominican Republic
    - Hit Lab advertises card buying and selling in the Dominican Republic. (hitlabcards.com)
21. Chumky International - Pokémon TCG B2B Offering
    - Chumky advertises B2B Pokémon supply; its own official-distributor wording is not independent publisher confirmation. (chumkyinternational.com)
22. Service - heo GmbH
    - heo advertises official distribution of Magic: The Gathering and Yu-Gi-Oh! TCG products. ([explore.heo.com](https://explore.heo.com/en/service))
23. Gametrade Distribuzione - Trade Catalog
    - Gametrade's trade catalog presents Bandai, Bushiroad, Force of Will, Pokémon, Magic, MetaZoo, and TOMY-related title categories. ([gametrade.it](https://www.gametrade.it/))
24. Kaissa - B2B Catalog
    - Kaissa's B2B catalog presents named TCG categories including Magic, Riftbound, Pokémon, and Yu-Gi-Oh!. ([kaissa.gr](https://kaissa.gr/b2b_gr/))
25. Carletto News
    - Carletto's dated business news identifies a Swiss Pokémon distribution proposition. ([carletto.ch](https://carletto.ch/de/unternehmen-de/aktuelle-news))
26. Gedis - Pokémon Newsstand Distribution News
    - Gedis describes Pokémon warehouse dispatch and progressive delivery to Italian newsstands, not independently confirmed completed sales. ([gedis.it](https://www.gedis.it/))
27. Gamevision - Brands and Commercial Access
    - Gamevision presents Pokémon and Yu-Gi-Oh! brands and a commercial contact route without establishing exclusive rights. ([gamevisionitalia.it](https://www.gamevisionitalia.it/))
28. Topps - Breakrs
    - Breakrs' dedicated Topps collection advertises physical trading-card assortments, supporting a retail rather than publishing role. ([breakrs.nl](https://breakrs.nl/collections/topps))
29. Monkey Distribution - Brands and Retail Business
    - Monkey Distribution presents branded distribution and a retail proposition; its own presentation does not settle publisher appointment terms. (monkeydistribution.com)
30. Hakkımızda - SlabandPack
    - SlabandPack presents sealed, single, graded, and named TCG categories. ([slabandpack.com](https://slabandpack.com/pages/hakkimizda))
31. Contact Information - Holoverse Collective TCG FZC
    - Holoverse's contact and commerce page identifies its business and Pokémon and One Piece sealed, single, and graded-card categories. ([holoversetcg.com](https://holoversetcg.com/policies/contact-information))
32. TOISE - Trading Card Store
    - TOISE presents Pokémon and One Piece card categories and identifies V2 En Global FZ LLC in its business contact information. ([toise.shop](https://www.toise.shop/))
33. PokéShop - Pokémon Card Retail
    - PokéShop advertises a Dubai-based proposition emphasizing Japanese and Chinese Pokémon booster products. (pokeshop.ae)

34. KARDX Trading - Card Categories and Delivery
    - KARDX presents sealed, single, and graded categories; specific delivery terms qualify broader regional promotional language. (kardx.ae)
35. KanzTCG - TCG Store Saudi Arabia
    - KanzTCG presents a Saudi card-retail proposition with named TCG and singles categories and identifies Kanz Almuqtinat Establishment. (kanztcg.com)
36. About Us - West Asia Cardhouse
    - West Asia Cardhouse describes a Saudi Pokémon retail proposition and multiple language-edition categories. ([westasiacardhouse.zid.store](https://westasiacardhouse.zid.store/en/pages/About-Us))
37. Lifestyle - Store 974 Electronics WLL
    - Store xx.xx's lifestyle catalog identifies its Qatar retail business and includes card-related merchandise within a diversified offering. ([store974.com](https://store974.com/collections/lifestyle))
38. About RAZE TCG
    - RAZE TCG describes card condition, buying/selling, and location-specific Qatar delivery conditions. ([razetcg.com](https://razetcg.com/pages/about-us))
39. OPOMAN - Trading Cards and Grading Access
    - OPOMAN presents Muscat-oriented One Piece and Pokémon commerce and a distinct grading category; appointment claims require separate corroboration. (opoman.om)
40. A Store for Players by Players - Good Game
    - Good Game presents a Kuwait tabletop retail identity, but the inspected general categories do not settle a current named TCG assortment. (goodgamekw.com)
41. Tournaments - Tabletop.me Participant Directory
    - The organizer's directory provides venue, distribution, and card-presentation leads for regional participants; event presentation is not proof of continuing appointment or supply. ([tabletop.me](https://www.tabletop.me/event/tournaments-xx.xx/exhibitor))
42. TCG Sealed Products - Two Plus Distribution
    - Two Plus distinguishes its sealed-TCG wholesale preview from the fuller catalog available after approved-retailer sign-in. ([twoplusdistribution.co.za](https://www.twoplusdistribution.co.za/categories/tcg-sealed-products))
43. Informations Légales - Stickers Collection Maroc
    - The legal notice identifies Saladino Sàrl AU behind Stickers Collection Maroc and separates named trading-card categories from sticker collections. ([stickerscollectionmaroc.ma](https://www.stickerscollectionmaroc.ma/infos-legales))
44. Trading Card Games - Adilsons
    - Adilsons presents a Mauritian commercial TCG catalog. ([adilsons.mu](https://adilsons.mu/collections/trading-card-game))
45. Dex Central - Cards and Collectibles in Namibia
    - Dex Central presents a Namibian card proposition spanning Pokémon sealed products, singles, graded cards, and card purchasing. (dexcentral.com.na)
46. Pokémon Toys, Cards and More - Toyzoona
    - Toyzoona's Pokémon catalog includes collectible trading cards alongside broader toy categories. ([toyzoona.net](https://toyzoona.net/collections/pokemon))
47. About Shuffle Games
    - Shuffle Games' Egyptian business page presents named TCG categories and a retail/community proposition. ([shufflegames.net](https://shufflegames.net/pages/about-shuffle-games))
48. Pokémon - Hobby Corner Egypt
    - Hobby Corner Egypt maintains a Pokémon retail collection and other named TCG categories. ([hobbycorneregypt.com](https://www.hobbycorneregypt.com/collections/pokemon))

49. About Le3ba
    - Le3ba describes an Egypt-rooted game-retail and community proposition. ([le3bastore.com](https://le3bastore.com/about))
50. About Us - Poke TCG Egypt
    - Poke TCG Egypt describes an Egyptian retail proposition emphasizing Japanese Pokémon cards. ([poketcgeg.com](https://poketcgeg.com/pages/about-us))
51. Trading and Playing Cards - Games 2 Egypt
    - Games xx.xx Egypt maintains a mixed trading-and-playing-card category, requiring product-level distinction rather than treating all listed games as trading cards. ([games2egypt.com](https://www.games2egypt.com/Category/xx.xx/trading-and-playing-cards))
52. Stiva Store - Cards and Custom Products
    - Stiva presents Yu-Gi-Oh!-related and custom-card commerce; the page does not establish publisher authorization. (stivaoh.com)
53. About Aniware
    - Aniware presents sealed, single, graded, and multiple named TCG categories in its South African retail offering. ([sealed.aniware.co.za](https://sealed.aniware.co.za/pages/about-us))
54. About Us - Magic The Trading
    - Magic The Trading describes a South African multi-title TCG assortment. ([magicthetrading.co.za](https://www.magicthetrading.co.za/about-us/))
55. About Us - Armchair Generals
    - Armchair Generals describes a South African hobby store offering trading-card games and other hobby products. ([armchairgenerals.co.za](https://armchairgenerals.co.za/pages/about-us?view=about-us))
56. Legal Notice - Poké Cartel SA
    - Poké Cartel's legal notice identifies a South African online Pokémon TCG retailer and its commercial terms. ([pokecartel.co.za](https://pokecartel.co.za/policies/legal-notice))
57. Collections - CollectorShop
    - CollectorShop's Moroccan catalog presents multiple named TCG and graded-card categories. ([collectorshop.ma](https://collectorshop.ma/collections))
58. Pokeshop Maroc - Pokémon Retail
    - Pokeshop Maroc presents Pokémon display, booster, and collection-product retail categories. (pokeshopmaroc.com)
59. Cartes Pokémon - GameWorld
    - GameWorld maintains a Tunisian Pokémon product category; catalog presentation does not establish replenishment. ([gameworld.tn](https://gameworld.tn/xx.xx-cartes-pok%C3%A9mon))
60. Pokémon - GameShop Angola
    - GameShop Angola advertises Pokémon-related card commerce, without establishing the exact issuer or an official appointment. ([gameshopangola.com](https://www.gameshopangola.com/collections/pokemon))
61. About - Parko Cards
    - Parko describes Auckland dispatch and a New Zealand/Australia trading-card retail proposition. ([parkocards.co.nz](https://parkocards.co.nz/pages/about))
62. Bandai Namco Holdings Inc. - Fact Book 2024
    - Evidence informing base-year company-share estimates: Reports xx.xx cumulative BANDAI CARD GAMES/CARDDASS units through March 2024, the opening observation for the annual shipment-difference proxy; DATA CARDDASS is separately identified.
63. Bandai Namco Holdings Inc. - Fact Book 2025
    - Evidence informing base-year company-share estimates: Reports xx.xx cumulative BANDAI CARD GAMES/CARDDASS units through March 2025. Comparison with the corresponding March 2024 observation derives xx.xx annual shipments, not annual customer purchases.

64. ONE PIECE Card Game - ブースターパック 神速の拳 [OP-11]

    · Evidence informing base-year company-share estimates: The official Japanese OP-xx.xx listing identifies a March xx.xx 2025 release and six cards at JPY xx.xx including tax. This supports a dated per-card reference, not a global realized price.

65. ONE PIECE Card Game - Booster Pack A Fist of Divine Speed [OP-11]

    · Evidence informing base-year company-share estimates: The official English OP-xx.xx listing identifies June xx.xx 2025 and USD xx.xx per pack. It supports overseas commercial participation and ticket context, not the assumed global realization factor.

66. Federal Reserve Board - Foreign Exchange Rates G.5A, January 5, 2026

    · Evidence informing base-year company-share estimates: The January xx.xx 2026 annual exchange-rate release reports JPY xx.xx per USD for 2025, supporting conversion of the Japanese reference-price input.

    · Evidence informing base-year company-share estimates: The 2025 annual average of JPY xx.xx per USD supports conversion of the modeled calendar-year TCG numerator.

    · Evidence informing base-year company-share estimates: The 2025 annual average of USD xx.xx per EUR supports conversion of the modeled Lorcana customer-consideration numerator.

    · Evidence informing base-year company-share estimates: The 2025 annual average is JPY xx.xx per USD, used to convert modeled Japanese-yen card consideration.
    ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/current/))

    · Evidence informing base-year company-share estimates: The 2025 annual average is USD xx.xx per EUR, used to convert modeled euro-denominated card consideration.
    ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/current/))

67. Topps - Investor Presentation filed as Schedule 14A, June 2021

    · Evidence informing base-year company-share estimates: The filed presentation reports 2020 physical Sports and Entertainment revenue of USD xx.xx, approximately USD xx.xx e-commerce revenue and USD xx.xx digital Sports and Entertainment revenue. These are historical model anchors, not 2025 card-only observations.

68. Fanatics Collect - Sports & Trading Card Consignment

    · Evidence informing base-year company-share estimates: The seller page reports xx.xx cumulative cards sold without a defined reporting interval and documents delegated consignment. Calendar-2025 attribution, average realization and the separate Live allowance remain assumptions.

69. Topps - Fanatics Inc

    · Evidence informing base-year company-share estimates: Fanatics identifies its 2022 acquisition of Topps' worldwide physical and digital trading-card operations, supporting the group attribution of the historical business.

70. Fanatics Collectibles, NBA, and NBPA Launch Multiyear Partnership to Elevate the Collector Experience

    · Evidence informing base-year company-share estimates: The October xx.xx 2025 announcement places the licensed NBA launch in late 2025, constraining its period attribution without establishing annual revenue.

71. Fanatics Collectibles, NFL and NFLPA Announce Multi-Year Licensing Deal

    · Evidence informing base-year company-share estimates: The April xx.xx 2026 agreement and April xx.xx first official product date prevent backdating the NFL licensed-release opportunity into calendar 2025.

72. Hasbro, Inc. - Form 10-K for the Fiscal Year Ended December 28, 2025

    · Evidence informing base-year company-share estimates: Reports 2025 tabletop revenue of USD xx.xx, digital/licensed gaming revenue of USD xx.xx and Monopoly Go revenue of USD xx.xx. These constrain the physical Magic and Arena attribution models, not their assumed customer-price conversions.

    · Evidence informing base-year company-share estimates: Hasbro reports a USD xx.xx, xx.xx% decline in MY LITTLE PONY trading-card licensing revenue in 2025. This is the observed licensor-side primitive; KAYOU attribution, royalty rate, product mix and retail realization remain assumptions.

73. The Pokémon Company - Brand Sheet, February 2026

    · Evidence informing base-year company-share estimates: Documents the physical trading-card business and brand operating context. It does not establish the model's annual units, paid sell-through or realized card-only prices.

74. DeNA - Pokémon Trading Card Game Pocket: Over 100 Million Downloads Worldwide
    - Evidence informing base-year company-share estimates: The February xx.xx 2025 announcement reports more than xx.xx Pocket downloads. This constrains commercial reach but does not verify annual paying activity or the modeled USD xx.xx-million card-spending allowance.
75. The Pokémon Company International - About Us
    - Evidence informing base-year company-share estimates: The international operating company identifies responsibility outside Asia. This constrains the reporting-perimeter interpretation and prevents extrapolating its remit into a complete Asian financial perimeter.
76. Bushiroad Inc. - FY2025 Full-Year Financial Results Briefing Material
    - Evidence informing base-year company-share estimates: Supplies the January-June 2025 TCG-unit quarterly revenue inputs and identifies partner-title commercialization roles. Its annual unit and regional displays contain the retained numerical discrepancy.
77. Bushiroad Inc. - FY2026 Second-Quarter Results Explanation Transcript, February 13, 2026
    - Evidence informing base-year company-share estimates: Discloses July-December 2025 overseas TCG sales of JPY xx.xx and a rounded xx.xx% overseas ratio, supporting the modeled calendar-year revenue bridge.
78. Ravensburger AG - Ravensburger wächst beträchtlich und erweitert Vorstand, January 28, 2025
    - Evidence informing base-year company-share estimates: The company-issued release reports EUR xx.xx group revenue in 2024 and more than one billion cumulative Lorcana cards sold; neither observation is Lorcana-only annual revenue.
79. Ravensburger AG - Ravensburger 2025: Wachstum im Kerngeschäft, Rückgang bei Sammelkarten
    - Evidence informing base-year company-share estimates: The company-issued release reports EUR xx.xx group revenue in 2025, xx.xx% core-business growth and declining trading-card sales. These constrain the residual-business estimate and challenge automatic card-growth assumptions.
80. Ravensburger Aktiengesellschaft - Annual Financial Statements and Combined Management Report 2023
    - Evidence informing base-year company-share estimates: The mandatory filing identifies Ravensburger Verlag as an operating subsidiary and documents relevant international group relationships. It supports the entity-perimeter bridge, not the assumed 2025 Lorcana residual.
81. About Upper Deck
    - Evidence informing base-year company-share estimates: Establishes Upper Deck's card business and distinguishes it from adjacent memorabilia and other offerings. It does not disclose the modeled 2025 purchasing pools or revenue.
82. Collecting on Upper Deck e-Pack
    - Evidence informing base-year company-share estimates: Supports entitlement-specific treatment of e-Pack purchases and physical fulfillment rather than automatically classifying account-displayed cards as native-digital sales. No numerical conversion uplift is observed.
83. Asmodee Group - Interim Report Q2 2025/2026
    - Evidence informing base-year company-share estimates: Reports EUR xx.xx of April 2024-March 2025 TCG revenue and separately reports studio-published and partner-published business categories, preventing direct use of the entire TCG category as owned publishing.
    - Evidence informing base-year company-share estimates: Identifies more than xx.xx players at the 2025 Star Wars: Unlimited Galactic Championship, the event-scale primitive used with explicit unobserved participation and spending assumptions.
84. Asmodee Group's Companies List - Updated May 19, 2025
    - Evidence informing base-year company-share estimates: Identifies ADC Blackfire Entertainment GmbH within the Asmodee group, supporting exclusion of duplicate group-channel activity from the publishing numerator.
85. TOMY - HAIKYU!! VOBACA!! BREAK Trading Card Game Announcement, June 30, 2025
    - Evidence informing base-year company-share estimates: The June xx.xx 2025 announcement identifies the planned October xx.xx HAIKYU!! VOBACA!! BREAK launch and JPY xx.xx tax-inclusive booster reference price. It constrains product and ticket scope, not realized sales or purchasing counts.

86. 累計出荷数８２億枚以上の人気 TCG「デュエル・マスターズ」２５周年記念施策のご案内

· Evidence informing base-year company-share estimates: Identifies continuing Duel Masters commercial activity and more than xx.xx cumulative cards shipped. The cumulative figure is not treated as annual 2025 sales.

87. Deloitte New Zealand - Game Changers: Legend Story Studios

· Evidence informing base-year company-share estimates: The November xx.xx 2022 profile identifies Flesh and Blood distribution through xx.xx stores in xx.xx countries. This is a historical commercial-footprint proxy, not a 2025 store census or revenue observation.

88. About Legend Story Studios

· Evidence informing base-year company-share estimates: Identifies Legend Story Studios as the publisher and describes weekly events at more than 2,000 locations worldwide. The model explicitly bridges this current footprint to 2025 rather than presenting it as a base-year observation.

89. UVS Games - Riftbound Retailer FAQ, Updated October 31, 2025

· Evidence informing base-year company-share estimates: The October xx.xx 2025 retailer FAQ distinguishes authorized-distributor stock, organized-play admission and event-kit fulfillment, supporting separate commercial-access and sales assumptions.

90. Riot Games - How to Buy Riftbound Worlds Bundle 2025 and Origins Restock News

· Evidence informing base-year company-share estimates: The October xx.xx 2025 announcement identifies the October xx.xx launch and states that second-wave Riot-direct preorders would ship in late December or early January. It supports partial-year and fulfillment-timing adjustments, not the assumed outlet count.

91. Leaf Trading Cards - 2025 Leaf Metal Baseball Manufacturer Sell Sheet

· Evidence informing base-year company-share estimates: Leaf's manufacturer sell sheet specifies five autograph cards per Metal Baseball hobby box and autograph editions of xx.xx copies or fewer. These configuration observations constrain the release-equivalent model but do not establish annual release counts or total sales.

92. KAYOU Launches MY LITTLE PONY Friendship Eternal Cards: Moon Edition 2 - February 2, 2026

· Evidence informing base-year company-share estimates: The February xx.xx 2026 announcement identifies KAYOU's MY LITTLE PONY collaboration with Hasbro. It supports the named commercial relationship, not exclusive attribution of 2025 licensing revenue or backdated U.S. sales.

93. EPOCH 2025 パシフィック・リーグ ルーキーカードセット

· Evidence informing base-year company-share estimates: The 2025 Pacific League rookie-card set provides a JPY xx.xx tax-exclusive box reference; it does not disclose sold units. ([epoch.jp](https://epoch.jp/cd/products/sp/?detail=xx.xx))

94. トレーディングカード - 2025 年商品一覧

· Evidence informing base-year company-share estimates: The official 2025 archive establishes named sports and character-card offerings, supporting product-scope attribution but not assumed annual customer purchases. ([epoch.jp](https://epoch.jp/cd/index.php?date=xx.xx))

95. eBay Launches Authentication for Trading Cards

· Evidence informing base-year company-share estimates: The historical US trading-card transaction disclosure supplies the USD xx.xx scale anchor; the limited authentication launch also distinguishes assurance eligibility from total transaction activity. ([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-launches-authentication-for-trading-cards/))

96. eBay Inc. Reports Fourth Quarter and Full Year 2025 Results

· Evidence informing base-year company-share estimates: The 2025 results provide the broad GMV perimeter, including shipping and taxes without return/cancellation adjustment, motivating explicit modeled deductions rather than treating GMV as net card spending. ([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-inc-reports-fourth-quarter-and-full-year-2025-results/))

97. eBay Acquires TCGplayer

· Evidence informing base-year company-share estimates: The completed acquisition and dated description of millions of hobbyist buyers establish subsidiary attribution and a historical customer-scale constraint, not the modeled 2025 active-buyer count. ([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-acquires-tcgplayer/))

98. eBay Inc. Reports Second Quarter 2024 Results

· Evidence informing base-year company-share estimates: The 2024 results record the Goldin acquisition, supporting its inclusion within eBay's economic perimeter; they do not establish the assumed 2025 eligible card-auction volume. ([ebayinc.com](https://www.ebayinc.com/stories/news/ebay-inc-reports-second-quarter-2024-results/))

99. Whatnot's 2026 State of Live Selling Report: Time to Go Live

· Evidence informing base-year company-share estimates: Whatnot reports USD xx.xx of its own 2025 live sales, providing the broad activity anchor; card and transaction-stage fractions remain assumptions. ([blog.teamwhatnot.com](https://blog.teamwhatnot.com/unitedstates/2026livesellingreport))

100. Cardmarket.com - Eighteenth-Anniversary Company Disclosure

· Evidence informing base-year company-share estimates: Cardmarket's own anniversary disclosure reports more than two million users and cumulative article/listing counts, providing scale constraints without establishing annual active buyers or GMV. ([linkedin.com](https://www.linkedin.com/posts/cardmarket-com_tradingcardgames-activity-xx.xx-smOn))

101. Trustee Service - Cardmarket

· Evidence informing base-year company-share estimates: Trustee Service describes delivery-linked payment handling, supporting separation of transaction execution from authentication and avoiding an unsupported assurance-revenue addition. ([help.cardmarket.com](https://help.cardmarket.com/en/TrusteeService))

102. COMC Shipping Update - May 2025

· Evidence informing base-year company-share estimates: More than xx.xx cards were sold during April 2025 across COMC.com and COMC's eBay storefront, supporting unit annualization while requiring an execution-channel split. ([blog.comc.com](https://blog.comc.com/2025/xx.xx/xx.xx/comc-shipping-update-may-2025/))

103. How Do I Transfer Cards from Upper Deck e-Pack to My COMC Account?

· Evidence informing base-year company-share estimates: Only physical e-Pack cards can transfer into COMC accounts, supporting physical-card classification and exclusion of a non-sale transfer from the spending numerator. ([comc.zendesk.com](https://comc.zendesk.com/hc/en-us/articles/xx.xx-How-do-I-transfer-cards-from-Upper-Deck-e-Pack-to-my-COMC-account))

104. GameStop Corp. - 2025 Annual Report, Fiscal Year Ended January 31, 2026

· Evidence informing base-year company-share estimates: The filing supplies fiscal collectibles sales, mixed-category boundaries, the PSA dealer relationship and physically backed Power Packs context; card-only and secondary-retail attribution remain modeled. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/d79505dars.pdf))

105. NBA Top Shot Top 5's - October 1, 2025

· Evidence informing base-year company-share estimates: The dated product disclosure supplies concentrated pack-purchase and Moment-transaction counts over a trailing twelve-month period; concentration, calendar conversion and realized values remain assumptions. ([blog.nbatopshot.com](https://blog.nbatopshot.com/posts/top-5s-of-2025))

106. Rookie Origins Drop: The First Rookie Rare Moments of the 2025-26 Season Are Here

· Evidence informing base-year company-share estimates: The November 2025 offering documents paid packs and cases, including a USD xx.xx pack reference; it does not establish the modeled portfolio-average realization. ([blog.nbatopshot.com](https://blog.nbatopshot.com/posts/rookie-origins-drop-dec-xx.xx))

107. Dapper Labs - Product Portfolio and Cumulative Operating Indicators

· Evidence informing base-year company-share estimates: The company's product-specific portfolio identifies NBA Top Shot, NFL ALL DAY and LaLiga, and distinguishes non-card products. Cumulative collector and lifetime-sales figures are scale checks only. ([dapperlabs.com](https://www.dapperlabs.com/))

108. Celebrating 100 Million Players! - Hearthstone, November 5, 2018

· Evidence informing base-year company-share estimates: Blizzard records more than xx.xx cumulative Hearthstone players in November 2018; this is the historical scale anchor, not an observed 2025 active-user or payer count. ([hearthstone.blizzard.com](https://hearthstone.blizzard.com/en-us/news/xx.xx/celebrating-xx.xx-million-players))

109. Crack Open Ancient Power with the Day of Rebirth Mini-Set - Hearthstone

· Evidence informing base-year company-share estimates: The 2025 mini-set offers a normal complete card set for USD xx.xx or earned currency, supporting a paid card-entitlement price reference and exclusion of free acquisition. ([hearthstone.blizzard.com](https://hearthstone.blizzard.com/en-us/news/xx.xx/crack-open-ancient-power-with-the-day-of-rebirth-mini-set))

110. NetEase Announces First Quarter 2025 Unaudited Financial Results

· Evidence informing base-year company-share estimates: The regional operator's 2025 disclosure confirms continuing Hearthstone commercial activity in China, supporting global franchise coverage but not an observed card-only revenue amount. ([ir.netease.com](https://ir.netease.com/node/xx.xx))

111. Nicolas Julia's Post - Sorare 26 five-week launch results

· Evidence informing base-year company-share estimates: The CEO reports USD xx.xx of net revenue after five weeks of the Sorare xx.xx community launch. This is a partial-period, self-reported commercial anchor, not observed annual card consideration or market share.

112. Sorare 26: Season Recap

· Evidence informing base-year company-share estimates: The July xx.xx 2025 announcement identifies the July Early Access launch and continuing seasonal offerings. It supports a seasonal annualization premise, not the assumed nonlaunch receipt rate.

113. What is Sorare Football? A General Introduction

· Evidence informing base-year company-share estimates: Company documentation identifies digital player cards, fantasy-football participation and continuing card holdings. It supports market inclusion and the legacy-stock premise, but does not measure turnover or revenue.

114. How do I sell a Sorare card?

· Evidence informing base-year company-share estimates: The company distinguishes completed card sales from unsold listings and states that gifted Common Cards cannot be sold. This supports excluding free issuance and listings from paid transaction consideration.

115. Sorare MLB 2025: Collect, Play, Win

· Evidence informing base-year company-share estimates: The March xx.xx 2025 company announcement identifies the 2025 MLB offering and March marketplace opening. It supports base-year commercial participation, not an observed MLB sales amount.

116. Double Up Your Rewards: Celebrating Sorare on Solana!

· Evidence informing base-year company-share estimates: The November xx.xx 2025 company announcement describes NBA card purchases through auctions and Instant Buy on Solana. It supports base-year participation and token-ledger classification, not annual transaction value.

21.2. Market Concentration Analysis, 2025

Control in the Trading Card market is divided among property permissions, game-program admission, regional distribution, certification acceptance, and custody. ■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■ ■■■■■■■■ ■■ ■ ■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■ ■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ Entrants should identify the particular controlled relationship rather than infer market-wide power from a supplier's portfolio breadth.

Several apparently separate alternatives share an evidenced business relationship. ADC Blackfire Entertainment GmbH appears in Asmodee Group AB's group-company list. ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■ ■■ ■■■■ ■■ ■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■ ■■■ ■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■■■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■■■■■■■ ■■ ■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■■■■

■■■■■■■■■■■ ■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■ ■■■■■■■■ ■■■■ ■■ ■ ■■■■■■■■■■■■ ■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■ ■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■ ■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■ ■ ■■■■■ ■■■■■■■■■■■■ Likewise, the relationship between Big Bang Copag and Cartamundi remains insufficiently resolved for an independent-alternative comparison. Brand resemblance or a supplier directory is not a substitute for the ownership and contracting record.

Content owners and commercialization partners can divide control rather than combine it. COVER Corporation retains identified hololive planning and development responsibilities while Bushiroad Inc. supplies sales and operations support. ■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■ ■■■■■ ■■■ ■■■■■■■ ■■■■ ■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■ ■■ ■■■ ■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■ ■ ■■■■■■■■ ■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■

■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■ ■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■ ■■ ■■■ ■■■■■ ■■ ■■■■■■■■ ■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■ ■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■ The licensor, publisher, and selling channel therefore control different permissions. Replacing a sales intermediary may preserve the title proposition; replacing the title changes the buyer's utility and may not be an acceptable substitute.

■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■ ■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■ ■■■■■■■ ■■■■ ■■ ■■■■■■■■■■■■■■■ ■■■ ■■■ ■■■■■ ■■■■■■■ ■■■■■■■■■■■■■ Such alternatives can preserve seller choice, but the seller must compare acceptance, release, listing, settlement, and discrepancy responsibilities. Service combinations alone do not establish superior realized outcomes or eliminate dependence on another intermediary.

For Select Australia Pty Ltd, legal attribution remains a material control question. ■■■■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■ ■■■■■ ■■■■■ ■■■■ ■ ■■■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■

[redacted] This unresolved attribution prevents treating brand continuity as proof of unchanged counterparty responsibility.

[redacted] A new merchant should not plan on obtaining that account from the general supply message: access requires an explicit change in admission and an accepted order. The restriction does not establish that existing-customer service or retail sales have stopped.

Sources & Evidence

1. Sports & Trading Card Consignment
   · Fanatics Collect advertises consignment in which it receives holdings, manages listing and sale, and pays proceeds to the seller's account after sale. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
2. Panini America Unites with the NWSL and NWSLPA for Exclusive Multi-Year Trading Card Partnership
   · Panini America's March xx.xx 2026 announcement identifies a separate exclusive NWSL and NWSLPA trading-card relationship, supporting property-specific rather than market-wide interpretation of exclusivity. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-america-unites-with-the-nwsl-and-nwslpa-for-exclusive-multi-year-trading-card-partnership/))
3. Fanatics Collectibles, NFL and NFLPA announce multi-year licensing deal
   · The NFL's April xx.xx 2026 announcement identifies Topps as the NFL and NFLPA's exclusive trading-card licensee and specifies branding permissions, establishing a property-specific publishing control point. ([amp.nfl.com](https://amp.nfl.com/news/fanatics-collectibles-nfl-and-nflpa-announce-multi-year-licensing-deal))
4. Global - Bushiroad Inc.
   · Bushiroad assigns hololive OFFICIAL CARD GAME planning and development to COVER Corporation and sales and operations support to Bushiroad Inc., establishing distinct commercialization responsibilities. ([bushiroad.co.jp](https://bushiroad.co.jp/en/business/global))
5. The hololive OFFICIAL CARD GAME's Position in the TCG Market: Report from the 1st hOCG Shop Staff Networking Event
   · COVER independently identifies its hololive planning and development role, Bushiroad's sales and operational support, and engagement with authorized-store staff in Japan. These observations do not establish another property's negotiating access. ([coveredge.cover-corp.com](https://coveredge.cover-corp.com/en/list/xx.xx))
6. Asmodee Group's Companies List - Updated May 19, 2025
   · Asmodee's group-company list, updated May xx.xx 2025, identifies Asmodee Group AB and includes ADC Blackfire Entertainment GmbH. It supports disclosed group affiliation, not independent-rival treatment. ([cdn.svc.asmodee.net](https://cdn.svc.asmodee.net/corporate/uploads/Templates/Asmodee_group_companies_EN.pdf))
7. Current details for ABN 49 003 881 052 | ABN Lookup
   · The Australian Business Register identifies SELECT AUSTRALIA PTY LIMITED as active. Registration does not establish responsibility for all Select-branded licenses, supply contracts, or redemptions. ([abr.business.gov.au](https://abr.business.gov.au/ABN/View?id=xx.xx))

8. User Agreement - Select Cards
   · Select's user agreement identifies Select Cards Pty Ltd as the site's owner and operator. That identity differs from Select Australia Pty Ltd and does not resolve all branded liability allocations. ([selectcards.com](https://selectcards.com/pages/user_agreement))
9. A message from Grant Copley, Founder of Select Cards
   · Select's October xx.xx 2026 announcement describes continuing other-license activity and qualified redemption commitments. Its brand-level statements do not allocate every obligation to Select Australia Pty Ltd. ([selectcards.com](https://selectcards.com/blogs/announcements/a-message-from-grant-copley-founder-of-select-cards))
10. Collectors - Our Brands
    · Collectors presents PSA, PSA Vault, Beckett, and SGC within its brand portfolio. The page establishes the disclosed brand relationship, not a dated acquisition-closing record or identical service contracts. ([collectors.com](https://www.collectors.com/brands))
11. Trustee Service | Cardmarket
    · Cardmarket holds seller payment until buyer arrival confirmation for covered tracked shipments, establishing delivery-linked payment administration rather than an equivalent consignment or custody undertaking. ([help.cardmarket.com](https://help.cardmarket.com/en/TrusteeService))
12. FAQ - Black Chantry Productions
    · Black Chantry describes traditional distribution and a DriveThruCards print-on-demand purchasing route. The channel does not replace the publisher's separate licensing relationship. ([blackchantry.com](https://www.blackchantry.com/about-us/faq/))
13. COMC Introduction
    · COMC describes card consignment, account-based storage and shipment, and an eBay auction route. These are advertised service relationships rather than demonstrated comparative seller outcomes. ([comc.zendesk.com](https://comc.zendesk.com/hc/en-us/articles/xx.xx-COMC-Introduction))
14. Sobre Coqui Hobby
    · Coqui Hobby Distribution LLC identifies itself as part of the PHD distribution family. This supports a relationship between the named alternatives without establishing every ownership or contractual detail. ([coquihobby.com](https://www.coquihobby.com/about/))
15. Pokémon & TCG Wholesale in Africa
    · Carta Distribution's wholesale page identifies Carta International Limited in its business and legal attribution, supporting an operator-brand connection rather than independent-competitor treatment. ([cartadistribution.com](https://cartadistribution.com/wholesale/africa))
16. Stock Information - Happinet
    · Happinet's shareholder disclosure identifies Bandai Namco Holdings Inc. as a shareholder. It does not support describing Happinet as wholly owned by Bandai Namco. ([happinet.co.jp](https://www.happinet.co.jp/english/ir/stock/situation.html))
17. State of the Game, Feb. 2026
    · Riot's February xx.xx 2026 Riftbound update names UVS and Shining Soul as partners. The statement identifies cooperation but does not disclose unrestricted property permissions or every territorial supply obligation. ([playriftbound.com](https://playriftbound.com/en-us/news/announcements/state-of-the-game-feb-2026/))
18. Warlord: Saga of the Storm - Frequently Asked Questions
    · Warlord's official FAQ identifies Kingswood Games as an AEG licensee and directs purchasing and direct-sale access through Covenant, separating licensing, publishing, and selling relationships. ([warlordsots.com](https://www.warlordsots.com/faq))
19. Our vision - Black Chantry Productions
    · Black Chantry Productions identifies Vampire: The Eternal Struggle as its publishing project and Paradox Interactive as its licensor. ([blackchantry.com](https://www.blackchantry.com/about-us/vision/))

20. Pokemon, Yu-Gi-Oh! Cards / - Kit N Caboodle

    · Kit N Caboodle's card page advertises booster packs, theme decks, and box sets for named games and identifies its Bermuda retail location. It does not establish a wholesale appointment or release-specific delivery commitment. ([kitncaboodle.shop](https://www.kitncaboodle.shop/pokemon-yugioh))

21. Mythos Cards - App Store

    · The developer-published Mythos Cards listing identifies Asepto Kart Ticaret Anonim Sirketi as app developer and seller and advertises card purchasing and marketplace functions. App attribution does not independently establish continuing club rights or offering-specific delivery and digital entitlements. ([apps.apple.com](https://apps.apple.com/us/app/mythos-cards/id1614083435))

22. Pokémon Cards Wholesale Supplier in Dubai - PokéMENA B2B

    · PokéMENA's B2B page advertises English and Japanese Pokémon supply but expressly states that wholesale applications are closed and new requests will not receive responses. The admission restriction qualifies the page's broader supply marketing. ([pokemena.com](https://pokemena.com/pages/wholesale-b2b))

21.3. Recent Developments & Impact Analysis, 2025

Sports-license developments change property-specific options rather than the entire supplier landscape. ■■■ ■■■■■ ■■■■■ ■■ ■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■ ■■■■■ ■■■■■■■ ■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■ ■■■ ■■■■ ■■■■ ■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■ Parkside Collectibles' continuing sports catalog is not evidence that an older property appointment continues on unchanged terms.

■■■■■■■■ ■■■■■■■ ■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■ ■■■ ■■■ ■■■■■■■ ■■■■ ■■■ ■■ ■■■■■■■■ ■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■ ■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■ ■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■ For Select Australia Pty Ltd, dealers should separate new AFL issuance, legacy stock, other sports products, and redemption obligations, while resolving the actual contractual obligor. Portfolio continuity does not replace the particular subject an AFL collector seeks.

Equinox's Altered program supplies a concrete counterexample to assuming that an original-game community guarantees continued publishing. The March xx.xx 2026 announcement cancels the Roots of Corruption campaign and announces the end of the Altered adventure, with reimbursement commitments. ■■■■ ■■■■■■■ ■■■ ■■■■■■ ■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■ ■■■■■■■ ■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■ ■■■■ ■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■

The June xx.xx 2026 MetaZoo announcement assigns MetaTwo Enterprises LLC the publishing role while GameQbator Labs, Inc. continues in a consulting and advisory capacity. ■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■ Advisory participation is not an equivalent publishing mandate, and the announcement does not itself demonstrate subsequent fulfilled releases.

Announced licensed entries broaden potential future assortments without proving delivered alternatives. Spin Master Corp.'s February xx.xx 2026 Hellbreak announcement identifies a

collaboration involving Universal and Ghost Galaxy, Inc.; CD PROJEKT RED's March xx.xx 2026 Cyberpunk announcement identifies WeirdCo and a crowdfunding launch. ■■■■■■■■■ ■■■■■■ ■■■■ ■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■ ■■■■ ■■■ ■■■■ ■■■■ ■■■■■■■ ■■■■■■■■■ ■■■ ■■■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■

■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■ ■■■■ ■■ ■■■■■■■ eBay Inc.'s TCGplayer subsidiary announced expanded Australian purchasing access on October xx.xx 2026, distinguishing eligible Direct fulfillment from MyUS forwarding and limiting the latter's Safeguard coverage to the domestic leg. An Australian buyer should select the actual fulfillment relationship rather than assume that broader assortment access carries uniform onward-delivery protection.

Supply and custody developments have different commercial consequences. ■■■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■ ■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■ ■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■ A publisher should obtain an accepted supply commitment, and a dealer should obtain explicit custody-intake acceptance; neither general capability marketing nor an earlier launch announcement settles those commitments.

Sources & Evidence

1. Panini America Unites with the NWSL and NWSLPA for Exclusive Multi-Year Trading Card Partnership
   · The announcement establishes a dated property-specific relationship, not completion or continuing availability of every planned product.
   ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-america-unites-with-the-nwsl-and-nwslpa-for-exclusive-multi-year-trading-card-partnership/))
2. Fanatics Collectibles, NFL and NFLPA announce multi-year licensing deal
   · The dated agreement changes NFL-specific publishing access; it does not establish an individual retailer's accepted supply.
   ([amp.nfl.com](https://amp.nfl.com/news/fanatics-collectibles-nfl-and-nflpa-announce-multi-year-licensing-deal))
3. A message from Grant Copley, Founder of Select Cards
   · Select states an October xx.xx 2026 AFL license end, planned final/archive activity, qualified redemption commitments, and continued other-license operations.
   ([selectcards.com](https://selectcards.com/blogs/announcements/a-message-from-grant-copley-founder-of-select-cards))
4. Cartamundi Expands Production Facility in Turnhout to Accommodate Growing Demand for Collectible Cards
   · The completed opening provides a commercial supply development but not a release-specific delivery commitment.
   ([cartamundi.com](https://cartamundi.com/app/uploads/2024/xx.xx/Press-Release-xx.xx-Cartamundi-Opening-Turnhout.pdf))

5. TCGplayer Expands Australian Access to U.S. Trading Card Game Marketplace
   · TCGplayer's October xx.xx 2026 Australian announcement distinguishes eligible Direct fulfillment from MyUS forwarding and limits forwarded-purchase Safeguard coverage to the domestic leg. Attributed third-party research claims are excluded. ([seller.tcgplayer.com](https://seller.tcgplayer.com/press-center/-to-the-u.s.-trading-card-game-marketplace))
6. Vault Your Cards | Help Center
   · The intake-pause notice is a dated access restriction distinct from existing-card redemption and general submission marketing. ([help.courtyard.io](https://help.courtyard.io/en/articles/xx.xx-vault-your-cards))
7. Collections - Parkside Collectibles
   · Continuing portfolio presentation is not proof that older property appointments retain unchanged terms. ([parksidecards.com](https://www.parksidecards.com/collections))
8. A Chapter Closes - Altered Archive
   · Altered's March xx.xx 2026 announcement cancels Roots of Corruption, announces the end of the Altered adventure, and makes reimbursement commitments. It does not establish every corporate activity's status. ([altered.gg](https://www.altered.gg/en-us/news/a-chapter-closes/))
9. MetaTwo and GameQbator Labs Advance MetaZoo TCG to Its Next Phase
   · The June xx.xx 2026 joint announcement assigns MetaTwo the MetaZoo publishing role and GameQbator a continuing consulting/advisory role, without demonstrating subsequent fulfilled releases. ([metazootcg.com](https://www.metazootcg.com/news/metatwo-publisher))
10. Spin Master and Universal Introduce Hellbreak - February 3, 2026
    · Spin Master's February xx.xx 2026 Hellbreak announcement identifies a planned licensed TCG collaboration involving Universal and Ghost Galaxy, not demonstrated completed retail fulfillment. ([spinmaster.mediaroom.com](https://spinmaster.mediaroom.com/2026-xx.xx-xx.xx-Spin-Master-and-Universal-Products-Experiences-Introduce-Hellbreak-TM-%2C-A-New-Horror-Trading-Card-Game-Set-to-Launch-in-2026))
11. Cyberpunk Trading Card Game Launches Kickstarter Campaign - CD PROJEKT RED
    · CD PROJEKT RED's March xx.xx 2026 announcement identifies WeirdCo's collaborative Cyberpunk TCG project and crowdfunding launch, not completed retail delivery. ([cdprojekt.com](https://www.cdprojekt.com/en/media/news/cyberpunk-trading-card-game-launches-kickstarter-campaign/))
12. Kidz and Kitz Announces MANYC Distribution Partnership in Thailand
    · Kidz and Kitz's September xx.xx 2026 company announcement identifies a Thai distribution relationship with Guangzhou MANYC Cultural Technology Co., Ltd.; the announcement does not establish completed fulfillment. ([vritimes.com](https://www.vritimes.com/th/articles/e4f95fc4-ab38-4c07-8b3f-6a53649e5200/e75e1f9a-204a-xx.xx-xx.xx-584108c553b6))

21.4. Product Portfolio Analysis, 2025

[illegible] A retailer serving competitive players must assess game and edition suitability, while a character collector may prioritize subject matter. Franchise recognition does not make these inventories interchangeable.

Ravensburger Verlag GmbH's Disney Lorcana Gateway addresses introductory purchasing through a guided, self-contained offering. Bushiroad Inc. presents a different portfolio

proposition: its language-specific card programs include Cardfight!! ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪

Square Enix maintains an official Final Fantasy Trading Card Game program, providing a franchise-specific alternative to multi-property assortments. Hobby Japan's precise contractual publishing and distribution responsibilities remain unresolved, so a prospective partner should identify the actual supplier and approval authority rather than assume that a development attribution supplies ordering rights. ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪

▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ These are alternative assortment propositions, not substitutes for an existing player's usable collection. A store should distinguish an introductory product from the continuing supply and community commitments needed to support the title.

Rising Empire Studios' Alpha Clash catalog, Elestrals LLC's card storefront, Nostalgix's Cosmic Collision set page, and Force of Will's booster and starter portfolio provide additional specialist alternatives. ▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ Catalog presentation establishes named offerings, but current order acceptance and publisher-support eligibility remain separate checks for each title.

Ghost Galaxy, Inc.'s KeyForge starter products and Stone Blade Entertainment's SolForge Fusion address different forms of entry into play. SolForge Fusion expressly links physical decks to an online account, rather than making the physical product and its digital use identical entitlements. ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪

Sports specialists differentiate by subject and purchasing format. Leaf Trading Cards presents sports, multi-sport, and celebrity releases; Wild Card organizes its checklist portfolio across sports and entertainment; and Parkside Collectibles presents INDYCAR and soccer-related collections. ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪

▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪

NETPRO Trading Cards, LLC's tennis proposition adds sport-specific depth, while Bench Warmer's card catalog provides another autograph-led collecting assortment. ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ For Club Legacyz, offered football cards and preorder presentation must be distinguished from completed delivery and established athlete or club permissions.

Entertainment-card alternatives include Rittenhouse Archives' Star Trek Connections, Cryptozoic Entertainment's trading-card catalog, Unstoppable Cards' Avengers and Hammer collector sets, and Monsterwax's Lost in Space art-card offering. Cryptozoic identifies Pan-Universal Galactic Worldwide as its Conan the Barbarian collaborator, so the same release should not automatically be interpreted as independent publishing capability at both businesses. ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪

China-origin character-card participation also requires brand and operator separation. ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ Shanghai Qixing Network Technology Co., Ltd. requires confirmation of the current Hitcard offering, territorial permissions, and responsible issuer before it can be benchmarked against another character-card supplier.

▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ Vanguard, and sports collection cards. Language edition, game eligibility, and the local appointment remain decisive; a domestic catalog does not establish the same commercial entitlement in another country.

Raj Comics by Sanjay Gupta's Bhokal card set and Monsta's Galaxy Card packs demonstrate locally rooted character-card propositions outside the principal international sports licenses. ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪

■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■ ■■■■ ■■ ■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■ They should not be assumed to confer a general franchise-publishing mandate.

Fenix Entertainment SpA's Mitos y Leyendas activity supplies a localized game alternative. ■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■ ■■ ■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■ ■■ ■■■■ ■■■ ■■■■ ■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■ ■■■ ■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■■■ ■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■ ■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■ ■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ Blue Ocean Entertainment AG describes trading-card-game publishing but needs release-specific confirmation for an assortment decision; Magicbox's Superthings card-and-figure products instead present a bundled play proposition whose card entitlement should be described separately from the toys.

Play Forest, S.L. identifies its Mundicromo limited-edition hobby-card proposition, but heritage branding does not settle continuity of older rights. ■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■ ■■■ ■■■■■■■ ■■■■■■■ ■■■■■ ■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■ ■■■■■■■ ■■■ ■■■ ■■■■■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■ ■ ■■■■■■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■ ■■■■ ■■■■■■■■■■■■ These are product-comparison limitations, not evidence of inactivity.

Native-Digital Cards compete through different utility and transfer relationships. Dapper Labs' NBA Top Shot offers licensed digital Moments; Sorare links digital player cards to fantasy-football participation; and Horizon Blockchain Games' Skyweaver materials describe tradable game cards, with the current legal contracting-name bridge requiring confirmation. ■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■ ■ ■■■■■■■■■■ ■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■

Blizzard Entertainment's Hearthstone supplies an account-based digital card-game alternative, but its game offering does not establish unrestricted secondary transfer. ■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■ ■■■ ■■■■■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■

■■■■■■■ ■■■■■ ■■■■ ■■■■■■■■ ■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■■■ Hobby World, LoreMaster Game, Realm Runner Studios Ltd, and xx.xx Fallen likewise need current named products and responsible publishing counterparties before their portfolios can be compared on a continuing-supply basis.

45. Build Divide Bright Booster Pack - Aniplex Online
    · Aniplex Online lists a physical Build Divide Bright booster product associated with the Rascal Does Not Dream anime series. ([online.aniplex.co.jp](https://online.aniplex.co.jp/itemBDEePAtV.html))
46. Business - DAEWON MEDIA
    · Daewon's official business portfolio identifies Yu-Gi-Oh! OCG, Rush Duel, Cardfight!! Vanguard, and sports collection cards. ([daewonmedia.com](https://daewonmedia.com/en/business))
47. Trading Cards of Bhokal - Raj Comics by Sanjay Gupta
    · The official Raj Comics storefront presents a Bhokal trading-card set and identifies Raj Comics by Sanjay Gupta as publisher.
    ([rajcomicsuniverse.com](https://rajcomicsuniverse.com/product/set-of-xx.xx-trading-cards-of-bhokal/))
48. Monsta Galaxy Card - Official Website
    · Monsta's official Galaxy Card site presents named commercial pack lines and a store relationship.
    (galaxycard.monsta.com)
49. About Us - TSC
    · TSC's business page describes historical player-card activity, without establishing current issuance or stock.
    ([tsc.cyberbiz.co](https://tsc.cyberbiz.co/pages/about-us))
50. Services - Pieces of Stories Player Cards
    · Pieces of Stories advertises player-card and custom-card services with event-related commercial relationships. ([the-pos.com](https://the-pos.com/posservice/))
51. Leyendas de Ultratumba: Tinieblas - Mitos y Leyendas
    · The official Mitos y Leyendas announcement presents a named October 2026 offering with Fenix Entertainment attribution.
    ([blog.myl.cl](https://blog.myl.cl/leyendas-de-ultratumba-tinieblas-amadis-de-gaula-en-el-reto/))
52. Indommus Reyes Destronados - Iriladia Expansion - AKATAKA
    · AKATAKA's Iriladia listing identifies an Indommus expansion and marks it sold out, separating attribution from replenishable supply.
    ([akataka.com](https://akataka.com/producto/indommus-reyes-destronados-expansion-iriladia/))
53. CLAN - Rage Multiverse
    · Rage Multiverse's CLAN page describes creative-project links and a Mito Editorial role-playing collaboration, not a settled continuing physical-card supply relationship.
    ([ragemultiverse.com](https://ragemultiverse.com/clan/))
54. Verlag - Blue Ocean
    · Blue Ocean describes trading-card-game publishing within a wider media and collectibles business, without identifying every current card release. ([blue-ocean.de](https://www.blue-ocean.de/verlag/))
55. Toys - Magicbox
    · Magicbox's Superthings Power Super Card Game products combine cards with figures and other play components. ([magicboxint.com](https://magicboxint.com/int/product-category/toys/))
56. Mundicromo - Brand and Heritage
    · Mundicromo identifies Play Forest, S.L. and presents a limited-edition hobby-card proposition; heritage description does not establish current continuity of older rights.
    ([mundicromo.com](https://mundicromo.com/es/blogs/noticias/mundicromo-is-an-exciting-new-brand-with-legacy))
57. Prodotti - Diramix
    · Diramix's inspected catalog presents collections but does not settle current named card availability or separation from sticker offerings. ([diramix.com](https://www.diramix.com/prodotti/))
58. What Is Sorare Football? A General Introduction
    · Sorare describes digital player cards linked to fantasy-football participation and real-world player performance.
    ([help.sorare.com](https://help.sorare.com/hc/en-us/articles/xx.xx-What-is-Sorare-Football-A-General-Introduction))

59. Conquest Mode Overview - Skyweaver
    · Horizon-attributed Skyweaver materials describe tradable game cards; the historical page does not settle every current legal-operator or participation condition. ([skyweaver.net](https://www.skyweaver.net/news/conquest-overview))
60. Hearthstone - Official Game Offering
    · Blizzard presents Hearthstone as a digital strategy card game; the offering page does not establish unrestricted secondary transfer. ([hearthstone.blizzard.com](https://hearthstone.blizzard.com/en-us/))

21.5. Benchmarking Analysis, 2025

[illegible] A publisher needs content permission and an accepted supply agreement; an organized-play retailer needs the relevant program approval and product access; a secondary seller may need listing, custody, payment handling, or an outright buyer. Comparing all participants as interchangeable card suppliers would obscure the business condition that determines access.

For secondary sellers, GameStop Corp.'s qualifying PSA-card purchasing program is an outright dealer route, whereas Fanatics Collect and COMC offer consignment. Cardmarket holds payment for covered shipments until delivery confirmation, while eligible eBay Inc. transactions include an authentication handoff. [illegible]

Certification should be benchmarked against the intended downstream route. Collectors' PSA Vault accepts specified PSA, SGC, BGS, and CGC holders but excludes raw cards and other holders. [illegible]

Local access intermediaries require a separate comparison from certification providers. Grade It advertises submission handling, and Card Legends describes a route through Grade It; these should not automatically be counted as independent grading providers. [illegible]

Slabhead's graded-card commerce and Collectors Club's specialty-store proposition are distinct from grading itself. [illegible]

[redacted] Provider names and collector-service branding cannot substitute for the actual service undertaking.

[redacted] A dealer should obtain explicit intake acceptance before dispatch and verify release eligibility before promising possession. Account-based handling can avoid repeated shipment between exchanges, but retains fulfillment or custodial dependence.

Contract suppliers should be compared on accepted commercial commitments rather than assumed access to publishing rights. Cartamundi advertises trading-card services and has disclosed named TCG customer relationships. [redacted]

[redacted] Japan Trading Card Center Co., Ltd.'s repack proposition requires transaction-level confirmation of the acquired entitlement, responsible seller, supported destination, and delivery conditions before comparison with a live allocation or an identified Single Card. Geek Fuel likewise requires a continuing card-specific catalog and fulfillment undertaking before a curated collectible purchase can be treated as an equivalent card offer.

Supply candidates ACD Distribution, Magazine Exchange, and MJ Holding need current named card portfolios, contracting identities, and retailer-service commitments before their channels can be compared with publisher-listed distributors. The relevant benchmark is an accepted title-country ordering and fulfillment relationship, not general hobby-distribution or merchandising activity. [redacted]

Sources & Evidence

1. Sports & Trading Card Consignment
   · The service is a consignment route rather than evidence of an outright dealer purchase or superior seller outcome. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
2. Collecting on Upper Deck e-Pack
   · Upper Deck distinguishes e-Pack digital items from eligible physical counterparts and describes physical fulfillment options. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))

3. eBay Authenticity Guarantee for Trading Cards
   · Eligible eBay card transactions include an authentication handoff and specified assurance conditions rather than universal card certification. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
4. Card Breaks Policy
   · Whatnot's card-break policy requires allocation disclosure, visibility, card delivery, and same-show opening and restricts off-platform presales. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))
5. Graded Trading Cards | Buy or Trade In Graded Cards
   · GameStop advertises outright purchases of qualifying PSA-graded cards and excludes other grading providers from the stated purchasing program. ([gamestop.com](https://www.gamestop.com/graded-trading-cards))
6. Cartamundi Expands Production Facility in Turnhout to Accommodate Growing Demand for Collectible Cards
   · Cartamundi's October xx.xx 2024 Turnhout announcement identifies a completed facility opening and named TCG customer relationships, not reserved supply for a new customer. ([cartamundi.com](https://cartamundi.com/app/uploads/2024/xx.xx/Press-Release-xx.xx-Cartamundi-Opening-Turnhout.pdf))
7. Collectors - Our Brands
   · Group-brand affiliation does not itself establish identical downstream acceptance or service contracts. ([collectors.com](https://www.collectors.com/brands))
8. PSA Vault
   · PSA Vault accepts specified PSA, SGC, BGS, and CGC encapsulated cards while excluding raw cards and other holders. ([psacard.com](https://www.psacard.com/info/psa-vault))
9. Trustee Service | Cardmarket
   · Delivery-linked settlement provides a different delegation choice from consignment, certification, or outright purchasing. ([help.cardmarket.com](https://help.cardmarket.com/en/TrusteeService))
10. How It Works | Courtyard
    · Courtyard advertises digitally opened packs containing real graded physical cards, custody, marketplace exchange, and requested delivery. General marketing also invites submissions. ([courtyard.io](https://courtyard.io/about))
11. Terms of Service | Help Center
    · Courtyard's terms connect tokens with corresponding physical assets and condition physical release on ownership, identity, and eligibility checks. ([intercom.help](https://intercom.help/courtyardio/en/articles/xx.xx-terms-of-service))
12. Vault Your Cards | Help Center
    · Courtyard's April xx.xx 2026 notice pauses new vault submissions, says incoming shipments will be returned, and preserves redemption of existing stored cards. ([help.courtyard.io](https://help.courtyard.io/en/articles/xx.xx-vault-your-cards))
13. COMC Introduction
    · COMC provides a delegated consignment alternative rather than an outright dealer purchase. ([comc.zendesk.com](https://comc.zendesk.com/hc/en-us/articles/xx.xx-COMC-Introduction))
14. Trading Cards - About CGC Cards
    · CGC Cards advertises card certification services across TCG, sports, and non-sports categories; this does not establish universal downstream acceptance. ([cgccards.com](https://www.cgccards.com/card-grading/about-cgc/))
15. Get Your Cards Graded - Grade It
    · Grade It advertises card-submission handling, a commercial role distinct from performing the receiving provider's grading. ([gradeit.co.za](https://www.gradeit.co.za/))
16. Grade Your Cards - Card Legends
    · Card Legends describes grading submissions through Grade It, requiring separation of collection access from the actual certification provider. ([cardlegends.co.za](https://cardlegends.co.za/pages/grade-your-cards))

17. CGC Cards Appoints DAKA as an Official Submission Center in China
    - The October xx.xx 2023 NGC Shanghai announcement names DAKA as an official CGC Cards submission center; the dated appointment does not establish perpetual acceptance. ([ngccoin.cn](https://www.ngccoin.cn/news/article/xx.xx/))
18. PDT Grading - Professional TCG Grading in Mexico
    - PDT Grading presents a Mexican TCG grading-service proposition; provider recognition remains a downstream acceptance question. ([pdtgrading.com](https://www.pdtgrading.com/))
19. Slabhead - Graded-Card Commerce
    - Slabhead presents graded-card sales and collection-related commerce rather than establishing that every transaction is certification. (slabhead.co.za)
20. Collectors Club - Trading Cards, Cape Town
    - Collectors Club presents a Cape Town specialty trading-card store and buying, selling, and trading proposition. ([thecollectorsclub.co.za](https://www.thecollectorsclub.co.za/))
21. Trading Card/Game Solutions - Cartamundi
    - Cartamundi advertises commercial trading-card and trading-card-game services, a role separate from franchise publishing permission. ([cartamundi.com](https://cartamundi.com/en/collectible-trading-card-solutions/))
22. Trading Card & TCG Printing in New Zealand - Game Print
    - Game Print advertises commercial TCG, sports-card, and collectible-set supply printed and finished in New Zealand. ([gameprint.nz](https://www.gameprint.nz/trading-card-printing))
23. About Us - Ludocards
    - Ludocards identifies Ecliptio Ltd as its operator and describes a custom-card business; it does not establish an equivalent named trading-card customer contract. ([ludocards.com](https://www.ludocards.com/about))
24. TOPPAN Develops Paper-Based Pillow Packaging for Trading Cards
    - TOPPAN's June xx.xx 2026 announcement identifies a trading-card packaging proposition and TOPPAN Inc. as a wholly owned subsidiary of TOPPAN Holdings Inc.; announced sampling does not establish card publishing. ([toppan.com](https://www.toppan.com/en/tradingcard/information/column-xx.xx/))

22. Company Profiles

22.1. Fanatics, Inc.

[redacted] This establishes access to the specified property, not exclusivity across all card themes or an individual retailer's supply entitlement. A prospective publisher must distinguish obtaining content rights from obtaining finished products for resale.

[redacted] For eligible transactions, eBay's authentication route provides a different alternative, with the seller shipping an already-sold card through an authentication facility. Dealers should compare the responsibilities actually delegated before transferring holdings; publishing rights do not establish preferential consignment treatment or superior seller outcomes.

Sources & Evidence

1. Sports & Trading Card Consignment
   · Fanatics Collect describes consignment, management of listings and sales, account payouts, custody options, and grading-related services; these establish advertised services rather than comparative seller outcomes. ([fanaticscollect.com](https://www.fanaticscollect.com/sell))
2. eBay Authenticity Guarantee for Trading Cards
   · Eligible eBay sales require the seller to send the sold card through an authentication facility, supporting comparison with delegated consignment. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
3. Topps - Fanatics Inc
   · Fanatics identifies Topps as an acquired trading-card business; the 2022 acquisition included physical and digital divisions. ([fanaticsinc.com](https://www.fanaticsinc.com/topps))
   · Company verification: Fanatics acquired Topps in 2022 and identifies it as a trading-card brand within Fanatics Collectibles.
   · Company verification: The acquired business included physical and digital trading cards and international operations.
4. Fanatics Collectibles, NFL and NFLPA announce multi-year licensing deal
   · The NFL's April xx.xx 2026 announcement names Topps the NFL and NFLPA's exclusive trading-card licensee and specifies official branding rights and global distribution. ([amp.nfl.com](https://amp.nfl.com/news/fanatics-collectibles-nfl-and-nflpa-announce-multi-year-licensing-deal))
   · Company verification: The NFL announced a multi-year licensing agreement with Fanatics Collectibles and the NFLPA in 2026.
   · Company verification: The announcement identifies the 2025 Topps Chrome Football collection.

5. Company Profile and Trading-Card Business - MINT Co., Ltd., July 2026
   · Company verification: MINT lists The Topps Company as a vendor, providing a channel cross-check for Fanatics' Topps business.

22.2. Panini S.p.A.

Panini's collectibles portfolio distinguishes trading cards and trading card games from stickers. ■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■■■ ■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■ ■■■■■ ■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■■■■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■ ■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■ ■■■■■■■ ■■■■■■■■ Buyers should keep the card proposition separate from the group's wider collectibles assortment.

■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■ ■■■■■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■ ■■■■ ■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■ ■■ ■■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■ ■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ Collectors choosing external transfer therefore exchange immediate platform utility for an external selling route, subject to eligibility. A dealer should verify the particular collection's permissions before promising portability or commercial use of its imagery; blockchain ownership does not remove the publisher's contractual controls.

Sources & Evidence

1. Panini NFT FAQs - Blockchain & Marketplace Help
   · Panini Bridge identifies supported collections and external marketplace access. Ethereum-held cards cannot use specified Panini collecting activities or Panini Marketplace selling until returned. ([nft.paniniamerica.net](https://nft.paniniamerica.net/resources/faqs.html?tab=PANINI+BRIDGE))
2. Panini America Unites with the NWSL and NWSLPA for Exclusive Multi-Year Trading Card Partnership
   · The March xx.xx 2026 announcement identifies Panini America as a Panini Group subsidiary and announces exclusive NWSL and NWSLPA trading-card rights with planned card, blockchain, and sticker products. ([blog.paniniamerica.net](https://blog.paniniamerica.net/panini-america-unites-with-the-nwsl-and-nwslpa-for-exclusive-multi-year-trading-card-partnership/))
3. Terms & Conditions
   · Panini's terms permit Non-Mintable classifications, including for licensing reasons, and reserve underlying content rights despite external token holding. ([paniniamerica.net](https://www.paniniamerica.net/terms-conditions))
4. Collectibles - Panini S.p.A.
   · Panini's official collectibles portfolio separately describes trading cards, trading card games, and stickers. ([paninigroup.com](https://paninigroup.com/en/us/business-areas/collectibles))
   · Company verification: Panini's collectibles classification distinguishes stickers, trading cards, and trading card games.
5. Company Profile and Trading-Card Business - MINT Co., Ltd., July 2026
   · Company verification: MINT lists the Panini Group as a vendor.
6. The Panini Group: History and Background Info
   · Company verification: Panini identifies trading-card collectibles among its businesses and lists group companies in Europe, Latin America, and the United States.

22.3. Hasbro, Inc.

Hasbro participates through its Wizards of the Coast subsidiary, with Magic: The Gathering combining an established game system, licensed Universes Beyond properties, digital play through Arena, and direct card sales through Secret Lair. ■■■ ■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■ ■■■■■■ ■■■■■■■■■■■■ ■■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■ For retailers, licensed themes can broaden the assortment proposition, but competitive suitability still depends on the intended format and applicable set eligibility rather than the featured franchise alone.

The Wizards Play Network adds a qualified-store relationship to ordinary product resale. ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■ ■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■ ■■■ ■■■■■■■ ■■■■■ ■■■■■■ ■■■■ ■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■ Program approval should not be treated as confirmation of particular product allocations, and format changes should trigger a review of player-facing assortment claims.

Sources & Evidence

1. How to Apply for the WPN
   - WPN applications require an operating independent store, business documentation, and an appropriate purchasing and play environment; requirements can differ outside the United States and Canada. ([wpn.wizards.com](https://wpn.wizards.com/en/news/how-apply-wpn))
2. Hasbro, Inc. Annual Report on Form 10-K for the Fiscal Year Ended December 28, 2025
   - Hasbro identifies Wizards as a subsidiary, Magic as a trading card game, Universes Beyond content licenses and royalty obligations, Arena, and Secret Lair's direct card storefront. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/has-xx.xx.htm))
   - Company verification: Hasbro's 2025 Form xx.xx-K identifies Magic: The Gathering as a strategic trading card game.
   - Company verification: The filing reports Wizards of the Coast and Digital Gaming as a Hasbro business segment and distinguishes tabletop from digital and licensed gaming.
3. MTG Standard Format
   - Wizards identifies Standard-eligible sets and explains rotation, supporting format-specific assortment checks rather than franchise-based assumptions about competitive suitability. ([magic.wizards.com](https://magic.wizards.com/en/formats/standard))
4. Kayou Launches MY LITTLE PONY Friendship Eternal Cards: Moon Edition 2 Trading Cards and “Chase the Magic” Sweepstakes
   - Company verification: The announcement establishes Hasbro's licensing collaboration with KAYOU for named My Little Pony trading cards.

22.4. The Pokémon Company

■■■ ■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■■■

[illegible] Physical offerings include fixed-content preconstructed decks and randomized booster packs, giving merchants distinct propositions for immediate play and collecting variety. Product recognition does not establish a particular merchant's appointment or supply commitment.

Pokémon TCG Pocket is a separately identified mobile offering, not evidence that a physical-card purchase creates an equivalent Pocket holding. [illegible] A change in eligible cards or account permissions should trigger a review of any customer-facing exchange promise.

Sources & Evidence

1. What types of Trading Card Game products are available?
   - Pokémon distinguishes fixed-content preconstructed decks intended for immediate play from randomized booster packs, supporting different physical-product propositions. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-What-types-of-Trading-Card-Game-products-are-available))
2. Pokémon TCG Pocket Trading FAQ
   - Pocket trading is restricted to friends and eligible cards, including matching rarity; the application provides the applicable eligible-card list. These conditions do not establish unrestricted commercial exchange permission. ([support.pokemon.com](https://support.pokemon.com/hc/en-us/articles/xx.xx-Pok%C3%A9mon-TCG-Pocket-Trading-FAQ))
3. The Pokémon Company International - About Us
   - The Pokémon Company International identifies responsibility for the Pokémon Trading Card Game and property management outside Asia, not a complete Asian contracting perimeter. ([corporate.pokemon.com](https://corporate.pokemon.com/en-us/about/))
   - Company verification: The Pokémon Company International states that it manages the property outside Asia and is responsible for the Pokémon Trading Card Game.
   - Company verification: This establishes an operating-company business role; it does not independently establish the complete parent-group reporting perimeter.
   - Company verification: The international operating company's business page states responsibility for Pokémon TCG outside Asia; its parent relationship is established separately.
4. The Pokémon Company International Pledges $25 Million to Philanthropic Initiatives
   - The official August xx.xx 2022 announcement explicitly identifies The Pokémon Company International as a subsidiary of The Pokémon Company in Japan. ([press.pokemon.com](https://press.pokemon.com/en-CA/THE-POKEMON-COMPANY-INTERNATIONAL-PLEDGES-xx.xx-MILLION-TO-PHILANTHROPIC-))
   - Company verification: The August xx.xx 2022 announcement explicitly identifies The Pokémon Company International as a subsidiary of The Pokémon Company in Japan.

5. Pokémon Trading Card Game Pocket - Product Information
   · The official product record identifies Pokémon Trading Card Game Pocket as a mobile digital adaptation associated with The Pokémon Company, with Android and iOS platforms. ([press.pokemon.com](https://press.pokemon.com/en/Items/Details/Pokemon-Trading-Card-Game-Pocket?focusOnFileCollectionId=Pokemon-Trading-Card-Game-Pocket-Dual-Fusion-Key-Art))
6. Brand Sheet - The Pokémon Company, February 2026
   · Company verification: The Pokémon Company's February 2026 brand sheet documents its corporate origins, subsequent company-name change, and international operating-company history.
   · Company verification: The document identifies the physical trading-card business and international championship activity, supporting continuing commercial relevance without establishing card-only revenue.

22.5. Bandai Namco Holdings Inc.

Bandai Namco's card capability is delivered through BANDAI CO., LTD., identified as a subsidiary, rather than inferred from every activity of the holding company. ■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■ ■■■■■ ■■■■ ■■■■ ■■■ ■■■ ■■■■■■■ ■■■■ ■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■ ■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ A retailer evaluating the portfolio should establish access at the actual title and operating-company level.

ONE PIECE retailer guidance directs stores to distributors in their own territory and warns that release-date breaches can end future ordering access. ■■■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■ ■■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■ ■■■ ■■■ ■■■■■■■ ■■■■■■■ The commercial advantage of a regional distributor is therefore conditional on its appointment and accepted obligations, not merely its ability to handle other products from the same group.

Sources & Evidence

1. GETTING STARTED – FOR STORES | ONE PIECE CARD GAME - Official Web Site
   · ONE PIECE retailer guidance directs stores to area-specific distributors, lists multiple U.S. appointments, and warns that release-date noncompliance can terminate future orders. ([en.onepiece-cardgame.com](https://en.onepiece-cardgame.com/forstore/))
2. Bandai Namco Holdings Inc. - Notice of the Twentieth Ordinary General Meeting of Shareholders
   · Bandai Namco's shareholder-meeting notice identifies BANDAI CO., LTD. as a subsidiary and includes cards within that subsidiary's business activities. ([bandainamco.co.jp](https://www.bandainamco.co.jp/files/ir/stock/pdf/en_2025_20_result.pdf))
   · Company verification: Bandai Namco's 2025 shareholder-meeting document identifies BANDAI CO., LTD. among its consolidated subsidiaries.
   · Company verification: The financial-statement notes identify HAPPINET CORPORATION as an equity-method affiliate rather than a consolidated subsidiary for that reporting period.

3. Expanding BANDAI CARD GAMES for the Growing Global Market - Integrated Report 2025
   - Bandai's card-business disclosure identifies ONE PIECE Card Game, GUNDAM CARD GAME, localization, and region-specific international activity. ([bandainamco.co.jp](https://www.bandainamco.co.jp/en/ir/library/feature02_01_2025.html))
   - Company verification: Bandai Namco's integrated-report feature identifies trading card games as a main product of Bandai's Card Business Department.
   - Company verification: The feature identifies the ONE PIECE Card Game and international expansion of the BANDAI CARD GAMES business.

22.6. Bushiroad Inc.

[illegible] Its May 2026 financial presentation separates COVER's planning and development responsibility for hololive from Bushiroad's sales and co-management role. Buyers should therefore distinguish access to Bushiroad's commercial network from ownership or unrestricted control of the underlying property.

COVER independently identifies Bushiroad's sales and operational support and documents engagement with authorized-store staff in Japan. That relationship provides a concrete example of commercialization support beyond a release announcement, although it does not establish identical support in every country. [illegible]

Sources & Evidence

1. Bushiroad Inc. - FY2026 Third-Quarter Financial Results Briefing Material
   - Bushiroad's May xx.xx 2026 issuer presentation documents Cardfight!! Vanguard and Weiß Schwarz activity and attributes hololive planning and development to COVER and sales and co-management to Bushiroad. ([finance-frontend-pc-dist.west.edge.storage-yahoo.jp](https://finance-frontend-pc-dist.west.edge.storage-yahoo.jp/disclosure/xx.xx/xx.xx.pdf))
   - Company verification: Bushiroad's issuer-prepared May xx.xx 2026 financial presentation identifies continuing Cardfight!! Vanguard and Weiss Schwarz sales and domestic and overseas TCG business activity.
   - Company verification: The presentation identifies Bushiroad Inc. as the reporting issuer and distinguishes its TCG business from other entertainment activities.
2. Global - Bushiroad Inc.
   - Bushiroad lists language editions for Cardfight!! Vanguard, Weiß Schwarz, and hololive OFFICIAL CARD GAME, and distinguishes COVER's role from Bushiroad's sales and operations support. ([bushiroad.co.jp](https://bushiroad.co.jp/en/business/global))
3. The hololive OFFICIAL CARD GAME's Position in the TCG Market: Report from the 1st hOCG Shop Staff Networking Event
   - COVER's March xx.xx 2026 article confirms Bushiroad's sales and operational support and describes Japanese authorized-store staff engagement, corroborating a retailer-support relationship. ([coveredge.cover-corp.com](https://coveredge.cover-corp.com/en/list/xx.xx))

4. Bushiroad Unveils Plans for 2017 at GAMA Trade Show
   - Company verification: Bushiroad's 2017 business announcement identifies Cardfight!! Vanguard and Weiss Schwarz among its card-game offerings.
   - Company verification: The historical announcement describes U.S., Singapore, and European operating entities; it is not current-status confirmation.

22.7. The Upper Deck Company

Upper Deck combines sports and entertainment card offerings with account-based collecting through e-Pack. ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ Its commercial differentiation is therefore the combination of account-based handling and holding-specific fulfillment, not a promise that every item visible through a digital interface is either a Native-Digital Card or immediately deliverable.

COMC independently confirms the partnership and limits transfers into its accounts to physical cards. ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ Direct possession avoids dependence on the account-to-fulfillment relationship but also forgoes the account-based storage and trading functions; neither route establishes a superior collecting outcome.

Sources & Evidence

1. How do I transfer cards from Upper Deck e-Pack to my COMC account?
   - COMC confirms its e-Pack partnership and states that only physical cards can transfer into COMC accounts, establishing a holding-specific limitation. ([comc.zendesk.com](https://comc.zendesk.com/hc/en-us/articles/xx.xx-How-do-I-transfer-cards-from-Upper-Deck-e-Pack-to-my-COMC-account))
2. Collecting on Upper Deck e-Pack
   - Upper Deck distinguishes digital-only e-Pack items from physical counterparts and documents eligible shipment and COMC transfer options. ([upperdeck.com](https://upperdeck.com/collecting-on-upper-deck-e-pack/))
3. About Upper Deck
   - Upper Deck identifies sports and entertainment trading cards among its businesses and describes e-Pack account-based purchasing, storage, trading, and shipment of eligible holdings. ([upperdeck.com](https://upperdeck.com/about-upper-deck/))
   - Company verification: Upper Deck describes sports and entertainment trading cards as company businesses.
   - Company verification: The company describes e-Pack purchasing, trading, storage, and shipment of eligible physical collectibles.
4. Company Profile and Trading-Card Business - MINT Co., Ltd., July 2026
   - Company verification: MINT lists The Upper Deck Company as a vendor.

22.8. Asmodee Group AB

Asmodee combines studio publishing with distribution of partner-published card games. Its reporting distinguishes those roles, identifying Star Wars: Unlimited alongside partner activity involving Pokémon, Bandai, and Magic products. ■■■ ■■■■ ■■■■■■ ■■■■■■■ ■■■■ ■■■■■ ■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■ ■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■ ■■ ■ ■■■■■■■■ ■■■■■■■■ ■ ■■■■■■■■■■■■■■■■ ■■■■■ ■■■ ■■ ■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■ ■■■■■■■■■ ■■ ■■■ ■■■■■■■■■ ■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■

■■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■ ■■■■ ■■ ■■■ ■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■ ■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■ ■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■■■ Merchants should verify the contracting entity, title-country appointment, and permitted selling channel before committing. An approved account category's online-selling permission is not proof that a new applicant is eligible.

Sources & Evidence

1. Asmodee Group - Interim Report Q2 2025/2026
   - Asmodee distinguishes studio-published from partner-published games and identifies Star Wars: Unlimited alongside partner activity involving Pokémon, Bandai, and Magic card products. ([cdn.svc.asmodee.net](https://cdn.svc.asmodee.net/production-payload-corporate/asmodee-group-interim-report-eng-q2-2025-2026.pdf))
   - Company verification: Asmodee's interim report discusses trading-card-game activity and identifies Star Wars: Unlimited, Pokémon TCG, and Riftbound in its business release pipeline.
   - Company verification: The report distinguishes games published by Asmodee studios from games published by partners.
2. Asmodee Group's Companies List - Updated May 19, 2025
   - The group-company list identifies Asmodee Group AB and includes ADC Blackfire Entertainment GmbH, supporting related-group rather than independent-rival treatment. ([cdn.svc.asmodee.net](https://cdn.svc.asmodee.net/corporate/uploads/Templates/Asmodee_group_companies_EN.pdf))
   - Company verification: The group-company document updated May xx.xx 2025 identifies Asmodee Group AB and lists ADC Blackfire Entertainment GmbH within the Asmodee group.
3. Career - Blackfire
   - Blackfire identifies itself as part of Asmodee and describes retailer-facing trade marketing and organized-play functions, corroborating group affiliation and channel-support roles. ([business.blackfire.eu](https://business.blackfire.eu/careers/))
4. Asmodee USA Active Catalog
   - Asmodee's U.S. active catalog lists Star Wars: Unlimited products under Fantasy Flight Games, corroborating the named studio-product connection without establishing an individual retailer's stock commitment. ([asmodeena.com](https://www.asmodeena.com/ActiveCatalog.pdf))

5. Become an asmodee Specialty Retailer - Retailer Programs and Sales Policies
   - U.S. retailer guidance requires application review, states that online-retailer and third-party-reseller applications are not being accepted, and restricts Amazon listings despite online-selling permissions for listed account categories. ([asmodeena.com](https://www.asmodeena.com/))

22.9. Legend Story Studios

Legend Story Studios provides a game-centered publishing proposition through Flesh and Blood. [illegible] These are documented access routes, not guarantees that an individual retailer will receive an account, desired products, or event support.

[illegible] Inventory purchasing and organized-play support should be confirmed separately. The trade-off is the staff and community-development commitment associated with event-led selling; the existence of publisher support does not establish customer acquisition, repeat purchases, or profitability at a particular store.

Sources & Evidence

1. About Legend Story Studios
   - Legend Story Studios identifies its Auckland publishing studio, Flesh and Blood, and local-game-store organized-play relationships. These establish the publisher's stated business and support model, not individual retailer outcomes. ([legendstory.com](https://legendstory.com/about-us/))
   - Company verification: Legend Story Studios identifies itself as an Auckland-based game publishing studio and identifies Flesh and Blood as its launched trading card game.
   - Company verification: The company describes an international local-game-store and organized-play network.
2. Legend Story Studios Distributors
   - The retailer directory provides GEM registration for event reporting and organized-play qualification and names regional distributors, including PHD Games and Southern Hobby Supply in the United States. Account acceptance and retailer results are not established. ([legendstory.com](https://legendstory.com/distributors/))
3. Flesh and Blood is coming to Mexico!
   - Company verification: On September xx.xx 2024, Legend Story Studios named Coqui Distribution and Devir Mexico as Mexican Flesh and Blood distribution partners.
   - Company verification: The announcement described planned supply to Mexican game stores and organized-play support beginning the following month; it does not establish current sales.

22.10. KAYOU

[illegible]

RESEARCH SAMPLE REPORT

[redacted] This establishes a named release and a dated channel claim, not continuing availability at every location. KAYOU's U.S. catalog separately advertises Friendship Eternal Cards Moon Edition Series xx.xx supporting an ongoing branded product proposition without establishing release-specific inventory.

[redacted] A prospective partner should verify the contracting issuer, authorized territory, language edition, order acceptance, and after-sales responsibilities. The documented U.S. collaboration should not be generalized into worldwide exclusivity or treated as proof that every KAYOU card line has the same function or distribution terms.

Sources & Evidence

1. About KAYOU
   - KAYOU describes its China-based business, integrated supply and marketing activities, and overseas offices. These company statements do not establish offering-specific territorial permissions or distributor appointments. ([kayouofficial.com](https://www.kayouofficial.com/en-US/about-us))
   - Company verification: KAYOU identifies its Chinese business identity and an integrated product, supply, and marketing business.
2. Kayou Launches Fan-Fueled "Chase the Magic" Sweepstakes and MY LITTLE PONY Friendship Eternal Cards: Moon Edition 2 Trading Cards
   - KAYOU's February xx.xx 2026 release identifies the U.S. MY LITTLE PONY Moon Edition xx.xx collaboration with Hasbro and names conventional retailers and Crossing as sales channels. It is a dated company announcement, not continuing store-level availability. ([prnewswire.com](https://www.prnewswire.com/news-releases/kayou-launches-fan-fueled-chase-the-magic-sweepstakes-and-my-little-pony-friendship-eternal-cards-moon-edition-xx.xx-trading-cards-xx.xx.html))
3. Moon Edition Series 3 | My Little Pony | KAYOU
   - KAYOU's U.S. product catalog advertises Friendship Eternal Cards Moon Edition Series xx.xx. The catalog establishes a named offering, not release-specific inventory or unrestricted geographic availability. ([kayouofficial.com](https://www.kayouofficial.com/en-US/series/series-5r09mbdf))
4. Kayou Launches MY LITTLE PONY Friendship Eternal Cards: Moon Edition 2 Trading Cards and “Chase the Magic” Sweepstakes
   - Company verification: The February xx.xx 2026 announcement identifies KAYOU's U.S. release of My Little Pony Friendship Eternal Cards: Moon Edition xx.xx in collaboration with Hasbro.

22.11. Select Australia Pty Ltd

Select Australia Pty Ltd requires a distinction between the Select brand and the legal party accepting a commercial obligation. [redacted] Dealers should confirm the named counterparty rather than infer responsibility from the shared brand.

At the brand level, Select's October xx.xx 2026 announcement states that its AFL trading-card license will end on October xx.xx 2026. ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■ ■ ■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■ ■■■■■ ■■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■■ ■■■■■■■ ■■ ■■■■■■■■■■ ■■■ ■■■■ ■■■■■■■■■■■ The forthcoming license expiration should therefore be distinguished from immediate business closure, continued possession of unrestricted AFL publishing rights, and the availability of legacy stock.

Select also documents a separate NRL collector-club proposition and continuing activity under other sports licenses. ■■■ ■■■■ ■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■ ■■■■ ■■■ ■■■■■■■ ■■ ■■ ■■■ ■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■ ■■■■■ ■■■ ■■■■■ A continuing NRL assortment offers portfolio continuity but does not replace an AFL collector's chosen subject.

Sources & Evidence

1. Current details for ABN 49 003 881 052 | ABN Lookup
   - The Australian Business Register identifies SELECT AUSTRALIA PTY LIMITED as an active Australian private company. Registration establishes that entity's status, not ownership of every Select-branded license or contract. ([abr.business.gov.au](https://abr.business.gov.au/ABN/View?id=xx.xx))
2. User Agreement - Select Cards
   - The Select website's user agreement identifies Select Cards Pty Ltd as its contact entity. This differs from the assigned Select Australia Pty Ltd identity and requires a contractual attribution check. ([selectcards.com.au](https://selectcards.com.au/pages/user_agreement))
3. About Select Australia | Official AFL & NRL Trading Cards Since 1993
   - The official About Select Australia page associates the Select Australia name with the branded AFL and NRL card business. Its brand description does not resolve the legal relationship with the entity named in the current user agreement. ([selectcards.com](https://selectcards.com/en-nz/pages/about-us))
4. A message from Grant Copley, Founder of Select Cards
   - Select's October xx.xx 2026 announcement states that its AFL license will end October xx.xx 2026; identifies planned final and archive activity; qualifies its redemption commitment with possible contrary direction; and states that other-license operations will continue. ([selectcards.com](https://selectcards.com/blogs/announcements/a-message-from-grant-copley-founder-of-select-cards))
   - Company verification: Select's October xx.xx 2026 founder announcement states that its AFL trading-card license will end on October xx.xx 2026.
   - Company verification: The dated announcement supersedes assuming an indefinite continuation of its AFL publishing rights.
5. Select Collector Club (SCC) Portal
   - Select documents separate AFL and NRL collector clubs for 2026 and states that membership access is code-specific. The page supports continuing NRL activity, not automatic cross-code allocations. ([selectcards.com.au](https://selectcards.com.au/pages/select-collector-club))
6. Just Released from the Select Cards Vault!
   - Company verification: Select's official vault storefront offers legacy Australian Baseball League and NRL card sets.
   - Company verification: The listing establishes offered products, not current rights to issue new AFL releases.

7. Select Collector Club (SCC) Portal - Select Cards
   - Company verification: Select's collector-club page identifies separate AFL and NRL clubs for 2026 and states that Select has returned to NRL collectible-card licensing.
   - Company verification: The page supports an NRL commercial portfolio beyond the separately qualified AFL license.

22.12. Cartamundi

Cartamundi's documented role gives card publishers an outsourced-supply option rather than an automatic route to franchise publishing rights. Its October xx.xx 2024 Turnhout expansion announcement identifies work for Magic: The Gathering, Pokémon, Yu-Gi-Oh!, and Flesh and Blood and describes a manufacturing and distribution partner role. ■■■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■ ■■■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■ ■■■ ■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■ ■■■ ■■■■■■■■■ ■■ ■■■■■ ■■■■ ■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■

For a publisher choosing between owning production assets and contracting supply, the relevant next step is a current commercial proposal identifying the contracting entity, delivery commitments, acceptance responsibilities, and remedies. ■■■■■■■■■■■■ ■■■■ ■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■ ■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■■ ■■ ■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■ ■■■ ■■■■■ ■■ ■■■ ■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ It is unsuitable as a shortcut around the publisher's separate content permissions or an unconfirmed launch schedule.

Sources & Evidence

1. Cartamundi Expands Production Facility in Turnhout to Accommodate Growing Demand for Collectible Cards
   - Cartamundi's October xx.xx 2024 announcement describes the opening of its expanded Turnhout facility and names Magic: The Gathering, Pokémon, Yu-Gi-Oh!, and Flesh and Blood as existing customer relationships. It supports attributed contract-supply experience, not a new customer's delivery commitment. ([cartamundi.com](https://cartamundi.com/app/uploads/2024/xx.xx/Press-Release-xx.xx-Cartamundi-Opening-Turnhout.pdf))
2. The Way We Play - Code of Conduct
   - Cartamundi's code protects customer intellectual property and confidential agreements and calls for nondisclosure agreements before confidential discussions. Contract-supply recommendations are commercial inferences; the policy is not a release-specific service agreement. ([cartamundi.com](https://cartamundi.com/app/uploads/2026/xx.xx/code-of-conduct-en.pdf))
3. Trading card/game solutions - Cartamundi
   - Company verification: Cartamundi advertises commercial trading-card and trading-card-game services for business customers.

22.13. eBay Inc.

eBay Inc. combines broad card exchange with transaction-specific assurance. ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■■

[illegible] A seller should therefore match listing claims to the assurance actually provided rather than present marketplace authentication as comprehensive certification.

TCGplayer, identified in its October xx.xx 2026 announcement as an eBay company, adds a specialized trading-card-game route. [illegible] The announcement limits TCGplayer Safeguard coverage for MyUS purchases to the domestic shipment leg.

These routes should be selected by offering and fulfillment responsibility, not corporate affiliation alone. An eligible eBay seller can delegate the specified authentication handoff while retaining accurate-listing obligations. [illegible]

Sources & Evidence

1. Selling with Authenticity Guarantee
   - eBay specifies eligible graders and seller-buyer locations for its U.S. trading-card assurance program and limits what the inspection establishes about autographs and embedded relics. ([ebay.com](https://www.ebay.com/help/buying/buying-authenticity-guarantee/buying-authenticity-guarantee?id=xx.xx))
2. eBay Authenticity Guarantee for Trading Cards
   - Eligible eBay card transactions pass through an authentication facility before delivery. The service distinguishes inspection of raw cards from checks of graded holders and labels and expressly excludes regrading. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
3. TCGplayer Expands Australian Access to U.S. Trading Card Game Marketplace
   - TCGplayer's October xx.xx 2026 announcement identifies it as an eBay company, distinguishes eligible Direct fulfillment from MyUS forwarding for Australian buyers, and limits Safeguard coverage on forwarded purchases to the domestic leg. Third-party market-research claims are not used. ([seller.tcgplayer.com](https://seller.tcgplayer.com/press-center/-to-the-u.s.-trading-card-game-marketplace))
   - Company verification: TCGplayer's October xx.xx 2026 announcement identifies it as an eBay company and announces expanded Australian access to its US trading-card marketplace.
   - Company verification: The announcement distinguishes eligible direct international fulfillment from a separate package-forwarding option; attributed third-party market-research claims are excluded.
4. eBay Inc. Reports Second Quarter 2026 Results
   - Company verification: eBay's second-quarter 2026 results identify eBay Inc. as the continuing public reporting company.
   - Company verification: The release updates active corporate status but does not, by itself, resolve every card-market subsidiary and transaction perimeter.
5. eBay Acquires TCGplayer
   - Company verification: eBay announced completion of its TCGplayer acquisition on October xx.xx 2022.
   - Company verification: The announcement identifies TCGplayer's collectible-card marketplace and services connecting hobby stores with buyers.

6. eBay, Collectors Enter into Commercial Agreement, Sign Deals for Acquisition of Goldin by eBay and Acquisition of the eBay Vault by PSA
   - Company verification: eBay announced commercial agreements and intended transactions with Collectors involving Goldin and the eBay Vault.
7. eBay Inc. Reports Second Quarter 2024 Results - Exhibit 99.1
   - Company verification: eBay's second-quarter 2024 earnings exhibit states that its Goldin acquisition was completed on May xx.xx 2024.
   - Company verification: This resolves announcement-versus-completion for that transaction date, not every subsequent card-business ownership change.

22.14. Collectors

Collectors provides certification and custody-related access rather than a substitute source of licensed card publishing. Its brand portfolio presents PSA, PSA Vault, Beckett, and SGC together. ■■■■ ■■■■■■■■ ■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■ ■■■ ■■ ■■■■■■■ ■■■■■■■ ■ ■■■■■ ■■■■■■■■■■■■■■■■■■■■ ■■■■■■■ ■■ ■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■ ■■■■■

PSA Vault documents storage and eBay selling services, including listing preparation, imagery, packaging, shipping, and customer service. Its admission rules accept cards encapsulated and authenticated by PSA, SGC, BGS, or CGC, while excluding raw cards and other holders. ■■■■■■■■ ■■■■■■■■ ■■■ ■■ ■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■ ■■ ■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■■■■ ■■ ■■■■■■■■■

Sources & Evidence

1. Selling with Authenticity Guarantee
   - eBay recognizes specified certification providers rather than every graded holder. A certification label therefore does not establish universal marketplace-program acceptance. ([ebay.com](https://www.ebay.com/help/buying/buying-authenticity-guarantee/buying-authenticity-guarantee?id=xx.xx))
2. eBay Authenticity Guarantee for Trading Cards
   - eBay's assurance description establishes that intermediary authentication is not regrading, supporting the distinction between certification choice, custody, and marketplace assurance. ([ebay.com](https://www.ebay.com/authenticity-guarantee/tradingcards))
3. Collectors - Our Brands
   - Collectors presents PSA, PSA Vault, Beckett, and SGC in its brand portfolio. This establishes the disclosed group-brand relationship, not a dated legal-consolidation or acquisition-closing record. ([collectors.com](https://www.collectors.com/brands))
   - Company verification: Collectors' inspected brand portfolio includes PSA, PSA Vault, Beckett, and SGC, supplementing the earlier Beckett acquisition-agreement record.
   - Company verification: The portfolio supports a current group-brand relationship but supplies no dated Beckett closing record.

4. PSA Vault
   - PSA Vault documents custody and eBay sale execution, supported-country restrictions, retrieval options, and acceptance of PSA-, SGC-, BGS-, or CGC-encapsulated cards. It excludes raw cards and other holders. ([psacard.com](https://www.psacard.com/info/psa-vault))
5. GameStop Corp. - 2025 Annual Report, Fiscal Year Ended January 31, 2026
   - Company verification: The filing identifies Collectors Holdings, Inc. as PSA's parent and records a commercial collaboration with GameStop.
   - Company verification: This establishes a specific card-market customer/channel relationship without resolving the Beckett acquisition's closing.
6. Collectors to Acquire Beckett
   - Company verification: Collectors published an announcement titled Collectors to Acquire Beckett; the announcement is not treated as independent proof of transaction completion.
   - Company verification: The December xx.xx 2025 announcement states that Collectors entered a definitive agreement to acquire Beckett.
7. eBay, Collectors Enter into Commercial Agreement, Sign Deals for Acquisition of Goldin by eBay and Acquisition of the eBay Vault by PSA
   - Company verification: The transaction announcement connects Collectors and PSA with the trading-card marketplace and vault ecosystem.

22.15. MINT Co., Ltd.

[redacted] For a supplier considering Japan, this supports a potential local distribution discussion rather than treating MINT only as a consumer storefront. It does not establish appointment for an additional supplier or acceptance of a particular release.

MINT's collector services are separate commercial relationships. [redacted] A wholesale partner should not assume that these consumer-service contracts provide an equivalent business-entry route.

[redacted] Holders seeking a dealer purchase should not treat an open store as confirmation of buying access, while suppliers planning online distribution should obtain explicit channel-specific acceptance before a launch. The notice does not establish closure of wholesale supply, every storefront, PSA submission, or Seller's VAULT; those relationships require separate continuity confirmation rather than an assumed blanket shutdown.

Sources & Evidence

1. MINT - Company Profile and Trading-Card Business

   · MINT's July 2026 company profile describes importing, wholesale, company-operated and franchise retail, online channels, and named overseas and domestic card relationships. These establish disclosed capabilities, not acceptance of a new supplier. ([mint-web.jp](https://mint-web.jp/?mode=f1))

   · Company verification: MINT's July 2026 company profile identifies a nationwide company-operated and franchise-store network, online channels, wholesale activity, and importing relationships.

   · Company verification: These card-specific channels support material commercial relevance beyond a single storefront; promotional leadership claims are not adopted.

   · Company verification: MINT's July xx.xx 2026 company profile names MINT Co., Ltd. and identifies trading cards as its business.

2. MINT Seller's VAULT 利用規約

   · MINT Seller's VAULT requires admission approval and generally excludes people not resident in Japan and corporations unless MINT permits otherwise. Its user contract is separate from wholesale access. ([mint-web.jp](https://mint-web.jp/?mode=f174))

3. PSA 社グレーディング受付代行サービス - MINT

   · MINT describes PSA Japan submission intermediation, Japanese-resident eligibility, and acceptance restrictions that can be narrower than PSA Japan's. These terms do not establish unrestricted collector-service access for a commercial supplier. ([mint-web.jp](https://mint-web.jp/?mode=f115))

4. 2026/10/22【重要】セキュリティ対応に伴うサービス一時停止（メンテナンス継続）および店舗での対応について

   · MINT's October xx.xx 2026 notice continues the suspension of MINT Mall, the membership app, and new member registration, and separately suspends in-store card purchasing. It describes continued store sales arrangements, unavailable point awards and rank checks, and no specified restart date. ([mint-web.jp](https://mint-web.jp/?pid=xx.xx))

22.16. Whatnot

[illegible] It also describes allocation tools and enforcement that can include billbacks or selling restrictions. These are platform commitments and rules, not independent proof of superior buyer outcomes or authorization for every arrangement in every jurisdiction.

For a seller, the format carries obligations beyond an ordinary identified-card listing. [illegible] The trade-off is an experiential selling format with live execution and enforcement exposure; an identified-card listing avoids shared-break obligations but offers a different customer experience.

Sources & Evidence

1. Card Breaks Policy

   · Whatnot requires break-rule disclosure, visibility, card fulfillment, and same-show opening; prohibits off-platform presales; and addresses refunds for unfilled unopened breaks. Sole-buyer openings retain visibility obligations but are otherwise outside the complete shared-break policy. ([help.whatnot.com](https://help.whatnot.com/hc/en-us/articles/xx.xx-Card-Breaks-Policy))

2. Card Breaks - Whatnot Trust Center (US)

   · Whatnot's U.S. Trust Center describes live card-break allocations, platform allocation tools, and enforcement including billbacks and selling restrictions. These establish platform capabilities and stated commitments, not independently verified outcomes. ([trust.whatnot.com](https://trust.whatnot.com/card-breaks))

   · Company verification: Whatnot's US Trust Center explicitly identifies its online card-break commerce format for trading and sports cards.

   · Company verification: The card-specific page establishes a platform role beyond a generic live-shopping description; it does not establish publishing rights or card-only revenue.

3. Category Gating - Whatnot Trust Center (US)

   · Whatnot distinguishes seller verification from additional approval where category gating applies and states that category access can be removed. The source does not establish that every card category requires additional approval. ([trust.whatnot.com](https://trust.whatnot.com/category-gating))

4. Whatnot Legal Center

   · Company verification: Whatnot's legal center identifies Whatnot Inc. as the US service provider and Whatnot Europe Limited as the provider for specified European jurisdictions.

   · Company verification: The legal material establishes contracting-entity distinctions without establishing ultimate ownership or market-specific financial scale.

22.17. Cardmarket

Cardmarket provides a specialist marketplace whose distinctive assurance is delivery-linked payment handling. The business identifies Berlin-based Sammelkartenmarkt GmbH & Co. ■■ ■■■■■■ ■■■ ■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■

■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■ ■■ ■■■■■ ■ ■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■ ■■■ ■■■■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■■■■■

Cardmarket adds payment administration and mediation to seller-managed execution; it does not eliminate the seller's responsibilities. Account eligibility and supported destinations should also be confirmed before treating its European marketplace positioning as an unrestricted cross-border selling route.

Sources & Evidence

1. Trustee Service | Cardmarket
   - For covered tracked shipments, Cardmarket's Trustee Service holds seller payment until buyer confirmation and provides escalation when confirmation is delayed.
   - This supports delivery-linked payment administration, not an inference of independent physical-card certification.
2. General Terms and Conditions and Privacy Policy for Comprehensive Cardmarket x TCG Community Survey of Sammelkartenmarkt GmbH & Co. KG (Cardmarket)
   - Cardmarket's official terms identify Sammelkartenmarkt GmbH & Co. KG in Berlin and connect the business with registered Cardmarket accounts.
   - Only the business-identity connection is used; no survey findings are used.
   - Company verification: Cardmarket's official survey terms identify Sammelkartenmarkt GmbH & Co. KG, Nordkapstrasse xx.xx Berlin, as the Cardmarket operator.
   - Company verification: The terms describe platform accounts and an activity period beginning August xx.xx 2026, supplying a dated contemporary operator-to-platform bridge; no survey findings are used.
3. Cardmarket Seller Guide
   - Cardmarket assigns sellers responsibility for accurate descriptions, correct and complete orders, communication, and discrepancy resolution.
   - Its guidance describes a European marketplace and acknowledges that support often cannot resolve condition questions without the card in hand.

22.18. GameStop Corp.

GameStop Corp. offers an outright purchasing route for qualifying PSA-graded physical cards rather than requiring the holder to consign a card and await an end buyer. Its U.S. program specifies PSA Lighthouse-label cards graded xx.xx xx.xx or xx.xx subject to acceptance at participating stores, for cash or store credit. ■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■ ■■■■■■■■ ■■■ ■■■■■■ ■■■ ■■■■■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■ ■■■ ■■■■■■■■■■ ■■■■■■ ■■■ ■ ■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■ ■■■ ■ ■■■■■■■■■■ ■■■■■

GameStop also acts as an authorized PSA submission dealer at select U.S. stores; PSA performs the authentication and grading. Its fiscal-2025 annual report describes Power Packs as a separate platform for PSA-graded cards held in the PSA vault. ■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■ ■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■■■■ ■■■■■ ■■ ■■■■ ■■■■■■■■ ■■■■■■ ■■■ ■■ ■■■■■■■■ ■■ ■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■

Sources & Evidence

1. Graded Trading Cards | Buy or Trade In Graded Cards
   - GameStop advertises purchasing qualifying PSA Lighthouse-label cards graded xx.xx xx.xx or xx.xx at participating stores for cash or store credit.
   - The program excludes other grading providers, makes offers nonnegotiable, and separately offers graded cards for retail purchase.

2. GameStop Corp. - 2025 Annual Report, Fiscal Year Ended January 31, 2026
   - GameStop's annual report identifies an authorized PSA dealer relationship through which PSA provides authentication and grading at select U.S. stores.
   - The report describes Power Packs as a platform involving PSA-graded physical cards stored in the PSA vault, distinguishing it from native-digital collectibles.
   - Company verification: GameStop's annual report for the fiscal year ended January xx.xx 2026 establishes its exact public-company identity and physical trading-card retail participation.
   - Company verification: The filing identifies its authorized PSA dealer relationship and distinguishes submission services from PSA's grading.
   - Company verification: The filing describes Collectors and PSA as related parties because of a shared director, not as GameStop subsidiaries.
3. GameStop Discloses Second Quarter 2026 Results
   - GameStop's fiscal-2026 collectibles category includes new and pre-owned trading cards, other collectible merchandise, and fees for facilitating third-party authentication and grading submissions.
   - The category boundary therefore does not represent card-only activity.
   - Company verification: GameStop's September xx.xx 2026 results confirm continuing operations and define collectibles to include new and pre-owned trading cards and grading-submission fees.
   - Company verification: The company reports an investment in eBay common stock; this disclosure alone does not establish an acquisition of control.
   - Company verification: The mixed collectibles category is not a trading-card-only revenue measure.

22.19. Dapper Labs

Dapper Labs supplies a native-digital sports collecting proposition through NBA Top Shot. Licensed basketball highlights become collectible Moments, offered in packs and exchanged through a marketplace, with web and Android access. ■■■ ■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■ ■■■■■ ■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■ ■■■■■ ■■■■■■■■ ■■ ■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■ ■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■ ■■■■■ ■■ ■ ■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■

Removing physical-card shipping does not create unrestricted customer access. ■■■ ■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■ ■■ ■■ ■■ ■■■ ■■■ ■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■ ■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■ The commercial comparison therefore turns on the entitlement and permitted participation, not simply whether both offerings use digital accounts.

Sources & Evidence

1. About | NBA Top Shot
   - NBA Top Shot describes officially licensed basketball-highlight Moments, pack offerings, and a marketplace.
   - Its proposition supports classification as native-digital collecting rather than an entitlement to stored printed cards.

2. NBA Top Shot - Apps on Google Play
   - The developer-published Android listing describes NBA Top Shot as an application for officially licensed digital basketball collectibles, including buying, selling, and trading.
3. Terms of Service | NBA Top Shot
   - NBA Top Shot's terms identify Dapper Labs, Inc. as provider, define Moments as NFTs on Flow, and impose age-of-majority and approved-region participation conditions.
   - These terms qualify any inference of unrestricted access from global-marketplace promotion.

22.20. Devir

[illegible] Operating physical stores can access Trading Card Games and may also sell online; online-only accounts are limited to other catalog categories. This is an account-eligibility distinction, not a blanket prohibition on e-commerce by physical stores, and it should not be generalized to every Devir operation.

Legend Story Studios' September xx.xx 2024 Mexico launch named Devir Mexico and Coqui as distribution partners and separately required publisher GEM onboarding for organized play. [illegible] A physical retailer should confirm account approval and order acceptance before customer commitments; opening premises solely to qualify adds fixed obligations without securing product allocation.

Sources & Evidence

1. Nuevos Clientes - Devir México
   - Devir México distinguishes operating physical-store accounts, which may access TCGs and sell online, from online-only accounts limited to other catalog categories.
   - The page names Magic: The Gathering, Pokémon TCG, Yu-Gi-Oh!, and Lorcana.
   - Company verification: Devir México offers a retailer-account channel for trading card games.
   - Company verification: Its business page names Magic: The Gathering, Pokémon TCG, Yu-Gi-Oh!, and Lorcana among distributed card products.
2. Flesh and Blood is coming to Mexico!
   - Legend Story Studios' September xx.xx 2024 announcement named Devir Mexico and Coqui as Mexican distribution partners.
   - Stores were separately directed to GEM registration and publisher onboarding for organized play; the announcement does not establish perpetual appointments.
   - Company verification: Legend Story Studios named Devir Mexico as a Mexican Flesh and Blood distribution partner in its September xx.xx 2024 announcement.
3. Novo Catálogo Essenciais - Devir
   - Company verification: Devir's 2026 Brazilian commercial catalog identifies Yu-Gi-Oh! among its licensed offerings.
   - Company verification: The catalog describes Devir operations in Brazil, Chile, Colombia, and Argentina, among other countries.

4. Info New Accounts - Devir Americas
   - Company verification: Devir's account information identifies a Colombian Yu-Gi-Oh! channel and local offices serving Argentina, Chile, and Brazil.
   - Company verification: The page distinguishes board-game subdistribution arrangements from trading-card account restrictions.

22.21. Historic Autographs Co, LLC

[redacted] Its 2026 product index presents cities, events, history, and military series. The America's 250th Part III: History checklist identifies historical people, landmarks, and events, giving retailers an inspectable subject basis for assortment decisions rather than an unspecified educational claim.

The company's Where To Buy directory lists distributors, physical hobby retailers, and online sellers, including Blowout Cards and Dave and Adam's Card World. [redacted]

[redacted] A museum, school, or nonprofit additionally needs its own content-fit and authorized purchasing decision. Historical subject relevance does not itself establish curriculum suitability or a funded institutional order, while military material within the portfolio makes audience-specific screening particularly important.

Sources & Evidence

1. 2026 Products - Historic Autographs
   - Historic Autographs' 2026 product index presents cities, events, history, and military series and identifies Historic Autographs Co, LLC.
   - A product index establishes portfolio presentation rather than release-specific stock.
   - Company verification: Historic Autographs maintains a 2026 product index with historical and military-themed commercial series.
   - Company verification: The page identifies Historic Autographs Co, LLC and its Pennsylvania business address, supplementing the captured ownership disclosures.
2. 2026 HA America's 250th Part III: History Checklist
   - The America's 250th Part III: History checklist identifies historical people, landmarks, and events.
   - This provides inspectable subject matter for assortment screening, not independent educational validation or an institutional purchasing commitment.
3. Where To Buy - Historic Autographs
   - Historic Autographs' purchasing directory lists distributors, physical hobby retailers, and online retailers, including Blowout Cards and Dave and Adam's Card World.
   - The directory establishes advertised channels, not accepted individual accounts or release availability.
4. Meet Our Dedicated Team at Historic Autographs
   - Company verification: Historic Autographs identifies Kevin Heffner as principal owner and Jim Huggins as a minority owner.
   - Company verification: The company page identifies Historic Autographs Co, LLC and a Pottstown, Pennsylvania business address.

5. 2024 Products - Historic Autographs
   - Company verification: Historic Autographs' official 2024 product index names offerings including YesterYear, All Time Greats, and Chaos xx.xx.
   - Company verification: This is historical portfolio evidence and does not establish current stock.

22.22. Cardsmiths, LLC

Cardsmiths, LLC's SPACE: Galactic Edition illustrates science-related collecting blended with entertainment rather than a comprehensive scientific reference collection. ■■■ ■■■■■ ■■ ■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■ Retailers can merchandise that documented mix as cosmic-themed collecting, but should not infer a purely factual or exhaustive science assortment from its theme.

■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■ ■■■ ■■ ■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■■■■■ ■■■■■■■ A buyer needing specified subjects should obtain an explicit inclusion commitment instead of treating randomized products or an early checklist as content certainty.

Wholesale access is a separate commercial decision. Cardsmiths requires application approval and resale documentation, makes orders subject to allocation, and specifies full-case ordering without general return privileges. ■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■

Sources & Evidence

1. Cardsmiths' SPACE: Galactic Edition Trading Cards Now Launching Into Your Orbit
   - Cardsmiths' April xx.xx 2025 SPACE: Galactic Edition announcement describes astronomers, celestial bodies, scientific breakthroughs, mythic material, and imaginative concepts.
   - Some designs incorporate real planetary and lunar imagery, supporting a blended science-related and creative collecting proposition.
2. Frequently Asked Questions - Cardsmiths
   - Cardsmiths' FAQ identifies Cardsmiths, LLC in its commercial relationships and generally makes trading-card pack, box, and case sales final.
   - Published checklists are described as revisable guides rather than definitive inclusion records.
   - Company verification: Cardsmiths' official business policies identify Cardsmiths, LLC as the operator of its trading-card redemption and exchange programs.
3. Cardsmiths Wholesale
   - Cardsmiths' wholesale program requires approval and resale documentation, makes orders subject to allocation, and specifies full-case orders without general return privileges.
   - Account approval therefore does not itself establish an accepted release allocation.
4. Cardsmiths Launch Mega Man X Trading Cards
   - Company verification: Cardsmiths' November xx.xx 2025 announcement identifies its Mega Man X trading-card collection.
   - Company verification: The announcement names Cardsmiths.com, GameStop, Best Buy, and other selected U.S. retailers as commercial channels.

22.23. Jazeel General Trading LLC

Jazeel General Trading LLC is identified by Al Tannan as the business behind Jazeel Distribution, a B2B channel serving the UAE and other countries with sales, marketing, and merchandising support. ■■■ ■■■■■■■■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■■■■■ ■■ ■■■■■■■■ ■■■ ■■■■■ ■■■■ ■■■■ ■■■■■■■■ ■■■■■■ ■■■■■ ■■■■■ ■■■■■■ ■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ This connects a named commercial entity to a publisher-recognized ordering route rather than relying only on a general collectibles portfolio.

■■■ ■■■■ ■■■■■■■■■■ ■■■■■■ ■■ ■ ■■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■ ■■■■■■ ■■ ■■■■■ ■■ ■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■ ■■■ ■■■■■■■■■■■ ■■■ ■■■■■ ■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■ ■■■ ■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■■■■■■■■ ■■ ■■■■■ ■■■■■■■■ ■■■■■■ ■■■■ ■ ■■■■■■■■■ ■■■■■■■■ Retailers should confirm destination coverage, accepted orders, delivery terms, and applicable event approval before advertising a supported launch. Bandai also lists Active Gulf, so Jazeel's directory inclusion does not establish an exclusive regional route.

Sources & Evidence

1. One Piece Card Game in Middle Eastern Region
   - Bandai's May xx.xx 2026 Middle Eastern notice described preparation for implementing the region in its TCG+ organized-play application.
   - That dated preparation statement does not establish a completed rollout or a particular retailer's event approval.
2. GETTING STARTED – FOR STORES | ONE PIECE CARD GAME - Official Web Site
   - Bandai's ONE PIECE CARD GAME retailer guide lists Jazeel and Active Gulf under Middle Eastern distributors.
   - Retailers are directed to the distributor for their area and required to observe release dates; the listing does not establish an individual order or exclusive all-country access.
   - Company verification: The official ONE PIECE Card Game retailer page names Jazeel under Middle East distributors.
3. Jazeel Distribution - Al Tannan
   - Al Tannan explicitly connects Jazeel Distribution with Jazeel General Trading LLC.
   - It describes B2B distribution serving the UAE and other countries with sales, marketing, and merchandising teams.
   - Company verification: Al Tannan identifies Jazeel Distribution as Jazeel General Trading LLC.
   - Company verification: The business describes B2B distribution in the UAE and other countries and supplies a Dubai Investment Park address.

22.24. Solarpop

Solarpop offers a Southern African retailer-supply proposition combining a named TCG portfolio with commercial support. ■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ Cape Town retailer Rocket Grunt TCG separately names Solarpop as its Pokémon supply partner, providing a customer-side observation beyond the distributor's general positioning.

[illegible] References to Southern Africa do not establish appointments throughout Africa or equivalent access across brands. A merchant with an existing compliant supply relationship may instead retain control of importing and merchandising rather than delegate those responsibilities.

Sources & Evidence

1. About Us
   - Solarpop describes serving retail chains, online platforms, and individual stores in Southern Africa.
   - Its advertised services include replenishment, activations, merchandising, training, and support; these descriptions do not specify every customer's contractual entitlement.
   - Company verification: Solarpop identifies itself as a South African company founded in 2016 and describes brand management, sales and support for retail customers in Southern Africa.
2. Social Media & Meta Suite Manager
   - Solarpop's own business description identifies distribution of Pokémon, Magic: The Gathering, and Yu-Gi-Oh!.
   - This establishes its stated TCG portfolio, not a publisher-verified appointment for every country or product.
3. About Us - Rocket Grunt TCG
   - Cape Town retailer Rocket Grunt TCG describes its own Pokémon sourcing partnership with Solarpop.
   - This corroborates one customer-side supply relationship without validating broader exclusivity, authenticity guarantees, or country coverage.

22.25. Courtyard, Inc.

Courtyard, Inc. offers digitally opened packs and a marketplace for graded physical trading cards held in custody. [illegible] For collectors and dealers, the distinctive proposition is transferring ownership without repeatedly shipping the underlying card, not immediate physical possession or independence from the custodian.

The company describes insured storage in a U.S. vault. [illegible] Keeping a card vaulted can avoid shipment between trades but preserves dependence on the custody relationship; taking physical possession ends the corresponding token rather than creating an additional collectible.

Acceptance of new seller inventory requires separate confirmation. An April xx.xx 2026 help notice pauses vault submissions and says incoming shipments will be returned, although general marketing continues to invite submissions. [illegible]

RESEARCH SAMPLE REPORT

[redacted]

Sources & Evidence

1. How It Works | Courtyard
   - Courtyard advertises digitally opened packs containing physical graded cards, marketplace resale, custody and requested delivery. Its general offering page invites new submissions, and its footer identifies Courtyard, Inc. ([courtyard.io](https://courtyard.io/about))
   - Company verification: Courtyard describes digital packs, a marketplace, custody, and physical delivery of real graded cards.
   - Company verification: The page identifies Courtyard, Inc. in its business footer.
2. Terms of Service | Help Center
   - The terms identify Courtyard Inc. as the contracting company. NFT sale transfers the corresponding asset's ownership and asset-management relationship. Physical release requires identity, eligibility and token-ownership verification, and the corresponding NFT is burned upon transfer. ([intercom.help](https://intercom.help/courtyardio/en/articles/xx.xx-terms-of-service))
3. What is Courtyard.io? | Help Center
   - Courtyard describes blockchain-linked trading of vaulted physical collectibles, primarily graded trading cards, without moving the underlying item between transactions. This supports the distinction between the ownership record and physical card medium, not independently demonstrated liquidity. ([help.courtyard.io](https://help.courtyard.io/en/articles/xx.xx-what-is-courtyard-io))
4. Vault Your Cards | Help Center
   - The April xx.xx 2026 notice pauses new vault submissions and says incoming shipments will be returned. It separately maintains redemption for existing stored cards and describes insured storage in a U.S. vault. ([help.courtyard.io](https://help.courtyard.io/en/articles/xx.xx-vault-your-cards))
5. Asset Redemption & Shipping
   - Redemption guidance requires identity checks and customer-paid shipping and taxes. Shipping covers most countries, subject to legal or logistical exceptions. Physical delivery ends the corresponding digital version rather than leaving both holdings outstanding. ([docs.courtyard.io](https://docs.courtyard.io/courtyard/logistics-and-legal/asset-redemption-and-shipping))

Sources & Evidence

1. 累計出荷数８２億枚以上の人気 TCG「デュエル・マスターズ」２５周年記念施策のご案内
   - Company verification: TOMY's March xx.xx 2026 announcement identifies continuing Duel Masters commercial activity and named anniversary products.
   - Company verification: The announcement identifies Japanese specialty-card, toy, mass-retail, and online sales channels, updating the historical participation evidence.

2. Brand Sheet - The Pokémon Company, February 2026
   - Company verification: The Pokémon Company's February 2026 brand sheet documents its corporate origins, subsequent company-name change, and international operating-company history.
   - Company verification: The document identifies the physical trading-card business and international championship activity, supporting continuing commercial relevance without establishing card-only revenue.
3. Bushiroad Inc. - FY2026 Third-Quarter Financial Results Briefing Material
   - Company verification: Bushiroad's issuer-prepared May xx.xx 2026 financial presentation identifies continuing Cardfight!! Vanguard and Weiss Schwarz sales and domestic and overseas TCG business activity.
   - Company verification: The presentation identifies Bushiroad Inc. as the reporting issuer and distinguishes its TCG business from other entertainment activities.
   - Company verification: The presentation identifies COVER as responsible for planning and development of hololive OFFICIAL CARD GAME and Bushiroad as responsible for sales and co-management.
   - Company verification: A named March 2026 hololive card-product release updates the earlier announcement-only participation evidence.
4. Bandai Namco Holdings Inc. - Notice of the Twentieth Ordinary General Meeting of Shareholders
   - Company verification: Bandai Namco's 2025 shareholder-meeting document identifies BANDAI CO., LTD. among its consolidated subsidiaries.
   - Company verification: The financial-statement notes identify HAPPINET CORPORATION as an equity-method affiliate rather than a consolidated subsidiary for that reporting period.
   - Company verification: The financial-statement notes establish Happinet's equity-method affiliate relationship to Bandai Namco for the year ended March xx.xx 2025.
   - Company verification: This supports distinguishing the two reporting issuers rather than assuming that all Happinet sales are consolidated into Bandai Namco revenue.
5. Stock Information - Happinet, March 31, 2026
   - Company verification: Happinet's shareholder disclosure dated March xx.xx 2026 identifies Bandai Namco Holdings as a minority shareholder.
   - Company verification: The disclosure supplements the earlier accounting record and does not establish wholly owned subsidiary status.
6. Releases - Leaf Trading Cards
   - Company verification: Leaf's official release catalog identifies October 2026 football and multi-sport products as released.
   - Company verification: The catalog separately identifies later products as coming soon, supporting current operations without treating future releases as delivered.
7. Privacy Policy - Official EPOCH Website
   - Company verification: EPOCH's official English privacy notice identifies EPOCH CO., LTD. as a Tokyo-registered company and supplies its Japanese business address.
   - Company verification: This establishes the English identity bridge for the company whose trading-card catalog was captured during discovery.
8. Gothic - Sorcery: Contested Realm
   - Company verification: The official Gothic product page identifies a named Sorcery commercial expansion and carries Erik's Curiosa Limited trademark attribution.
   - Company verification: Dated December 2025 and 2026 business updates support continuing portfolio activity beyond a standalone intellectual-property policy.

9. Stocking/Products - Grand Archive TCG
   - Company verification: The official Grand Archive stocking page documents a multi-region distributor network and connects official store support to Weebs of the Shore.
   - Company verification: The geographic channel network supports commercial relevance for its original TCG, without establishing sales in every named territory.
   - Company verification: The Grand Archive stocking page provides commercial product information and identifies Weebs of the Shore's store support.
   - Company verification: The publisher currently lists PHD Games as a United States Grand Archive distributor.
   - Company verification: The publisher lists Southern Hobby Distribution as a United States Grand Archive distributor, supplementing the earlier Force of Will directory reference.
   - Company verification: The publisher lists Universal Distribution under Canada for Grand Archive.
   - Company verification: Lists Let's Play Games as a Grand Archive distribution contact.
   - Company verification: Lists Geek Culture and a Brazil distribution contact.
   - Company verification: Lists AK Games for Malaysia, Singapore, and Brunei.
   - Company verification: Lists Fayble Distribution for Taiwan, Hong Kong, and Japan.
   - Company verification: Lists Heralds Peak Distribution Corp for the Philippines.
   - Company verification: Lists Nexus Distribution under Middle East.
   - Company verification: Grand Archive's official stocking page names Nexus Distribution for Middle East.
   - Company verification: The page does not identify its legal entity, ownership, or individual served countries.
   - Company verification: Names Cube Golem in its stocking and distribution list.
   - Company verification: The publisher's distributor directory lists Prince Distribution under Canada.
   - Company verification: The publisher's distributor directory lists ADC Blackfire Entertainment GmbH under Europe.
   - Company verification: The publisher's distributor directory lists Bliss Distribution under Europe.
   - Company verification: The publisher's distributor directory lists Ynaris under Europe; the directory establishes a named channel relationship, not realized sales.
10. Collections - Parkside Collectibles
   - Company verification: Parkside's current commercial catalog includes 2026 INDYCAR products alongside women's soccer and other collectible-card collections.
   - Company verification: The portfolio supports a differentiated sports-card publishing role, not a comparative market ranking.
   - Company verification: Parkside's catalog lists NWSL cards, 2026 INDYCAR products, and other collectible-card collections.
11. Company Profile and Trading-Card Business - MINT Co., Ltd., July 2026
   - Company verification: MINT's July 2026 company profile identifies a nationwide company-operated and franchise-store network, online channels, wholesale activity, and importing relationships.
   - Company verification: These card-specific channels support material commercial relevance beyond a single storefront; promotional leadership claims are not adopted.
   - Company verification: MINT's July xx.xx 2026 company profile names MINT Co., Ltd. and identifies trading cards as its business.
   - Company verification: MINT lists EPOCH CO., LTD. as a vendor.
   - Company verification: MINT lists BASEBALL MAGAZINE SHA co.,ltd as a vendor.
   - Company verification: MINT lists the Panini Group as a vendor.
   - Company verification: MINT lists The Topps Company as a vendor, providing a channel cross-check for Fanatics' Topps business.
   - Company verification: MINT lists The Upper Deck Company as a vendor.

12. About Us - Grosnor Distribution Inc.
    - Company verification: Grosnor's company page identifies its Canadian-owned trading-card distribution business, Brampton facility, retailer supply, and out-of-province shipping.
    - Company verification: Its named commercial categories and national retailer proposition support a meaningful Canadian channel role without adopting its leadership wording.
13. KeyForge Products - Ghost Galaxy
    - Company verification: Ghost Galaxy's commercial KeyForge collection offers named starter products and identifies card games separately from accessories.
    - Company verification: This supplements the captured rights-acquisition and Strange Stars ownership records with continuing direct card-product commerce.
14. 2026 Products - Historic Autographs
    - Company verification: Historic Autographs maintains a 2026 product index with historical and military-themed commercial series.
    - Company verification: The page identifies Historic Autographs Co, LLC and its Pennsylvania business address, supplementing the captured ownership disclosures.
15. Star Trek Connections Trading Cards - Rittenhouse Archives
    - Company verification: Rittenhouse identifies Star Trek Connections as released on February xx.xx 2026 and provides a commercial purchase route.
    - Company verification: The page's current-product navigation documents a broader specialist entertainment-card portfolio.
    - Company verification: Rittenhouse Archives maintains a product page for Star Trek Connections Trading Cards.
16. Trading Cards - Cryptozoic Entertainment
    - Company verification: Cryptozoic's catalog identifies named entertainment-card releases associated with July 2026 convention activity.
    - Company verification: Many inspected items are sold out; the record supports recent publishing activity, not universal current stock.
    - Company verification: Cryptozoic's trading-card catalog lists entertainment offerings including A Christmas Story and Conan the Barbarian.
    - Company verification: The Conan listing identifies a collaboration with Pan-Universal Galactic Worldwide.
    - Company verification: Cryptozoic identifies Pan-Universal Galactic Worldwide as its collaborator for Conan the Barbarian Trading Cards.
17. Company - Gem Blenders
    - Company verification: Gem Blenders' company history identifies its founder, physical-card crowdfunding history, New York events, and convention participation.
    - Company verification: Together with its captured commercial shop, these facts establish an operating original-TCG publisher brand and a differentiated specialist role.
    - Company verification: The official Gem Blenders Company page establishes the business-facing identity behind the named game.
18. GameStop Corp. - 2025 Annual Report, Fiscal Year Ended January 31, 2026
    - Company verification: GameStop's annual report for the fiscal year ended January xx.xx 2026 establishes its exact public-company identity and physical trading-card retail participation.
    - Company verification: The filing identifies its authorized PSA dealer relationship and distinguishes submission services from PSA's grading.
    - Company verification: The filing describes Collectors and PSA as related parties because of a shared director, not as GameStop subsidiaries.
    - Company verification: The filing identifies Collectors Holdings, Inc. as PSA's parent and records a commercial collaboration with GameStop.
    - Company verification: This establishes a specific card-market customer/channel relationship without resolving the Beckett acquisition's closing.

19. GameStop Discloses Second Quarter 2026 Results
    - Company verification: GameStop's September xx.xx 2026 results confirm continuing operations and define collectibles to include new and pre-owned trading cards and grading-submission fees.
    - Company verification: The company reports an investment in eBay common stock; this disclosure alone does not establish an acquisition of control.
    - Company verification: The mixed collectibles category is not a trading-card-only revenue measure.
20. Pokémon & TCG Wholesale in Africa - Carta Distribution
    - Company verification: The Carta Distribution Africa page identifies Carta International Limited as the operator in its footer and legal attribution.
    - Company verification: The shared brand-to-operator identification creates a reporting-level overlap between the two retained staged identities.
    - Company verification: Carta International Limited is identified as the operator of the Carta Distribution wholesale site.
    - Company verification: The company and its distribution brand should not be treated as economically independent merely because they have separate staged rows.
    - Company verification: The Africa wholesale page identifies Carta International Limited with a Hong Kong address.
    - Company verification: It advertises wholesale supply of named physical TCG products to retailers in listed African countries; the page does not establish completed local sales or exclusive publisher appointments.
21. Контакты - Берсерк
    - Company verification: The official Berserk contact page identifies Hobby World as the game's developer and rights holder and supplies a Moscow business contact.
    - Company verification: This improves the previously missing company-to-title bridge but does not establish current stock or the complete legal and ownership perimeter.
22. eBay Inc. Reports Second Quarter 2026 Results
    - Company verification: eBay's second-quarter 2026 results identify eBay Inc. as the continuing public reporting company.
    - Company verification: The release updates active corporate status but does not, by itself, resolve every card-market subsidiary and transaction perimeter.
23. Topps - Fanatics Inc
    - Company verification: Fanatics acquired Topps in 2022 and identifies it as a trading-card brand within Fanatics Collectibles.
    - Company verification: The acquired business included physical and digital trading cards and international operations.
24. Fanatics Collectibles, NFL and NFLPA announce multi-year licensing deal
    - Company verification: The NFL announced a multi-year licensing agreement with Fanatics Collectibles and the NFLPA in 2026.
    - Company verification: The announcement identifies the 2025 Topps Chrome Football collection.
25. The Panini Group: History and Background Info
    - Company verification: Panini identifies trading-card collectibles among its businesses and lists group companies in Europe, Latin America, and the United States.
26. Panini S.p.A. - Collectibles
    - Company verification: Panini's collectibles classification distinguishes stickers, trading cards, and trading card games.
27. Hasbro, Inc. - Form 10-K for the year ended December 28, 2025
    - Company verification: Hasbro's 2025 Form xx.xx-K identifies Magic: The Gathering as a strategic trading card game.
    - Company verification: The filing reports Wizards of the Coast and Digital Gaming as a Hasbro business segment and distinguishes tabletop from digital and licensed gaming.

28. The Pokémon Company International - About Us
    - Company verification: The Pokémon Company International states that it manages the property outside Asia and is responsible for the Pokémon Trading Card Game.
    - Company verification: This establishes an operating-company business role; it does not independently establish the complete parent-group reporting perimeter.
    - Company verification: The international operating company's business page states responsibility for Pokémon TCG outside Asia; its parent relationship is established separately.
29. Expanding BANDAI CARD GAMES for the Growing Global Market - Integrated Report 2025
    - Company verification: Bandai Namco's integrated-report feature identifies trading card games as a main product of Bandai's Card Business Department.
    - Company verification: The feature identifies the ONE PIECE Card Game and international expansion of the BANDAI CARD GAMES business.
30. Digital Entertainment Business - KONAMI GROUP CORPORATION
    - Company verification: KONAMI's business page identifies the Yu-Gi-Oh! Trading Card Game and distinguishes it from related digital titles.
    - Company verification: The page describes the associated international championship business activity.
31. Bushiroad Unveils Plans for 2017 at GAMA Trade Show
    - Company verification: Bushiroad's 2017 business announcement identifies Cardfight!! Vanguard and Weiss Schwarz among its card-game offerings.
    - Company verification: The historical announcement describes U.S., Singapore, and European operating entities; it is not current-status confirmation.
32. Gateway - Ravensburger
    - Company verification: The Disney Lorcana Gateway product page identifies Disney Lorcana as a trading card game from Ravensburger.
    - Company verification: Manufacturer identification names Ravensburger Verlag GmbH.
33. About Upper Deck
    - Company verification: Upper Deck describes sports and entertainment trading cards as company businesses.
    - Company verification: The company describes e-Pack purchasing, trading, storage, and shipment of eligible physical collectibles.
34. Asmodee Group - Interim Report Q2 2025/2026
    - Company verification: Asmodee's interim report discusses trading-card-game activity and identifies Star Wars: Unlimited, Pokémon TCG, and Riftbound in its business release pipeline.
    - Company verification: The report distinguishes games published by Asmodee studios from games published by partners.
35. Past famous scenes are to be trump cards! - DUEL MASTERS
    - Company verification: TOMY's 2021 release identifies commercial Duel Masters card products.
    - Company verification: The release identifies Japanese toy stores, card specialty stores, online stores, and Takara Tomy Mall as sales channels.
36. ファイナルファンタジー・トレーディングカードゲーム | SQUARE ENIX PRESENTS
    - Company verification: Square Enix maintains an official Final Fantasy Trading Card Game information series with 2026 product and championship announcements.
37. About Legend Story Studios
    - Company verification: Legend Story Studios identifies itself as an Auckland-based game publishing studio and identifies Flesh and Blood as its launched trading card game.
    - Company verification: The company describes an international local-game-store and organized-play network.
38. About UVS Games - Creators of UniVersus Collectible Card Games
    - Company verification: UVS Games identifies UniVersus publishing activity and a Riftbound partnership with Riot Games.
    - Company verification: Its company history identifies Jasco Games as its former name.

39. Retailer Riftbound FAQ - UVS Games
    - Company verification: UVS Games provides Riftbound retailer support and directs stores to authorized distributors for stock.
40. About Us - Leaf Trading Cards
    - Company verification: Leaf's company history identifies its trading-card business and the addition of Pro Set to its portfolio.
41. About Us - Futera
    - Company verification: Futera describes limited-edition trading cards, including autograph and memorabilia card offerings.

    - Company verification: Legend Story Studios named Coqui Distribution as a Mexican Flesh and Blood distribution partner in September 2024; Coqui's separate company page establishes its PHD-family relationship.
63. 2026 Bench Warmer Decision 250 Trading Cards - Southern Hobby Supply
    - Company verification: Southern Hobby Supply maintains a commercial pre-sell listing for 2026 Bench Warmer Decision xx.xx Trading Cards.
    - Company verification: The inspected detailed listing gives an October xx.xx 2026 release date, which is future-dated relative to this checkpoint.
    - Company verification: The distributor listing identifies Bench Warmer as the brand for Decision xx.xx Trading Cards and distinguishes the offering as pre-sell rather than an already released product.
64. Products - Alpha Clash TCG
    - Company verification: The official Alpha Clash catalog identifies Rising Empire Studios and presents Alpha Clash commercial products.
    - Company verification: The catalog supports a card-publisher participation lead without establishing the legal operator, ownership, or country-specific sales.
65. New Releases - Elestrals
    - Company verification: The Elestrals commercial catalog offers named Sunstrike starter-deck products with purchase controls.
    - Company verification: The storefront credits Elestrals LLC and provides a United States purchasing context.
66. Cosmic Collision - Nostalgix TCG
    - Company verification: The official Nostalgix site maintains a dedicated Cosmic Collision set page.
    - Company verification: This establishes a named physical-TCG portfolio association, not the company's legal operator or current North American stock.
67. Ghost Galaxy, Inc. Acquires KeyForge from Asmodee
    - Company verification: The 2022 company announcement identifies Ghost Galaxy, Inc. in Roseville, Minnesota and its acquisition of KeyForge intellectual-property and card-game rights from Asmodee.
    - Company verification: The announcement identifies Strange Stars, LLC as Ghost Galaxy's owner.
68. About Us! - Ghost Galaxy
    - Company verification: Ghost Galaxy's business history describes the company and its relationship to the Strange Stars holding-company structure.
    - Company verification: The page distinguishes Ghost Galaxy from founder Christian Petersen's former Asmodee responsibilities.

69. Spin Master and Universal Products & Experiences Introduce Hellbreak, A New Horror Trading Card Game - February 3, 2026
    - Company verification: Spin Master's February xx.xx 2026 Toronto announcement identifies Hellbreak as a new TCG collaboration with Universal Products & Experiences.
    - Company verification: The announcement establishes planned participation; it does not prove that retail commercialization occurred.
    - Company verification: The February xx.xx 2026 Hellbreak announcement identifies Ghost Galaxy as the game's design and development collaborator.
70. SolForge Fusion - The Hybrid Deck Game | Stone Blade
    - Company verification: Stone Blade's official SolForge Fusion business page presents the physical tabletop card game and its associated digital offering.
    - Company verification: The physical offering is distinguishable from digital-only card-game software.
71. Meet Our Dedicated Team at Historic Autographs
    - Company verification: Historic Autographs identifies Kevin Heffner as principal owner and Jim Huggins as a minority owner.
    - Company verification: The company page identifies Historic Autographs Co, LLC and a Pottstown, Pennsylvania business address.
72. 2024 Products - Historic Autographs
    - Company verification: Historic Autographs' official 2024 product index names offerings including YesterYear, All Time Greats, and Chaos xx.xx.
    - Company verification: This is historical portfolio evidence and does not establish current stock.
73. Cards - Bench Warmer
    - Company verification: Bench Warmer's official card catalog offers autograph-card packs and named collectible-card products.
    - Company verification: The catalog includes U.S. and Canadian shipping options and marks numerous other products sold out.
74. NETPRO Officially Licensed Trading Cards - About Us
    - Company verification: NETPRO describes a licensed tennis trading-card business and names its Limitless Collection and International Series.
    - Company verification: The page supports portfolio participation without substantiating promotional market-position claims.
75. NETPRO Officially Licensed Trading Cards - Do Not Sell My Information
    - Company verification: The March xx.xx 2026 privacy-related company notice identifies NETPRO Trading Cards, LLC.
76. Monsterwax Trading Cards - Contact
    - Company verification: Monsterwax's official business contact page identifies a Tallahassee, Florida address and links its named card portfolio.
77. Lost In Space - The Art of Ron Gross | Monsterwax
    - Company verification: Monsterwax maintains a specific commercial page for Lost in Space - The Art of Ron Gross trading cards.
78. Frequently Asked Questions - Cardsmiths
    - Company verification: Cardsmiths' official business policies identify Cardsmiths, LLC as the operator of its trading-card redemption and exchange programs.
79. Cardsmiths Launch Mega Man X Trading Cards
    - Company verification: Cardsmiths' November xx.xx 2025 announcement identifies its Mega Man X trading-card collection.
    - Company verification: The announcement names Cardsmiths.com, GameStop, Best Buy, and other selected U.S. retailers as commercial channels.

80. Our Story - Cactus Game Design
    - Company verification: Cactus Game Design, Inc. identifies itself as the publisher of Redemption and describes its family-business history.
    - Company verification: The company describes Redemption tournament activity across North America.
81. Redemption Card Game - Cactus Game Design
    - Company verification: Cactus's official Redemption page identifies the product as a collectible trading card game and offers starter decks and other card products for purchase.
    - Company verification: The page contains 2026 organized-play results; older release descriptions are not treated as a complete current release calendar.
82. Pokemon, Yu-Gi-Oh! Cards - Kit N Caboodle
    - Company verification: Kit N Caboodle maintains a dedicated business page for Pokémon and Yu-Gi-Oh! cards.
83. Sports Cards - Kit N Caboodle
    - Company verification: Kit N Caboodle maintains a separate sports-card business page, supporting a collectible-card retail role.
84. Shop All - Onyx Authenticated
    - Company verification: Onyx Authenticated maintains an accessible official commercial shop, improving the previously unsupported company-level participation lead.
    - Company verification: The shop record does not establish ultimate ownership or current contractual licensing rights.
85. Oráculo 2022 - Primera Era: La Cofradía
    - Company verification: The official document attributes the Mitos y Leyendas and Salo trademarks to Fenix Entertainment S.P.A.; the document is dated May 2022.
86. Leyendas de Ultratumba: Tinieblas - Amadís de Gaula en El Reto
    - Company verification: The official October xx.xx 2026 announcement presents a named Leyendas de Ultratumba: Tinieblas offering within Mitos y Leyendas.
    - Company verification: The page carries Fenix Entertainment attribution.
87. Dominios de Ra se toma Concepción: El Renacer de los Sacerdotes
    - Company verification: The official October xx.xx 2026 report documents a Mitos y Leyendas event in Concepción, supporting a Chilean organized-play connection.
88. Novo Catálogo Essenciais - Devir
    - Company verification: Devir's 2026 Brazilian commercial catalog identifies Yu-Gi-Oh! among its licensed offerings.
    - Company verification: The catalog describes Devir operations in Brazil, Chile, Colombia, and Argentina, among other countries.
89. Info New Accounts - Devir Americas
    - Company verification: Devir's account information identifies a Colombian Yu-Gi-Oh! channel and local offices serving Argentina, Chile, and Brazil.
    - Company verification: The page distinguishes board-game subdistribution arrangements from trading-card account restrictions.
90. Cartinha - official company profile
    - Company verification: Cartinha's company-published profile identifies a wholesale business in Vinhedo, São Paulo.
    - Company verification: The profile supplies the Cartinha business name and website; it does not independently resolve ownership or the complete card portfolio.

91. Pokémon Forums - June 2025 staff response listing Latin American distributors
    - Company verification: A Pokémon moderator's June 2025 distributor communication names CD Distribution for Colombia and Peru.
    - Company verification: The same manufacturer-hosted staff communication names Big Bang as a Chilean channel.
    - Company verification: The same manufacturer-hosted staff communication names Ansaldo as a Chilean channel.
92. Pokémon TCG - Big Bang Copag
    - Company verification: Big Bang Copag maintains a specific commercial catalog for Pokémon TCG products.
93. Pokémon Trading Card Game en Chile - Ansaldo Toys
    - Company verification: Ansaldo Toys maintains a Chilean Pokémon TCG catalog advertising named card products.
94. IMGRAX - company distribution and subdistribution disclosure
    - Company verification: IMGRAX advertises My Hero Academia CCG distribution for Mexico and Latin America.
    - Company verification: Its business disclosure also identifies subdistribution roles for named physical trading-card-game brands; assigned-country appointments are not specified.
95. LigaMagic - Analista de Redes Sociais
    - Company verification: LigaMagic's employer-published posting identifies a São José dos Campos card-game business focused on Magic, Pokémon, One Piece, and Yu-Gi-Oh!.
    - Company verification: The posting does not establish the current legal marketplace operator or transaction volume.
96. Nexo Paraguay - Pokémon product catalog
    - Company verification: Nexo Paraguay's official-domain catalog advertises Pokémon card products in multiple commercial packaging formats.
    - Company verification: The inspected catalog does not establish current inventory or a publication date.
97. Dungeon TCG & Games - Tienda de Cartas Coleccionables en Uruguay
    - Company verification: Dungeon TCG & Games presents a Uruguayan card-retail storefront with Magic, Pokémon, Riftbound, and One Piece categories.
98. Chumky International - Pokémon TCG business-to-business offering
    - Company verification: Chumky International advertises Pokémon TCG business-to-business supply for specialist stores, wholesalers, and event organizers.
    - Company verification: Its claimed official-distributor status is a company statement, not independently corroborated authorization.
99. Pokémon & TCG Wholesale in Latin America - Carta Distribution
    - Company verification: Carta Distribution's dedicated Latin America page advertises sealed trading-card supply to regional stores.
    - Company verification: The page establishes an advertised regional proposition, not realized sales in each country.
100. Sobre nosotros - TCGVaultCR
    - Company verification: TCGVaultCR's own about page presents its business identity and singles/product-commerce navigation.
    - Company verification: The page alone does not establish a complete current branded-card catalog.
101. Tiendas aliadas - REGIÓN TCG
    - Company verification: REGIÓN TCG maintains a partner-store directory alongside single-card and card-product commerce categories.
    - Company verification: This supports a channel-platform lead rather than card-publishing participation.

102. Hit Lab - We buy and sell cards in the Dominican Republic
    - Company verification: Hit Lab identifies Santo Domingo, Dominican Republic, and advertises card buying and selling.
    - Company verification: The inspected page does not independently establish its legal operator or a complete named trading-card portfolio.
103. Indommus Reyes Destronados - Expansión: Iriladia - AKATAKA
    - Company verification: AKATAKA's specific Iriladia listing attributes the manufacturer/editorial role to Indommus.
    - Company verification: The listing establishes a named product attribution, not Indommus's legal issuer or current production status.
    - Company verification: AKATAKA advertises the Indommus: Reyes Destronados - Iriladia expansion through a specific product page.
104. CLAN - Rage Multiverse
    - Company verification: Rage Multiverse's official CLAN page links to Batalla Elemental and describes related creative activity.
    - Company verification: This page does not establish a currently marketed physical trading-card offering.
    - Company verification: The CLAN page names Mito Editorial in a role-playing-game collaboration.
    - Company verification: That collaboration does not establish a trading-card publishing or licensing role.
105. International Sales - AMIGO games
    - Company verification: Identifies AMIGO Spiel + Freizeit GmbH as a card- and board-game publisher based in Dietzenbach, Germany.
    - Company verification: States that AMIGO is the official Pokémon distributor for Germany and Austria only.
106. Service | heo GmbH
    - Company verification: heo GmbH advertises official distribution of Magic: The Gathering and Yu-Gi-Oh! trading card games.
107. Verlag | Blue Ocean
    - Company verification: Identifies Blue Ocean Entertainment AG in Stuttgart and includes trading card games in its publishing activities.
    - Company verification: States that Blue Ocean has been part of Hubert Burda Media since 2014.
    - Company verification: Describes publishing subsidiaries in several European countries; this does not independently establish trading-card sales in each country.
108. Toys Archives - Magicbox
    - Company verification: Magicbox's commercial catalog presents Superthings Power Super Card Game products.
    - Company verification: Named offerings include Battle Starter Pack and Superkids & Card Pack, described as collectible card-and-figure products.
109. Mundicromo: una marca apasionante con un legado histórico
    - Company verification: The Mundicromo website identifies Play Forest, S.L. at an Elche, Spain address.
    - Company verification: Describes limited-edition football collectible cards, including autograph and memorabilia formats.
    - Company verification: Identifies the Leyendas del Fútbol commercial series.
110. The Avengers & Hammer Platinum Bi-Monthly Collectors Sets - Unstoppable Cards
    - Company verification: Unstoppable Cards maintains a commercial trading-card collection for The Avengers and Hammer Films Platinum collector sets.

111. Gametrade Distribuzione | Home Page
    - Company verification: Gametrade Distribuzione's trade catalog lists named TCG portfolios including One Piece, Digimon, Yu-Gi-Oh!, and Force of Will.
    - Company verification: The catalog distinguishes products available to order from preorders.
    - Company verification: The trade catalog lists Force of Will beneath the Eye Spy Productions publisher heading.
    - Company verification: This supports a current channel association but does not resolve the game's legal publisher, ownership, or product-level availability.
112. Tcg factory
    - Company verification: The trade catalog identifies TCGFACTORY OCIO S.L.U. and a Zaragoza, Spain address.
    - Company verification: Offers named trading-card-game and collectible-card ranges to shops and distributors.
    - Company verification: Displayed product records distinguish availability, backorders, and preorders.
113. NEWS
    - Company verification: February 2026 business news identifies Carletto as an official Pokémon distributor in Switzerland.
    - Company verification: August 2025 business news describes a Pokémon shop-in-shop relationship with Spielkiste Schweiz AG in Zurich.
114. Kaissa
    - Company verification: Kaissa's Greek-language B2B catalog presents Magic: The Gathering and Riftbound TCG product categories.
115. Home - Gedis
    - Company verification: Gedis publishes commercial distribution news for Pokémon TCG products intended for newsstands throughout Italy.
    - Company verification: The inspected announcement concerns warehouse dispatch and expected newsstand arrival, not independently confirmed completed sales.
116. Gamevision
    - Company verification: Gamevision's official business site presents Pokémon and Yu-Gi-Oh! among its brands and provides a commercial-area entry point.
    - Company verification: The inspected page does not establish exclusive territorial rights.
117. About us | Ludocards.com
    - Company verification: Ludocards' about page identifies Ecliptio Ltd and a Malta business address.
    - Company verification: Describes a custom-card and game-printing business with production in northern Italy.
    - Company verification: The inspected page does not establish a trading-card-specific customer contract or branded card-publishing role.
118. Prodotti - Diramix
    - Company verification: An official Diramix product-catalog page was inspected.
    - Company verification: Its accessible text did not establish current named Lamincards availability; this record is limited identity and catalog support.
119. GETTING STARTED – FOR STORES | ONE PIECE CARD GAME - Official Web Site
    - Company verification: The official ONE PIECE Card Game retailer page names Jazeel under Middle East distributors.
    - Company verification: The official ONE PIECE Card Game retailer page names Active Gulf under Middle East distributors and supplies an active-gulf.com contact address.
    - Company verification: The page does not allocate individual Middle Eastern countries to Active Gulf.
120. Jazeel Distribution - Al Tannan
    - Company verification: Al Tannan identifies Jazeel Distribution as Jazeel General Trading LLC.
    - Company verification: The business describes B2B distribution in the UAE and other countries and supplies a Dubai Investment Park address.

121. Active Boeki K.K. - Active Boeki K.K.
    - Company verification: Active Boeki lists Active Gulf FZCO as its Middle-East distribution contact at a Jebel Ali Free Zone, Dubai address.
    - Company verification: The page's Nintendo distribution territories do not independently establish trading-card sales in those countries.
122. monkeydistribution
    - Company verification: Monkey Distribution advertises a Pokémon TCG distribution business in Saudi Arabia.
    - Company verification: It describes Fandom as its collectibles and trading-card retail concept and publishes a Dubai business address.
123. Mythos Cards - Google Play'de Uygulamalar
    - Company verification: The developer-published Mythos Cards listing identifies Asepto Kart Ticaret Anonim Sirketi and an Istanbul address.
    - Company verification: The business description advertises physical football-card collections, associated digital versions, and a collector marketplace.
    - Company verification: The developer describes licensed collections for named Turkish football clubs and a Topps distribution/marketing relationship; current contract terms are not supplied.
124. Galatasarayımızın koleksiyonluk kartları Mythos Cards'ta satışta! - GALATASARAY.ORG
    - Company verification: Galatasaray's March xx.xx 2022 announcement confirms a collectible-card agreement with Mythos Cards and the launch of printed and digital club-card offerings.
    - Company verification: This dated launch record does not independently confirm present license terms.
125. Hakkımızda - Sagentech
    - Company verification: Sagentech identifies its company as Sagen Teknoloji Ürünleri Ltd Şti.
    - Company verification: The company describes Turkish import, distribution, logistics, and retailer-supply activities.
126. Pokemon Kart - Sagentech
    - Company verification: Sagentech maintains an inspected commercial Pokémon-card catalog.
    - Company verification: The catalog establishes an offered card category, not an independently corroborated exclusive distributorship.
127. Hakkımızda
    - Company verification: SlabandPack describes a commercial selection of Pokémon, One Piece, and Yu-Gi-Oh! cards and graded cards in Turkey.
    - Company verification: Its stated ABYstyle Studio and Phoenix Shield distribution roles concern figures and accessories and do not establish card-publishing rights.
128. About Us - PMI Kids World
    - Company verification: PMI Kids' World identifies Tel Aviv headquarters and describes itself as a continuing family business.
    - Company verification: Its company history describes SUPERGOAL collector stickers and albums, which do not by themselves establish a current non-sticker trading-card offering.
129. Pokémon Cards Wholesale Supplier in Dubai | PokéMENA B2B
    - Company verification: PokéMENA advertises wholesale English- and Japanese-language Pokémon TCG supply to shops in Dubai, Qatar, Saudi Arabia, and the broader Middle East.
    - Company verification: The inspected page states that new wholesale applications are closed because of supply shortages.
130. Contact information - Holoverse Collective TCG FZC
    - Company verification: The contact page identifies Holoverse Collective TCG FZC and a Sharjah office.
    - Company verification: The business advertises Pokémon and One Piece TCG collectibles for UAE and GCC customers.
    - Company verification: Its SRTIP licensing statement is company-published and was not independently registry-verified.

131. About Us | Tradewinds Vault
    - Company verification: Tradewinds Vault describes itself as a UAE trading-card retailer.
    - Company verification: It advertises singles, graded cards, and sealed products across Pokémon, One Piece, and Dragon Ball for delivery within the UAE.
132. Trading Card Game UAE | Pokemon Cards UAE | One Piece Cards UAE
    - Company verification: The TOISE storefront identifies V2 En Global FZ LLC in Dubai as its business contact.
    - Company verification: The storefront advertises Pokémon and One Piece card products, including singles.
133. Pokéshop
    - Company verification: PokéShop identifies a Dubai-based independent retail business and publishes a Dubai Silicon Oasis address.
    - Company verification: Its inspected storefront offers named Japanese and Chinese Pokémon booster-box products and advertises UAE/MENA fulfillment.
134. KARDX - Trade. Collect. Grow. | Premium TCG in the GCC
    - Company verification: KARDX Trading advertises Pokémon, One Piece, and Dragon Ball TCG products and identifies Ras Al Khaimah, UAE.
    - Company verification: Its specific shipping section states UAE-only delivery despite broader GCC promotional language.
135. KanzTCG | TCG Store Saudi Arabia
    - Company verification: KanzTCG identifies Kanz Almuqtinat Establishment as its commercial-registration name.
    - Company verification: The Saudi storefront advertises Pokémon TCG products, singles, preorders, and grading submissions.
136. About Us | West Asia Cardhouse for Authentic Pokemon Cards
    - Company verification: West Asia Cardhouse identifies an Alkhobar, Saudi Arabia business and advertises Pokémon-card retail activity.
    - Company verification: The page displays company registration and tax information, but these were not independently checked against a registry.
137. lifestyle | Store 974 Electronics WLL | □.□.□ □□□□□□□□□□□ □□□□□□□
    - Company verification: The catalog identifies Store xx.xx Electronics WLL and Qatar retail locations.
    - Company verification: It offers Panini FIFA xx.xx 2024 TCG card products, establishing a sports-card retail role rather than publishing rights.
138. OPOMAN
    - Company verification: OPOMAN describes an Oman-based specialist business offering One Piece and Pokémon cards.
    - Company verification: It advertises grading submissions through CGC and claims authorized-dealer status; that appointment was not independently corroborated.
    - Company verification: Its storefront identifies Muscat-oriented card commerce and claims service to Oman and the GCC.
139. About RAZE TCG | Pokémon Card Shop in Qatar - Raze TCG
    - Company verification: RAZE TCG describes Pokémon-card sales and buying/trading of collections.
    - Company verification: The business specifies delivery charges and coverage for Doha and selected surrounding locations and excludes several other Qatar locations.
140. A store for players by players - Good Game
    - Company verification: Good Game's official storefront identifies a tabletop and card-game retail business at Sanabel Tower in Kuwait City.
    - Company verification: This identity and location support does not independently resolve its current collectible-card assortment.

141. Tournaments | tabletop.me
    - Company verification: The event organizer identifies Boardgame Space as a UAE tabletop distributor.
    - Company verification: The inspected description does not establish a named trading-card portfolio.
    - Company verification: The event organizer identifies Gameinox as presenting Bandai TCG.
    - Company verification: Event presentation alone does not establish an exclusive distribution appointment or realized card sales.
    - Company verification: The event organizer identifies Desert Beat as presenting LIFE TCG.
    - Company verification: The listing does not resolve the company's legal identity or ongoing distribution role.
142. About Us - Solarpop
    - Company verification: Solarpop identifies itself as a South African company founded in 2016 and describes brand management, sales and support for retail customers in Southern Africa.
143. TCG sealed products - Two Plus Distribution
    - Company verification: Two Plus Distribution maintains a specific wholesale category for sealed TCG products.
144. About us - Epic Games South Africa
    - Company verification: Epic Games South Africa describes an independent distribution business covering trading cards and states that it distributes Panini products in South Africa.
145. Informations légales | Stickers Collection Maroc - Distributeur Officiel Panini
    - Company verification: The legal notice identifies Saladino Sàrl AU as the company representing Stickers Collection Maroc, provides Moroccan business identifiers and a Tangier address, and states a Panini distribution role including Adrenalyn XL trading cards.
146. PANINI FIFA 365 ADRENALYN XL 2026 | Stickers Collection Maroc
    - Company verification: The Moroccan storefront maintains a named Panini FIFA xx.xx Adrenalyn XL 2026 category, distinguishing a trading-card portfolio from its sticker collections.
147. Adilsons Anime & Pop Culture - Trading Card Games
    - Company verification: The catalog identifies Adilsons Ltd and its Mauritian operating jurisdiction and addresses.
    - Company verification: The catalog advertises named Pokémon and Yu-Gi-Oh! card products with displayed availability.
148. Dex Central - Buy Pokémon Cards, Hot Wheels, Board Games & Playing Cards Online in Namibia
    - Company verification: Dex Central advertises Pokémon sealed products, singles and other named card-game categories, identifies Windhoek, and offers delivery within Namibia.
149. Pokémon Toys: Action Figures, Plush, Cards & More - Toyzoona
    - Company verification: Toyzoona's Kenyan Pokémon catalog includes named trading-card products alongside toys, supporting a diversified retail role.
150. About Shuffle Games | TCG & Hobby Community Hub
    - Company verification: Shuffle Games identifies a Cairo location and its participation in Egypt's gaming community.
    - Company verification: Its business page links commercial categories for named trading-card games.
151. Pokémon - Hobby Corner Egypt
    - Company verification: Hobby Corner Egypt maintains a Pokémon retail collection on its Egyptian storefront.
152. About Le3ba | Le3ba Store
    - Company verification: Le3ba describes an Egyptian retail/community business offering named trading-card games, including Yu-Gi-Oh!, Pokémon and Magic: The Gathering.
153. About Us - Poke TCG Egypt
    - Company verification: Poke TCG Egypt describes an Egypt-based retail offering focused on Japanese Pokémon cards and advertises local delivery and payment options.

154. Buy Trading & Playing Cards in Egypt | Games 2 Egypt
    - Company verification: Games xx.xx Egypt maintains an Egyptian trading-and-playing-card retail category with named Panini and Topps products.
    - Company verification: The category mixes trading cards with ordinary card games, requiring product-level separation.
155. Yu-Gi-Oh! Store Egypt | Custom Cards, Decks & Playmats | Stiva Store
    - Company verification: Stiva Store advertises Yu-Gi-Oh!-related cards, including custom-card offerings, and delivery across Egypt.
    - Company verification: The inspected page does not establish an official publisher license.
156. About Aniware
    - Company verification: Aniware identifies itself as a Randburg-based South African online trading-card store offering Pokémon sealed products, singles and graded cards, plus selected other TCGs.
    - Company verification: It advertises nationwide South African delivery and local collection.
157. About Us - Magic The Trading
    - Company verification: Magic The Trading advertises named TCG portfolios and delivery throughout South Africa.
    - Company verification: Its company page states that it is a registered private limited company.
158. About Us | Qustom Collectibles
    - Company verification: Qustom Collectibles identifies QUSTOM (PTY) LTD as its operator and advertises Pokémon and other named TCG products.
    - Company verification: The business describes Johannesburg-based nationwide retail and a cosmetic card-slabbing service.
159. About Us | Rocket Grunt TCG
    - Company verification: Rocket Grunt TCG identifies a Cape Town-based Pokémon retail business and states that it sources through a Solarpop relationship.
    - Company verification: The company describes itself as a registered South African private limited company; the exact registered name is not established by this page.
160. ABOUT US - Armchair Generals
    - Company verification: Armchair Generals advertises named TCG retail offerings, South African stores and domestic online delivery.
161. Legal notice - Poké Cartel SA
    - Company verification: The legal notice, effective February xx.xx 2026, identifies Poke Cartel as a South African online retailer of Pokémon Trading Card Game products.
162. Get Your Cards Graded! - Grade It
    - Company verification: Grade It advertises a South African trading-card grading-intermediary service with Johannesburg and Cape Town contacts.
    - Company verification: Its advertised role is submission handling for international grading companies, not evidence that it performs those companies' grading itself.
163. LGZA - Lekker Grade ZA
    - Company verification: Lekker Grade ZA advertises an independent South African card-grading service.
164. Slabhead - South Africa's Home for Graded Cards
    - Company verification: Slabhead identifies a Cape Town business advertising graded-card sales, card purchases and collection-related commerce services.
165. Collectors Club - Trading Cards, Cape Town
    - Company verification: Collectors Club describes a Cape Town specialty trading-card store and clubhouse offering buying, selling and trading.
    - Company verification: The inspected page describes game nights as forthcoming rather than established ongoing events.

166. Grade Pokémon Cards in South Africa - PSA, CGC & BGS | Card Legends
    - Company verification: Card Legends' service page advertises South African card-grading submissions handled through GradeIT.
    - Company verification: It names Pokéstop locations in Somerset West and Wetton as collection points; the legal relationship between the names is not established.
167. Collections - CollectorShop
    - Company verification: CollectorShop's Moroccan catalog maintains Pokémon, One Piece, Magic: The Gathering, Yu-Gi-Oh! and graded-card retail categories.
168. Pokeshop Maroc - Shop Pokemon Marocain | Display / Booster
    - Company verification: Pokeshop Maroc's inspected storefront advertises Pokémon display, booster and collection-box retail categories for the Moroccan market.
169. Cartes Pokémon - GameWorld
    - Company verification: GameWorld's Pokémon category identifies a Tunis address and Tunisian delivery terms.
    - Company verification: It lists named Pokémon TCG products, but the displayed products were marked out of stock.
170. Pokemon - GameShop Angola
    - Company verification: GameShop Angola's Portuguese catalog advertises collectible Pokémon cards and pickup or delivery in Angola.
    - Company verification: The generic card listing does not establish the product issuer or an official publishing/distribution appointment.
171. 대원미디어
    - Company verification: Daewon Media's official business portfolio identifies Yu-Gi-Oh! Official Card Game, Yu-Gi-Oh! Rush Duel, Cardfight!! Vanguard, and SCC sports collection cards.
    - Company verification: The page identifies DAEWON MEDIA CO.,LTD. and its Korean business presence.
172. 신규 디자인과 콘셉트로 업그레이드된 '2026 KBO 오피셜 컬렉션 카드' 출시
    - Company verification: The KBO's May xx.xx 2026 announcement identifies Daewon Media as its partner for the 2026 KBO Official Collection Card release.
    - Company verification: The announcement identifies Korean convenience-store and online sales channels, including KBO Market and Daewon Shop.
173. Hitcard
    - Company verification: Hitcard's official English page identifies Shanghai Qixing Network Technology Co., Ltd. as the business that launched the brand in 2021.
    - Company verification: The page lists IP-themed collectible-card offerings, including 凡人修仙传 and 哑舍, alongside a Shanghai business address.
174. GOODSFUN 森罗万象官网-让乐趣超有趣
    - Company verification: The official sales-channel page identifies Jason Anime's online sales channels and Card.Fun trading-card products sold through its Chengdu store.
    - Company verification: The page's company footer names 广州杰森动漫文化有限公司; the full English-name bridge remains a research qualification.
175. Company Profile | About Happinet | Happinet
    - Company verification: The official English company profile identifies HAPPINET CORPORATION, its Tokyo headquarters, and nationwide Japanese operations.
    - Company verification: The profile identifies Bandai Namco Holdings Inc. as its largest shareholder and describes Happinet as a Bandai Namco Group member; this does not alone resolve accounting consolidation.

176. Business Introduction｜Happinet

- Company verification: Happinet's official business description explicitly includes sales of trading cards within its toy business.
- Company verification: The page describes a Japanese manufacturer-to-retailer distribution role rather than establishing that all handled cards are Happinet-published.

177. 会社概要｜ムービック（movic）

- Company verification: Movic's official company page describes planning, production, and sales of trading cards and identifies the business as an Animate Group company.
- Company verification: The page supplies a Japanese office address and corporate business description.

178. OSICA　ブースターパック／魔法科高校の劣等生: カード関連商品｜ムービック（movic）

- Company verification: Movic's commercial catalog offers an OSICA booster product themed to 魔法科高校の劣等生.
- Company verification: The inspected listing identifies the offering as a trading card game product and gives an August xx.xx 2026 release date.

179. Corporate Data | Corporate Guide | アニプレックス オフィシャルサイト

- Company verification: Aniplex's English corporate record identifies Aniplex Inc. and its Tokyo address.
- Company verification: The record identifies Sony Music Entertainment (Japan) Inc. as its sole shareholder.

180. ビルディバイド -ブライト- ブースターパック アニメ「青春ブタ野郎」シリーズ Vol.3

- Company verification: Aniplex Online lists a physical Build Divide Bright booster product for the 青春ブタ野郎 anime series.
- Company verification: The listing gives a September xx.xx 2026 release date and provides commercial ordering information.

181. hololive OFFICIAL CARD GAME English Edition Launching in 2025 | COVER Corp.

- Company verification: COVER Corporation's February xx.xx 2025 announcement identifies hololive OFFICIAL CARD GAME as its TCG and states that the Japanese version launched in September 2024.
- Company verification: The same record announces an English edition planned for 2025, with distribution and operation in collaboration with Bushiroad; that announcement alone does not establish the English edition's subsequent launch.

182. SET OF 5 TRADING CARDS OF BHOKAL | Raj Comics by Sanjay Gupta

- Company verification: The official storefront offers SET OF xx.xx TRADING CARDS OF BHOKAL and names Raj Comics By Sanjay Gupta as publisher.
- Company verification: The inspected listing shows an available product and shipping throughout India.

183. Monsta Galaxy Card - Monsta Galaxy Card Official Website

- Company verification: Monsta's official Galaxy Card site lists commercial packs including Heroes Unite, Blazing Frost, Mecha Strike, and Champions Rise.
- Company verification: The card site links to Monsta's store; the inspected record does not by itself resolve the exact issuing legal entity.

184. Kidz and Kitz □□□□□□□□□□□□□□□ □□□□□□□□□□□□□ □□□□□□□□□□ MANYC □□□□□□□□□□□□□□□□□□□□□□□□□□□□□ □□□□□□ 3 IPs □□□□□□□□□□□ □□□□□□□□□□ □□□□□□□□□□

- Company verification: Kidz and Kitz's September xx.xx 2026 company-issued announcement identifies it as MANYC's sole official distributor in Thailand.
- Company verification: The announcement establishes a dated announced distribution relationship, not independently verified shipment or sales volumes.
- Company verification: The dated partner announcement identifies Guangzhou MANYC Cultural Technology Co., Ltd. as the collectible-card partner entering the stated Thai distribution relationship.

185. □□□□□□□□ - Vanguard
    - Company verification: The Thai Vanguard shop page identifies Kidz and Kitz's official online sales channel and lists Vanguard among its card-game offerings.
    - Company verification: The page also identifies an official physical-store route for Vanguard products.
186. Haikyu!! -Collectible Card Vol.1
    - Company verification: The China Toy Expo exhibitor product record names Guangzhou Manyc Cultural Technology Co., Ltd. and identifies Haikyu!! -Collectible Card Vol.xx.xx in the collectible-card category.
    - Company verification: The record identifies China as the exhibitor's country; it is an offering record, not proof of realized sales.
187. brg grading | 트레이딩 카드 그레이딩 서비스
    - Company verification: The official brg site advertises commercial trading-card grading and authentication-related service tiers priced in Korean won.
    - Company verification: This establishes the named service offering; the exact legal relationship to the retained Break & Company identity remains unresolved.
188. Trading Card & TCG Printing NZ | Custom Decks | Game Print
    - Company verification: Game Print advertises contract printing of trading card games, sports and club cards, and collectible sets.
    - Company verification: The specific business page states that the cards are printed and finished in New Zealand.
189. About - Parko Cards
    - Company verification: Parko Cards describes itself as a New Zealand-owned online trading-card business dispatching from Auckland.
    - Company verification: Its stated range includes Pokémon, Palworld, basketball cards, Disney Lorcana, and other trading-card products, with sales directed to New Zealand and Australia.
190. トレーディングカード | エポック社公式サイト
    - Company verification: EPOCH's official trading-card catalog lists named entertainment-card products, including 2026 Toy Story and Disney Classic Characters offerings.
    - Company verification: The catalog distinguishes dated product listings and planned releases; it does not establish that every listed release is currently delivered.
191. ベースボール・マガジン社　BBM@BOOK CART
    - Company verification: The publisher's official sports-card catalog lists BBM baseball-card products and 2026 team-card offerings.
    - Company verification: The inspected catalog also lists BBM Baseball Card FUSION2026 for late November 2026; that is a future scheduled release relative to this checkpoint.
192. A message from Grant Copley, Founder of Select Cards - Select Cards
    - Company verification: Select's October xx.xx 2026 founder announcement states that its AFL trading-card license will end on October xx.xx 2026.
    - Company verification: The dated announcement supersedes assuming an indefinite continuation of its AFL publishing rights.
193. Select Collector Club (SCC) Portal - Select Cards
    - Company verification: Select's collector-club page identifies separate AFL and NRL clubs for 2026 and states that Select has returned to NRL collectible-card licensing.
    - Company verification: The page supports an NRL commercial portfolio beyond the separately qualified AFL license.
194. State of the Game, Feb. 2026
    - Company verification: Riot's Riftbound product update identifies continuing work with UVS and Shining Soul.
    - Company verification: The official Riftbound update names Shining Soul as a commercial partner.

195. 官方小程序

- Company verification: The SHINING SOUL official page identifies 上海真友趣文化科技有限公司 in its operating-site footer.

196. MetaTwo and GameQbator Labs Advance MetaZoo TCG to Its Next Phase, with MetaTwo Assuming the Global Publishing Role

- Company verification: The June xx.xx 2026 joint announcement names MetaTwo Enterprises LLC as assuming the MetaZoo TCG publishing role.
- Company verification: The announcement identifies GameQbator Labs, Inc. as a TCG incubator continuing in an advisory capacity after the publishing transition.

197. Warlord: Saga of the Storm

- Company verification: The official Warlord site identifies Kingswood Games and its licensed Warlord: Saga of the Storm offering.
- Company verification: Kingswood directs Warlord buyers to its partner Covenant.
- Company verification: The Warlord site identifies AEG as licensor; the abbreviated identity is not expanded here.

198. Our vision - Black Chantry Productions

- Company verification: Black Chantry identifies Vampire: The Eternal Struggle as its publishing project.
- Company verification: Black Chantry names Paradox Interactive as its licensor.

199. FAQ - Black Chantry Productions

- Company verification: Black Chantry describes fixed-content Vampire products sold through stores and print-on-demand channels.
- Company verification: Black Chantry identifies DriveThruCards as a print-on-demand commercial channel.

200. Trading Cards - SideKick Lab

- Company verification: SideKick's dedicated category advertises non-sport trading cards, including Metropolis and Machete card sets.

201. Shop - Gem Blenders

- Company verification: The dedicated official shop advertises Gem Blenders card-game products.

202. CGC Cards 指定达咖文化为中国境内官方提交中心 | NGC

- Company verification: An October xx.xx 2023 announcement names 上海达咖文化发展有限公司, also called DAKA, as an appointed CGC Cards submission center.

203. DAKA 达咖文化的微博_微博

- Company verification: DAKA's company-published profile identifies 上海达咖文化发展有限公司 and sports-card issuing activity; promotional ranking and exclusivity claims are not adopted.

204. Club Legacyz - Exclusive cards created by the greatest football stars

- Company verification: The Club Legacyz storefront advertises Icons Football Cards and provides a Paris business contact.
- Company verification: The storefront's offered or preorder products are not evidence of completed fulfillment.

205. Products · VTC Global Trading

- Company verification: VTC advertises U.S. wholesale distribution of Kakawow and Kayou trading-card products to hobby retailers.
- Company verification: The advertised distribution role is company-published, not independently confirmed authorization.

206. How It Works | Courtyard

- Company verification: Courtyard describes digital packs, a marketplace, custody, and physical delivery of real graded cards.
- Company verification: The page identifies Courtyard, Inc. in its business footer.

207. FOW
- Company verification: Force of Will's company page names EYE SPY PRODUCTIONS PTE. LTD. and a Singapore business address.

208. FOW
- Company verification: The official Force of Will catalog lists named booster and starter products, including The Quest of the Seven Keys and Journey to Ravidra.

209. FOW
- Company verification: The publisher directory lists YY Card World as a North American distribution contact.
- Company verification: The directory names GTS Distribution.
- Company verification: The directory names Universal Distribution in Canada.
- Company verification: The directory names Southern Hobby Supply.

210. 關於我們 TSC
- Company verification: TSC's business page describes its professional-player-card business and named historical Taiwanese baseball-card releases.

211. 服務種類 | 片片故事球員卡
- Company verification: Pieces of Stories advertises collectible player-card and custom-card services.
- Company verification: The page describes commercial event relationships involving the CTBC Brothers and FOX Sports.

212. Introducing the Official Cyberpunk Trading Card Game - WeirdCo
- Company verification: WeirdCo announces its official Cyberpunk Trading Card Game project.
- Company verification: The announcement concerns a planned commercial release and does not establish completed retail fulfillment.

213. Cyberpunk Trading Card Game Launches Kickstarter Campaign - CD PROJEKT RED
- Company verification: CD PROJEKT RED's March xx.xx 2026 announcement identifies WeirdCo's collaborative physical Cyberpunk TCG project and crowdfunding launch.
- Company verification: CD PROJEKT RED publicly announces the Cyberpunk TCG campaign and its collaboration with WeirdCo.

214. Suplay
- Company verification: Suplay's exhibitor profile states that the group wholly owns the Kakawow collectible-card brand.

215. Suplay Inc. | LinkedIn
- Company verification: The company-published Suplay Inc. profile identifies Kakawow within its portfolio and describes collectible-card operations.

216. THE POKÉMON COMPANY INTERNATIONAL PLEDGES $25 MILLION TO PHILANTHROPIC INITIATIVES
- Company verification: The August xx.xx 2022 announcement explicitly identifies The Pokémon Company International as a subsidiary of The Pokémon Company in Japan.

217. 2025_COMPANY PROFILE_中国語版
- Company verification: Broccoli's company profile states that it became wholly owned by HAPPINET in 2023.
- Company verification: The profile identifies Broccoli's Z/X trading-card-game business.

218. Lycee Overture グッズ ｜ムービック（movic）
- Company verification: Movic's official catalog advertises named Lycee Overture booster and starter products, supplementing its captured OSICA portfolio.

219. Asmodee group's companies list - Updated May 19, 2025
- Company verification: The group-company document updated May xx.xx 2025 identifies Asmodee Group AB and lists ADC Blackfire Entertainment GmbH within the Asmodee group.
- Company verification: Asmodee's group-company document identifies ADC Blackfire Entertainment GmbH, its Ratingen registered office, and registration number HRB xx.xx; the retained distributor overlaps the Asmodee reporting group.

220. Über asmodee - Asmodee Deutschland
    - Company verification: Asmodee Germany's business description identifies ADC Blackfire as a separate company within its German business units; separate legal operation does not establish independence from the Asmodee group.
221. Canadian Trademarks Database - Prince Distribution, Application 2052435
    - Company verification: The Canadian trademark register identifies xx.xx Ontario Inc as the registered owner of Prince Distribution, registration TMA1350506, registered September xx.xx 2025.
    - Company verification: The registered services concern trading cards and collectibles; trademark ownership alone does not establish the complete operating or beneficial-ownership perimeter.
222. BLISS DISTRIBUTION LIMITED - Companies House Overview
    - Company verification: Companies House identifies BLISS DISTRIBUTION LIMITED, company number xx.xx as an active private limited company with a Blackburn registered office.
    - Company verification: The register records DRACCO UK LIMITED as a former name; it does not establish an Asmodee ownership relationship.
223. Bliss Distribution Limited - Company-Published LinkedIn Profile
    - Company verification: The company-published Bliss Distribution Limited profile describes UK-based wholesale distribution of trading cards, games, and collectibles and identifies its Blackburn business location.
    - Company verification: The profile's address matches the inspected company-register address; promotional rankings are not adopted.
224. Legals Informations - Ynaris
    - Company verification: Ynaris's legal notice identifies SARL Ynaris, registration xx.xx Meaux, and a Saint-Soupplets, France address.
    - Company verification: The company expressly describes its role as distribution, and its commerce navigation includes Grand Archive and other named TCG portfolios; displayed categories do not establish current inventory.
225. Universal Distribution LLC and Ad Populum Complete Acquisition of Diamond Comic Distributors and Related Assets
    - Company verification: Diamond Comic Distributors' May xx.xx 2025 announcement states that the sale was completed and that Universal Distribution LLC acquired the assets of Alliance Game Distributors.
    - Company verification: The announcement describes Universal's Canadian hobby-store distribution business, including sports cards, non-sports cards, and collectible card games; it does not fully resolve the relationship among regional operating entities.
226. Our Brands - Collectors
    - Company verification: Collectors' inspected brand portfolio includes PSA, PSA Vault, Beckett, and SGC, supplementing the earlier Beckett acquisition-agreement record.
    - Company verification: The portfolio supports a current group-brand relationship but supplies no dated Beckett closing record.
    - Company verification: Collectors currently presents Beckett among its brands and describes authentication, grading, guides, and publications.
    - Company verification: This supports group affiliation, not Beckett's economic independence or an exact acquisition-completion date.
227. General Terms and Conditions and Privacy Policy for Comprehensive Cardmarket x TCG Community Survey
    - Company verification: Cardmarket's official survey terms identify Sammelkartenmarkt GmbH & Co. KG, Nordkapstrasse xx.xx Berlin, as the Cardmarket operator.
    - Company verification: The terms describe platform accounts and an activity period beginning August xx.xx 2026, supplying a dated contemporary operator-to-platform bridge; no survey findings are used.
228. About Us - COMC
    - Company verification: COMC's company-maintained About Us article identifies Check Out My LLC in Redmond, Washington, and explains the transition from CheckOutMyCards.com to COMC.com.
    - Company verification: The article was updated January xx.xx 2023; its historical identity facts are supplemented by a separately inspected 2026 service description.

229. COMC Introduction - COMC
   - Company verification: COMC's introduction, updated April xx.xx 2026, advertises trading-card consignment, online buying and selling, inventory storage, and an eBay marketplace relationship.
   - Company verification: The service description establishes contemporary card-commerce participation; its self-claimed size ranking is not adopted.
230. Card Breaks - Whatnot Trust Center (US)
   - Company verification: Whatnot's US Trust Center explicitly identifies its online card-break commerce format for trading and sports cards.
   - Company verification: The card-specific page establishes a platform role beyond a generic live-shopping description; it does not establish publishing rights or card-only revenue.
231. Whatnot Legal Center
   - Company verification: Whatnot's legal center identifies Whatnot Inc. as the US service provider and Whatnot Europe Limited as the provider for specified European jurisdictions.
   - Company verification: The legal material establishes contracting-entity distinctions without establishing ultimate ownership or market-specific financial scale.
232. TCGplayer Expands Australian Access to U.S. Trading Card Game Marketplace
   - Company verification: TCGplayer's October xx.xx 2026 announcement identifies it as an eBay company and announces expanded Australian access to its US trading-card marketplace.
   - Company verification: The announcement distinguishes eligible direct international fulfillment from a separate package-forwarding option; attributed third-party market-research claims are excluded.
233. eBay Inc. Reports Second Quarter 2024 Results - Exhibit 99.1
   - Company verification: eBay's second-quarter 2024 earnings exhibit states that its Goldin acquisition was completed on May xx.xx 2024.
   - Company verification: This resolves announcement-versus-completion for that transaction date, not every subsequent card-business ownership change.
234. Topps - Breakrs
   - Company verification: Breakrs' dedicated Topps collection advertises named physical sports and entertainment trading-card products.
   - Company verification: This supports a specialist retail/channel role, not an independent card-publishing role or realized sales volume.
235. Contactgegevens - Breakrs
   - Company verification: Breakrs' contact notice supplies a Raamsdonksveer, Netherlands correspondence address and self-published registration identifiers.
   - Company verification: The same notice references TCG's.nl and tradingcardsgames.nl; it does not establish the full legal operator, ownership, or a separately operating second company.
   - Company verification: The company expressly states that the correspondence address is not a pickup, visitor, return, or inventory location.
236. Dreamlike Oceans - Card of the Week - Snow [28-031L] - FF Trading Card Game
   - Company verification: The official Final Fantasy TCG article dated February xx.xx 2026 identifies the Hobby Japan FFTCG Development Team and a named forthcoming physical-card expansion.
   - Company verification: This establishes a contemporary title-partner role; it does not establish the exact legal contracting entity, ownership, distribution economics, or subsequent fulfillment.

24. Key Experts

Contributors

Shikha Sachan

Chief Executive Officer

A transformational leader with a strong focus on integrating new technology frameworks into market research. She focuses on reshaping business models in line with evolving technologies and geopolitical shifts, while actively engaging with decision-makers and experts to deliver trustworthy insights, strategic clarity, and lasting business value.

Shraddha Bhirud

Research Manager

With extensive experience in market intelligence, leads complex client engagements by overseeing multiple research projects from initiation to delivery. Strengthens research operations timely through standardized methods, process optimization, and cross-functional collaboration while supporting sales initiatives. Her commitment to quality, and client success ensures the delivery of actionable insights.

Vivek Paymode

Research Lead

Oversees end-to-end research engagements by mentoring analysts and delivering reliable market intelligence. Specializes in industry analysis, company profiling, trend evaluation, opportunity assessment, and quality assurance. Collaborates closely with clients and internal teams to ensure actionable insights that support informed strategic business decisions.

Shailesh Sachan

Research Lead

Leads market intelligence projects by guiding research analysts and ensuring accurate, insight-driven deliverables. Specializes in competitive benchmarking, market assessment, research planning, data validation, and project execution. Delivers high-quality outcomes through effective client coordination, structured workflows, and consistent adherence to project timelines and quality standards.

360iResearch

Founded in 2017, 360iResearch is a market research and business consulting company headquartered in India, with clients and focus markets spanning the globe.

We are a dynamic, nimble company that believes in carving ambitious, purposeful goals and achieving them with the backing of our greatest asset - our people.

Quick on our feet, we have our ear to the ground when it comes to market intelligence and volatility. Our market intelligence is diligent, real-time and tailored to your needs, and arms you with all the insight that empowers strategic decision-making.

Our clientele encompasses about 80% of the Fortune Global 500, and leading consulting and research companies and academic institutions that rely on our expertise in compiling data in niche markets. Our meta-insights are intelligent, impactful and infinite, and translate into actionable data that support your quest for enhanced profitability, tapping into niche markets, and exploring new revenue opportunities.
